UNHCR	Office of the United Nations High Commissioner for Refugees
UNICEF	United Nations Children's Fund
UNJSPF	United Nations Joint Staff Pension Fund
WHO	World Health Organization

GLOSSARY

The following are brief definitions of the technical and financial terms used in the Programme and Budget.

Budget reform – This is the process by which the Organization's core budget is being strengthened to keep pace with growth. The Working Group on Budget Reform was created by the Standing Committee on Programmes and Finance in 2010 to address this issue and continues to work on proposals to strengthen the core budget.

Budgeted resources – This refers to the anticipated funding in the financial year for reimbursement of services provided, and to funding commitments made by donors to provide funds for new and/or ongoing activities. It relates to funding received in the current year or brought forward from previous years.

Core staff and services – Staff positions and office support costs required for overall management and administration and which are not directly linked to a specific activity.

Earmarked contributions – Contributions made or reimbursed for specific services or operational activities. Such contributions may not be used for purposes other than those for which they were provided without prior authorization by the donor. A significant portion of contributions to the Operational Part of the Budget is earmarked.

Endowment fund – A fund in which the principal must remain permanently intact and only the income (usually in the form of interest) can be used for projects and activities.

Income brought forward from previous years – The excess of income over expenditure of a previous financial year and earmarked contributions received in advance of the current financial year.

Loan fund – A fund that permits the financing, in part or in whole, of the cost of transport for refugees and related services by giving loans to those who require financial assistance to migrate to areas of resettlement. Repayment of such loans is secured by promissory notes signed by the refugee or his or her sponsor.

Miscellaneous income – This income is composed of "unearmarked contributions" from governments/donors, interest and other income.

Operational Support Income – This income is composed of "project-related overhead" and "miscellaneous income", as described in this glossary.

Projectization – The practice of allocating staff and office costs to the operational activities/projects to which they relate. This concept, and its related tools and procedures, is referred to as projectization.

Project-related overhead – This is an overhead charge applied to all operational projects to cover indirect costs which are not directly linked to specific projects.

Unearmarked contributions – Contributions to the Operational Part of the Budget are unearmarked if they are given as general support and their use is not in any way restricted.

FOREWORD

The IOM Programme and Budget for 2021 is presented to Member States in the context of a global pandemic that is having devastating effects on society and the global economy, challenging the Organization, its Member States, stakeholders and beneficiaries. The global health crisis has deeply affected the Organization, slowing down the delivery of services to beneficiaries. In response, the Administration has promptly developed policies and procedures to manage these unforeseen events and, after careful consideration, the staff structure of several field offices has been adjusted to mitigate the financial impact of this crisis. The rising demands resulting from the COVID-19 pandemic have exacerbated the pre-existing limitations of IOM's funding model, underscoring the need for reforms to the financial framework to ensure that the level of core resources enables the Organization to meet the expected level of accountability, transparency, efficiency and cost-effectiveness and ensure sound management practices in the administration of the funds entrusted to the Organization.

The Administration is implementing the recent changes to the budget regulations approved by Member States which allow for a more realistic projection of the level of the OSI in line with the latest and current trends. While these changes give additional flexibility to the Administration in terms of managing its core resources, they do not necessarily lead to an increase in the core budget. The expectation for the Organization to remain flexible, agile and responsive is severely constrained by a financial framework which is not fit for purpose and also limits the capacity of the Organization to adopt a more proactive approach in taking advantage of emerging opportunities. Consequently, the recent changes are still inadequate to cover critical institutional needs. I trust we can continue to work together with Member States through the budget reform process to address the deep reliance of IOM's core structure on an unpredictable OSI funding stream.

The year ahead will be a difficult one during which the Administration will make all possible efforts to maintain its essential core structures while remaining cognizant of the risk factors that need to be addressed as a result of the Organization's remarkable growth over the past few years. This growth has accelerated in recent years and is expected to continue given the increasing complexity of migration dynamics and emerging and protracted crisis situations across the world involving migrants, refugees and internally displaced persons. While we hope the world will see better days as efforts to control the pandemic continue, we are preparing for continued instability in the months ahead.

The Programme and Budget for 2021 has been prepared based on a financially prudent analysis of the economic situation and incorporating the most critical priorities that have been outlined by the Administration to guide IOM's work. This provides an opportunity for the membership and the Administration to work together to meet the challenges of the future and ensure the Organization can effectively meet its commitments.

IOM will actively continue to provide essential assistance to migrants in need and to pursue and consolidate its strategic priorities, articulated in the Strategic Vision 2019–2023, while remaining committed to strengthening collaboration with partners both at Headquarters and in the field. Research, reliable and coherent data, policy advice, strategic communication, national capacity-building will be key areas for the development of partnerships and programming. Member States' proprietorship of the Organization is reflected in the continued engagement of Member States in the IOM governing bodies and the Working Group on Budget Reform and in key initiatives, such as defining its role and responsibilities within the United Nations system.

The implementation of the Internal Governance Framework will be critical to optimize the use of the resources entrusted to the Organization. The comprehensive workplan for the application of the Framework shared recently with Member States will increase the quality of the Organization's overall functioning by driving continuous improvement. The Framework seeks to enhance IOM's overall efficiency, effectiveness, agility, consistency, accountability and transparency while striving to continuously innovate and automate processes based on the latest technological trends.

IOM operates in a rapidly changing environment but continues to contribute effectively to migration governance at global, regional and national level and will work with Member States and partners to ensure its activities are well planned and well coordinated. The Organization is further developing its capacity to maintain quality, flexibility and consistency across its operations globally, and is working to strengthen its migration policy capacity to support Member States and the international community more widely, including through the newly created Policy Hub. Furthermore, the Organization continues to be a key player in humanitarian and development work through its participation in the Inter-Agency Standing

Committee and its cluster system, and activities related to the implementation of the 2030 Agenda for Sustainable Development.

The establishment of the United Nations Network on Migration, with IOM as coordinator, has provided an opportunity to further enhance coordination on migration issues within the United Nations system and to deliver effective and coherent system-wide support to States in the implementation, follow-up and review of the Global Compact for Safe, Orderly and Regular Migration. The Start-up Fund for Safe, Orderly and Regular Migration – established by the Network in 2019 – is the first pooled funding instrument focusing on migration. Despite the unexpected challenge of the COVID-19 pandemic, the commitment of the Network Steering Committee members and their flexibility in adopting new working methods mean that the ambitious goal of having the programmes up and running before the end of the year is within reach.

The COVID-19 crisis has reinforced the need for the budget reform. The Administration will continue working with Member States through the Working Group on Budget Reform to explore more long-term and sustainable options. This is consistent with the decision made by the Member States to review the rates of increase in the Administrative Part of the Budget from 2017 onwards to avoid an erosion of the budget situation and the undermining of the budget-strengthening actions taken (Council Resolution No. 1265 of 26 November 2013).

I trust that Member States will approve the Programme and Budget for 2021 as proposed in order to support the effective and sustainable management of the Organization.

In conclusion, I would like to express my sincere appreciation to all Member States for their unconditional support for the work of the Organization during the second year of my tenure and look forward to our work together over the coming years. Your support has enabled IOM to continue to serve migrants and governments, thereby ensuring that the Organization's mandate is implemented efficiently and effectively.

2 Sour lever of

António Vitorino Director General

KEY DECISIONS FOR 2021

DECISIONS REQUIRED ON THE PROGRAMME AND BUDGET FOR 2021

BUDGET LEVEL

Administrative Part of the Budget

1. The Administrative Part of the Budget is presented on the basis of zero nominal growth at the level of CHF 52,242,614.

2. In line with the deliberations of Member States regarding strengthening the senior leadership of the Organization, a new position for second Deputy Director General and the structures to support the function – namely a Special Adviser and an Administrative Assistant – are proposed.

Operational Part of the Budget

3. The Operational Part of the Budget is based on anticipated funding and is estimated at USD 913.4 million, which is 6.41 per cent higher than the 2020 budget of USD 858.3 million projected at the same time last year.

Operational Support Income

4. The budget level established anticipates income that will be generated in line with the established institutional policies relating to the overhead rate applicable to projects implemented by the Organization. The OSI budget level projected for 2021 is USD 128 million. In line with Standing Committee on Programmes and Finance Resolution No. 18 on budget regulations and practices, adopted on 27 June 2018, the OSI projection has been established based on the actual results derived from the latest Financial Report of the Organization and taking into consideration current and expected trends.

5. This budget proposal has been prepared on the basis of the proposed amendments to the budgetary regulations and practices discussed in the Working Group on Budget Reform as per document WG/BR/2020/3, which are as follows: (a) consolidation of the separate mechanism for OSI relating to staff security into the larger OSI projection and reserve mechanism; (b) modification of the formula to determine the allocation to the IOM Development Fund, with a direct budget allocation of USD 15 million (USD 1.4 million to Line 1 and USD 13.6 million to Line 2); and (c) consolidation of the Emergency Preparedness Account into the Migration Emergency Funding Mechanism.

OVERVIEW

INTRODUCTION TO THE BUDGET

6. The present budget document underlines the services offered by the Organization through the initiatives outlined, which reinforce the partnerships and collaboration that have been developed and strengthened with Member States, international organizations, civil society and other partners.

7. Owing to the magnitude of the migration phenomenon and the engagement of IOM staff worldwide, the establishment of adequate structures that foster responsive attention to its constituents is therefore imperative for the Organization. IOM's core structure, which oversees the overall delivery of services, is funded by the Administrative Part of the Budget and OSI.

BUDGET FORMAT

8. The Programme and Budget for 2021 is presented in two main parts in accordance with the Organization's Financial Regulations. Separate sections are included for further clarity and ease of reference.

9. Part I covers the Administrative Part of the Budget, which is denominated in Swiss francs and funded by the assessed contributions of Member States. The details of the Administrative Part of the Budget are presented in the object of expenditure table (pages 60 and 61).

10. The Operational Part of the Budget, presented in Part II, is denominated in US dollars and outlines the activities for which budgeted resources could be reasonably estimated when the document was prepared. Any additional financial resources received for new and ongoing activities in the course of the financial year will be reported in future revisions of this document.

BUDGET LEVELS

11. The Administrative Part of the Budget has been prepared on the basis of zero nominal growth and is presented at CHF 52,242,614.

12. The Operational Part of the Budget is based on anticipated funding and is estimated at USD 913.4 million, which is 6.41 per cent higher than the 2020 budget of USD 858.3 million projected at the same time last year. It should be noted that the Organization prepares its budget based on anticipated funding, and this figure represents the funding for 2021 confirmed thus far. The total funding ultimately received and the total actual expenditure for 2021 will be higher. Accordingly, the OSI budget has been increased from USD 123 million in 2020 to USD 128 million in 2021, which represents a 4.07 per cent increase. It is also important to note that OSI funding to complement the core structure will be allocated directly from unearmarked income in the amount of USD 5 million. In line with Standing Committee on Programmes and Finance Resolution No. 18 on budget regulations and practices, adopted on 27 June 2018, the OSI projection has been established based on the actual results derived from the latest Financial Report of the Organization and taking into consideration current and expected trends.

13. In addition to funding 70 per cent of the core structure, a portion of OSI is allocated to the IOM Development Fund and to cover the fees for IOM participation in the UNDSS mechanism and the cost of IOM staff security structures. The projects financed by the IOM Development Fund are not described by activity in this document, as they are presented in a separate report.

14. The table on pages 48 and 49 presents the application of combined resources under both the Administrative Part of the Budget and OSI.

GENERAL FINANCE AND BUDGET PRINCIPLES FOR FINANCIAL MANAGEMENT AT ORPE

15. The following key principles provide the policy framework for IOM's financial management, in particular with regard to project budgets under the Operational Part of the Budget. These key principles are explained in greater detail in the document entitled IOM's financial and administrative policies applicable to operational projects funded by voluntary contributions (IC/2009/7).

16. **Direct costs** are costs that are incurred for, and can be attributed directly to, specific project activities. Direct costs are included in project budgets and are charged to the project. These include project personnel, equipment, project premises, travel and any other input necessary to achieve the project's objectives.

17. **Indirect costs** are costs that are incurred by IOM for administrative support services which cannot be attributed to specific projects. The indirect costs cover mostly administrative services, general oversight functions at Headquarters and in the field, and staff security structures that allow the Organization to implement its activities across the globe efficiently and in a coherent manner.

18. **Projectization** is the practice adopted by IOM to allocate costs to project activities based on the staff time spent working on that activity. Every activity in IOM is assigned a project code used to record all funding and expenditure relating to that activity. Each project is managed by a project manager, who is accountable for the efficient use of resources to achieve the project's objectives.

19. **Project-related overhead** is a percentage charged on all project-related direct costs and is used as supplementary funding for the Organization's core structure and to cover the Organization's fees for participation in the UNDSS mechanism and other staff security costs. The current project-related overhead rate is 7 per cent on total costs.

20. **Terminal emoluments:** This is the sum of entitlements due to a staff member upon separation from the Organization in line with the employment contract or the Staff Regulations and Rules. For staff covered by the Administrative Part of the Budget, a budgetary method is used to pay separation entitlements to those who leave the Organization. However, the majority of staff are covered by the Operational Part of the Budget and a reserve is maintained equal to the total estimated terminal emoluments. This is currently covered by charging 6 per cent on the staff costs of all projects. The percentage is regularly reviewed to determine its appropriateness. Terminal emoluments include: (a) severance pay or termination indemnity; (b) unused annual leave; (c) other entitlements such as repatriation grants and travel costs for Professional category staff; and (d) after-service health insurance coverage.

SUMMARY TABLES

Administrative Part of the Budget (funded by assessed contributions of Member States)

	2020 (C/110/8) CHF	2021 Estimates CHF
Administration	52 242 614	52 242 614

Operational Part of the Budget (funded by voluntary contributions)

	SERVICES/SUPPORT	2020 (C/110/8) USD	2021 Estimates USD
Ι.	Movement, Emergency and Post-crisis Programming	292 273 900	408 338 500
II.	Migration Health	123 890 600	89 111 500
III.	Migration and Sustainable Development	19 458 800	24 741 300
IV.	Regulating Migration	322 291 300	281 061 400

VI.	Migration Policy, Research and Communications	3 146 600	4 755 300
VII.	Land, Property and Reparation Programmes	6 542 500	208 000
VIII.	General Programme Support	27 647 900	32 554 200
	TOTAL	858 321 000	913 367 000

ADJUSTMENTS TO THE ORGANIZATIONAL STRUCTURE

21. No major changes are proposed to the core structure compared to the last budget revision in 2020.

22. IOM's organizational structure is designed to facilitate the allocation of limited core resources in order to further enhance the Organization's effectiveness. The primary objective is therefore to strengthen under-resourced functions at Headquarters to ensure stronger oversight, guidance and policy-setting and in the regional offices and the administrative centres, which are in the field and closer to the beneficiaries of the Organization's services.

23. The core structure is composed of four Headquarters departments, two administrative centres, nine regional offices, two special liaison offices, the African Capacity Building Centre, the Global Migration Data Analysis Centre and a network of country offices spread across the globe.

24. With the constant changes in global migration dynamics, the Administration is committed to monitoring the core structure regularly to evaluate its continued relevance and effectiveness and to propose changes, as necessary, through the yearly budget process. Further options to delocalize functions and services to lower-cost locations continue to be vigorously pursued, in keeping with the Administration's aim of maintaining lean structures without putting the Organization's operations at risk.

25. While some of the proposed changes relate to the establishment of new positions, most of the changes have no additional cost implications as they relate to moving existing staff positions between the Administrative Part of the Budget and OSI in order to balance the budgets. The proposed changes are reflected under the relevant sections of this document.

HEADQUARTERS

26. Headquarters is responsible for the formulation of institutional policy, the development of guidelines and strategy, setting standards and quality control procedures, and for knowledge management. Headquarters has the following four departments reporting to the Office of the Director General: (a) Department of International Cooperation and Partnerships; (b) Department of Migration Management; (c) Department of Operations and Emergencies; and (d) Department of Resources Management.

27. The following changes relating to staff are proposed for Headquarters to strengthen key functions.

Office of the Director General

- Establishment of the following Professional category positions:
 - One Deputy Director General position in the Office of the Director General
 - One position for a special adviser to the new Deputy Director General in the Office of the Director General
 - One position for inspection in the Office of the Inspector General
 - One senior legal officer position in the Office of Legal Affairs for data protection and governance
- Establishment of a General Service position in the Office of the Director General to provide administrative support to the new Deputy Director General
- Transfer of the following Professional category positions to the Office of the Inspector General in Geneva:
 - Transfer of one position of Oversight Officer from the Manila Administrative Centre
 - Transfer of one Internal Auditor position from the Manila Administrative Centre

Department of Resources Management

- Establishment of the following Professional category positions:
 - Two positions for information and communications technology at Headquarters
 - Two positions for information and communications technology in Valencia, Spain
 - One position for financial management in the Accounting and Financial Reporting Division
- Moving the following positions, previously funded by the Administrative Part of the Budget, to OSI funding:
 - One Driver in the Common Services Unit
 - One Administrative and Support Assistant in the Common Services Unit
 - One Printing Assistant in the Common Services Unit

• Elimination of one General Service category position for information and communications technology

ADMINISTRATIVE CENTRES

28. The Manila and Panama Administrative Centres serve as administrative hubs providing extensive support to the Organization's global network of offices.

Manila Administrative Centre

- Establishment of six General Service positions to support global administrative services
- Transfer of the following positions to the Office of the Inspector General at Headquarters:
 - One Professional category Oversight Officer position
 - One Professional category position of Internal Auditor
- Moving the following positions, previously funded by the Administrative Part of the Budget, to OSI funding:
 - One Human Resource Assistant position
 - One Senior Human Resource Assistant position
 - Two National Human Resource Officer positions
- Elimination of one Professional category position for information and communications technology
- Elimination of one Professional category position for human resources management

REGIONAL, COUNTRY AND SPECIAL LIAISON OFFICES

29. The regional offices have oversight responsibilities for the country offices under their areas of coverage. Their configuration is designed to support and oversee migration activities globally and enhance effective use of core resources and expertise within and across regions. The special liaison offices are responsible for liaison with multilateral bodies. To strengthen the capacity of the regional offices and the special liaison offices, the following changes are proposed in line with the objective of having a strong presence in the field closer to the beneficiaries of the Organization's services.

Regional Office in Bangkok

• Moving one Professional category position of Regional Thematic Specialist, previously funded by the Administrative Part of the Budget, to OSI funding

Regional Office in Brussels

- Transfer of the Professional category position of Senior Liaison Officer to the IOM Office in Poland
- Moving one Professional category position of Regional Thematic Specialist previously funded by the Administrative Part of the Budget, to OSI funding

Regional Office in Buenos Aires

• Moving one National Officer category position for regional policy and liaison, previously funded by the Administrative Part of the Budget, to OSI funding

Regional Office in San José

Establishment of one Professional category position for regional knowledge management

Regional Office in Cairo

• Moving one Professional category position of Regional Thematic Specialist, previously funded by the Administrative Part of the Budget, to OSI funding

Regional Office in Dakar

• Moving one Professional category position for Regional Thematic Specialist, previously funded by the Administrative Part of the Budget, to OSI funding

Regional Office in Nairobi

• Moving one General Service category position for research and project development, previously funded by the Administrative Part of the Budget, to OSI funding

IOM Mission to the United Nations in New York

• One Professional category position for human resources management partially covered from OSI changed funding source to be fully projectized

Special Liaison Office in Addis Ababa, Ethiopia

- Moving one General Service category position for administrative support, previously funded by the Administrative Part of the Budget, to OSI funding
- Transfer of one Professional category position of Liaison Officer to the IOM Office in Djibouti
- Transfer of one National Officer category position of Liaison Officer to the IOM Office in Djibouti

DESCRIPTION OF THE ORGANIZATION

CONSTITUTION AND GOVERNANCE

30. The Organization was established in December 1951 and began its operations in early 1952 as the Intergovernmental Committee for European Migration. Its Constitution was adopted on 19 October 1953 and came into force on 30 November 1954. The Constitution was amended, effective 14 November 1989, and the Organization was renamed the International Organization for Migration. The Constitution was amended again, effective 21 November 2013; these amendments led to the current governance structures and did not contain any new obligations for Member States.

31. With these amendments to the Constitution, the organs of the Organization are the Council, the Standing Committee on Programmes and Finance and the Administration. The Council, on which each Member State has one representative and one vote, is the highest authority and determines IOM policies. The Standing Committee, which is open to the entire membership, meets twice a year to examine and review policies, programmes and activities and to discuss budgetary and financial matters. Between sessions of the Council, the Standing Committee makes urgent decisions on matters falling within the competence of the Council.

32. The Administration, which comprises the Director General, the Deputy Director General and such staff as the Council may determine, is responsible for administering and managing the Organization in accordance with the Constitution and the policies and decisions of the Council and the Standing Committee. The Director General, who is the Organization's highest executive official, and the Deputy Director General are elected by the Council for a period of five years and can be re-elected for only one additional term.

33. IOM is committed to the principle that humane and orderly migration benefits migrants and society. It acts to help meet the operational challenges of migration, advance understanding of migration issues, encourage social and economic development through migration, and work towards effective respect for the human rights and well-being of migrants.

- 34. In accordance with the Constitution, the purposes and functions of the Organization are:
- To make arrangements for the organized transfer of migrants for whom existing facilities are inadequate, or who would not otherwise be able to move without special assistance, to countries offering opportunities for orderly migration.
- To concern itself with the organized transfer of refugees, displaced persons and other individuals in need of international migration services, for whom arrangements may be made between the Organization and the States concerned, including those States undertaking to receive them.
- To provide, at the request of and in agreement with the States concerned, migration services such as recruitment, selection, processing, language training, cultural orientation activities, medical examination, placement, activities facilitating reception and integration, advisory services on migration questions, and other assistance as is in accord with the aims of the Organization.
- To provide similar services as requested by States, or in cooperation with other interested international organizations, for voluntary return migration, including voluntary repatriation.
- To provide a forum to States as well as international and other organizations for the exchange of views and experiences, and the promotion of cooperation and coordination of efforts on international migration issues, including studies on such issues in order to develop practical solutions.

IOM'S STRATEGIC FOCUS AND THE MIGRATION CONTEXT

35. At the Ninety-third (Special) Session of the Council in June 2007, Member States adopted the IOM Strategy, which defined the Organization's mission and strategic focus for the coming years. The Strategy was reviewed every three years and was also the subject of the deliberations of the Working Group on IOM–UN Relations and Related Issues, established by Member States at the Thirteenth Session of the Standing Committee on Programmes and Finance in 2013.

36. The primary goal of IOM is "to facilitate the orderly and humane management of migration". Building on its expertise and experience, and in coordination with other international organizations, IOM continues to act as the leading global organization for migration. The Organization will continue to address the migratory phenomenon from a comprehensive perspective, taking into account the links to development, in order to maximize its benefits and minimize its negative effects. To achieve that goal, IOM will focus on the following activities, acting at the request of or in agreement with Member States:

- 1. To provide secure, reliable, flexible and cost-effective services for persons who require international migration assistance.
- 2. To enhance the humane and orderly management of migration and the effective respect for the human rights of migrants in accordance with international law.
- 3. To offer expert advice, research, technical cooperation and operational assistance to States, intergovernmental and non-governmental organizations and other stakeholders, in order to build national capacities and facilitate international, regional and bilateral cooperation on migration matters.
- 4. To contribute to the economic and social development of States through research, dialogue, design and implementation of migration-related programmes aimed at maximizing migration's benefits.
- 5. To support States, migrants and communities in addressing the challenges of irregular migration, including through research and analysis into root causes, sharing information and spreading best practices, as well as facilitating development-focused solutions.
- 6. To be a primary reference point for migration information, research, best practices, data collection, compatibility and sharing.
- 7. To promote, facilitate and support regional and global debate and dialogue on migration, including through the International Dialogue on Migration, so as to advance understanding of the opportunities and challenges it presents, the identification and development of effective policies for addressing those challenges and to identify comprehensive approaches and measures for advancing international cooperation.
- 8. To assist States to facilitate the integration of migrants in their new environment and to engage diasporas, including as development partners.
- 9. To participate in coordinated humanitarian responses in the context of inter-agency arrangements in this field and to provide migration services in other emergency or post-crisis situations as appropriate and as relates to the needs of individuals, thereby contributing to their protection.¹
- 10. To undertake programmes which facilitate the voluntary return and reintegration of refugees, displaced persons, migrants and other individuals in need of international migration services, in cooperation with other relevant international organizations as appropriate, and taking into account the needs and concerns of local communities.
- 11. To assist States in the development and delivery of programmes, studies and technical expertise on combating migrant smuggling and trafficking in persons, in particular women and children, in a manner consistent with international law.
- 12. To support the efforts of States in the area of labour migration, in particular short-term movements, and other types of circular migration.

¹ Although IOM has no legal protection mandate, the fact remains that its activities contribute to protecting human rights, having the effect, or consequence, of protecting persons involved in migration.

MIGRATION GOVERNANCE FRAMEWORK

37. In November 2015, Member States welcomed the IOM Migration Governance Framework and requested the Director General to use the Framework to guide the Organization's activities on the basis of available resources and to report to the IOM Council on a regular basis on relevant updates or developments. Member States were encouraged to use the Framework to enhance their own governance of migration and mobility, with support from IOM. The Administration is now applying the Migration Governance Framework for planning and reporting purposes. Since the adoption of the IOM Strategy in 2007, projects have been linked to the relevant activities of the Strategy; however, the implementation of a new project management system allows for projects to also be categorized based on the Migration Governance Framework.

38. The adoption of the Global Compact for Safe, Orderly and Regular Migration in 2018 was a milestone in the development of good governance of migration and improved international cooperation on migration issues. It also marked the culmination of a process that began in September 2016 when the United Nations General Assembly addressed, for the first time at such a high level, the issue of human mobility and its many dimensions at the Summit for Refugees and Migrants. The Global Compact offers a road map for how States can best manage migration, and cooperate more effectively with one another and with other relevant stakeholders, for decades to come, recognizing that States have to do so on the basis of their own migration realities and capacities. The 23 objectives of the Global Compact and their associated commitments and actions provide a 360-degree approach to international migration that can help achieve safe, orderly and regular migration.

39. In late 2018, IOM embarked upon a strategic planning process to set out a number of proposed priorities for the Organization based on the challenges and shifts in migration dynamics that are expected to emerge over the next decade. In 2019 the Organization finalized the Strategic Vision 2019–2023, which identifies key areas for institutional development, and is currently developing an implementation plan to realize its goals.

CHALLENGES AND IOM RESPONSE

40. Migration is a priority issue for the international community and will continue to be so for decades to come. It is an integral part of a modern, interconnected world. Mobility is a life option that more and more people want to exercise in our globalized world, whether it is to find a better life for themselves and their families, to seek new employment opportunities, to set up a business abroad, to study, or to be reunited with family members. At the individual level, migration has helped improve people's lives in both origin and destination countries and has enabled millions of people worldwide to enjoy safe and meaningful lives abroad.

41. At the same time, however, some people move due to human rights abuses, international and internal conflict, climate change, natural and human-induced catastrophes, and economic distress. These are people who do not move out of choice but out of necessity.

42. IOM continues to underscore the need for close monitoring of the global migratory context, including the effects of conflicts and economic disparities on migrants and countries of origin, transit and destination. These developments accentuate the need for the collection, analysis and dissemination of research findings as a sound basis for policymaking in migration management. This is all the more important given the disruption of the current global pandemic.

43. IOM is aware that COVID-19 will have a significant impact on IOM's work, not least in terms of the changing needs of those we serve, as the full socioeconomic impacts of the pandemic are felt. It will be important to ensure those needs are met, while avoiding any backsliding in the contributions that migration makes to development and supporting migrants to fully participate in future recovery. Migration dynamics – in a context of an unprecedented slowdown in global mobility – are likely to change significantly in the short to medium term, and IOM will support States in their efforts to ensure their border management is "health-proofed", and will continue to support migrants who find themselves stranded overseas.

44. IOM has developed a migration data strategy based on priorities set out in the Strategic Vision 2019–2023, which recognizes the importance of data and evidence and the relevance of IOM data when engaging with the United Nations Network on Migration, with the United Nations system more broadly,

and within the humanitarian system. Member States, IOM partners and the international community have significant needs in terms of migration data, together with expectations for support from IOM. The development of a migration data strategy is timely as it follows in the wake of the data strategy recently released by the United Nations Secretary-General. In addition, the COVID-19 pandemic has brought the importance of data to the fore.

45. Current data, research and knowledge indicate that the coming decade will bring new challenges for which the Organization must prepare itself. The key factors influencing mobility and migration are constantly evolving.

46. Overall, and looking to the next decade, it is most likely that the number and proportion of international migrants globally will continue to increase at a steady rate in line with existing trends. The wide variation internationally in the proportion of national populations who are foreign born will remain largely as is, although more countries will evolve from origin and transit countries into destination countries. However, we are already witnessing systemic changes in the migration patterns of those who choose to migrate, with greater international mobility being observed over a migrant's lifespan.

47. In parallel, attention is being given to the humanitarian challenges caused by prolonged conflicts and environmental factors in terms of their current and potential impact on population mobility, and the effect of population mobility on the environment. The relationship between environmental and climate change and migration is often complicated by multifaceted interactions with other factors, such as population growth, poverty, governance, urbanization, human security and conflict.

48. The international migrant population is almost evenly split between men and women, but it is now widely acknowledged that migration is a highly gendered phenomenon; not in terms of proportion but because male and female migrants may be motivated by different objectives, seek different jobs, move to different places, face different risks and achieve different outcomes. IOM is committed to ensuring that the needs of both men and women are appropriately identified, taken into consideration and addressed.

49. Managing migration is a broad and complex issue. When conducted effectively, however, migration is of benefit to countries of origin and destination and contributes to the welfare and effective protection of migrants. Migration management encompasses numerous governmental functions within a national system for the orderly and humane management of cross-border migration, covering the entry, residence and employment of foreigners within the borders of the State and the protection of refugees and other persons in conditions of vulnerability. It refers to a planned approach to the development of policy, legislative and administrative responses to key migration issues.

50. There is growing recognition that effective migration management is best achieved through a comprehensive, coherent and balanced approach to policy formulation within the broader context of sustainable development. It is equally recognized that this effort at national level needs to be complemented by regional and international dialogue and cooperation involving States, civil society, the private sector, migrants and other stakeholders.

51. The respect of the human rights and well-being of migrants is crucial in ensuring that migration has a developmental impact on societies and economies. The growing anti-migrant sentiment that characterizes current migration debates has led to stigmatization and xenophobic tendencies in many countries of destination. IOM continues its initiatives to raise public awareness of the benefits migration provides to both countries of origin and destination.

52. The health needs of migrants is another area requiring close attention. The COVID-19 pandemic is first and foremost a health crisis. The virus is the threat; not people, not migrants, nor stranded or displaced persons. The pandemic is borderless; people are affected regardless of their nationality, ethnicity, religion, or status. IOM advocates for the inclusion of all migrants and displaced persons in national pandemic preparedness and response plans and their equitable access to essential services, in the spirit of pursuing universal health coverage and upholding the right to health for all. The Organization also provides immediate assistance and protection to migrants in need, irrespective of migration status, recognizing that many migrants are currently stranded or living in desperate situations because of the pandemic.

53. Recognizing the compounded risks in humanitarian contexts, including those related to fragile and conflict-affected settings and environmental degradation, IOM endeavours to ensure that migrants in situations of vulnerability continue to have access to essential services, including continuity of ongoing

treatments, maternal and child health services, social protection measures and mental health and psychosocial support. This extends to specific measures to avoid the spread of the disease.

54. IOM provides health assessments for migrants, support to governments and populations to help rebuild their health infrastructures in the aftermath of emergencies, and migration health data, analysis and advice to help formulate policies on health, including on access to health care, mental health matters and other issues relating to people on the move.

55. Under activities 1, 2 and 3 of the IOM Strategy, advisory and operational services on migration issues are offered to governments, agencies and international organizations, helping them to develop and implement legislative and policy frameworks to facilitate regular migration and prevent irregular migration.

56. Under activities 4, 5 and 8 of the IOM Strategy, recognizing that national development and migratory flows are linked, IOM helps to locate and facilitate exchange of skills and human resources to support the national development efforts of receiving communities through a wide range of migration-for-development programmes and projects, including on the return of qualified nationals, the transfer of skills, remittance management and diaspora partnerships. IOM contributes to development in countries of origin and facilitates "brain gain" and "brain circulation" to counter the effects of brain drain. It provides migrants with essential information that can affect their decisions, through information campaigns using a broad range of media channels, including migrant information or resource centres. One important objective is to warn potential migrants of the dangers of irregular migration and trafficking, to inform them of new legislation affecting their status abroad and conditions in their home country, and to encourage the participation of migrants in elections or referendums, or in compensation schemes from which they could benefit. The Administration is committed to reducing the human and financial costs of migration, through IRIS (International Recruitment Integrity System) and the ongoing work on lowering the cost of remittance transfers.

57. Under activity 6 of the IOM Strategy, IOM works to be the primary reference point for migration information and research. Migration data are essential to evidence-based policymaking. For instance, attention is increasingly paid to environmental factors in view of their current and potential impact on population mobility, and the effect of population mobility on the environment. The complexities of the migration and environment nexus call for a comprehensive approach in policy and practice to which IOM has widely contributed.

58. With regard to activity 7 of the IOM Strategy, IOM devoted the IDM session in 2020 to discussing the impact of the COVID-19 crisis on migration and development and worked to mobilize Member States and engage diverse stakeholders to ensure that all voices are heard in setting the global migration agenda for years to come. As such, and in line with IDM practice, the session also included a dedicated panel discussion on the perspective of women and girls to highlight the twenty-fifth anniversary of the Beijing Declaration and Platform for Action, which calls for an accelerated realization of gender equality and the empowerment of all women and girls.

59. IOM continues to promote, facilitate and support regional and global debate and cooperation on migration, including through its support to RCPs – and similar mechanisms – and the GFMD and through the IDM. IOM will facilitate interconnections and cross-fertilization among these dialogue and cooperation forums as well as their linkages with the Global Compact implementation, follow-up and review.

60. Under activities 9 and 10 of the Strategy, IOM provides assistance to people fleeing conflict or natural disasters, refugees being resettled in third countries or repatriated, stranded persons, unsuccessful asylum seekers returning home, displaced persons and other migrants. As a member agency of the IASC, and as the co-lead of the Global Camp Coordination and Camp Management Cluster, IOM takes the lead role in responding to the needs of displaced migrants in humanitarian situations within the inter-agency humanitarian system. The Organization also provides assistance and protection to displaced migrants in close collaboration with States and local communities. IOM is increasingly being called upon to help migrants stranded in transit to return home safely. Assisted voluntary return for stranded migrants is not just a humanitarian act; it also helps spread the word, especially among potential migrants back home, about the dangers of using smugglers and attempting to use the irregular migration route. IOM also supports governments and populations to rebuild infrastructures and support efforts to stabilize communities in the aftermath of emergencies.

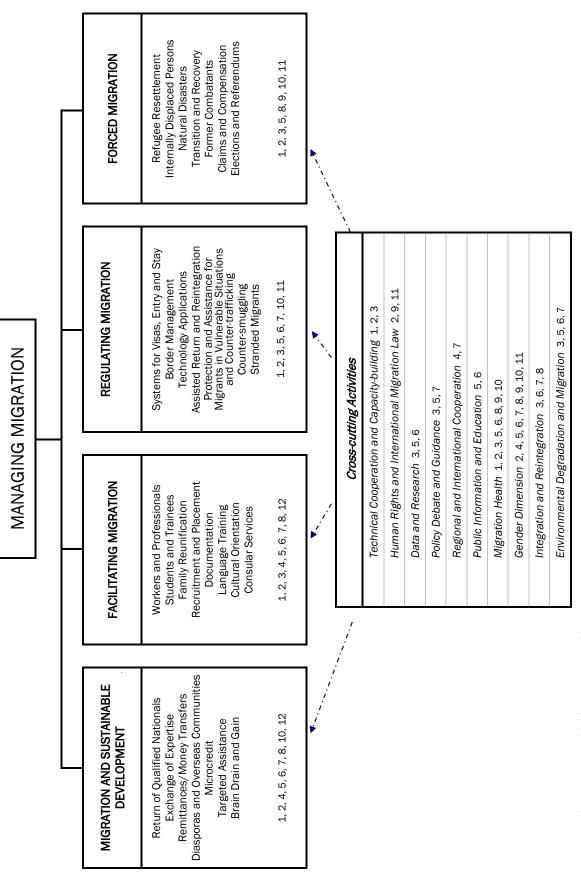

61. Under activity 11, and through its counter-trafficking programmes, IOM recognizes that trafficking in human beings and the smuggling of migrants constitute the third most profitable illicit trade, after drugs and arms, and are heinous crimes that feed on vulnerability. Mass outflows of persons during humanitarian crises and anti-migrant sentiment have led many countries to tighten their visa regimes, which in turn drives more migrants into the hands of traffickers. IOM aims to protect persons from becoming victims of trafficking, ensure that identified victims of trafficking receive appropriate assistance and protection, train government officials in methods and legislation to counter trafficking, and advise law enforcement agents on how to deal with victims.

62. Under activity 12 of the Strategy, IOM provides expert and practical support to governments across the entire migration spectrum to establish or enhance the frameworks needed to promote and manage regular labour migration, including circular migration, while combating irregular migration and exploitation. This includes providing migrants with various forms of pre-departure to post-return assistance.

63. In addition to its relations with governments, IOM enjoys a wide range of partnerships with international organizations, most prominently with other United Nations organizations, civil society bodies, academia, the private sector and migrants. The increasing complexity of migration issues and sheer number of actors involved call for strong and sustained coordination on both policy and operational matters.

64. The Administration established the United Nations Network on Migration Secretariat to provide support to enhance the ability of the United Nations system to deliver effective system-wide support to States and ensure greater coherence in the migration domain, under overall IOM coordination. The Secretariat, through its Fund Management Unit, also supports the management of a start-up fund to help strengthen capacities, foster multi-partner cooperation and promote overall coherence in the system-wide support to Member States in managing migration. The Administration continues to explore ways to ensure that the Organization is properly prepared for this work, including through ensuring coherence with the IOM Migration Governance Framework, the 12 points of the IOM Strategy, and the IOM Strategic Vision 2019–2023.

65. In order to illustrate how the 12 activities of the Strategy and thus IOM projects and programmes fit together, all projects are linked to the "managing migration chart" – the so-called four-box chart on the next page – and to the relevant Strategy activity numbers.

Numbers refer to activities in the IOM Strategy (see page 18)

ORGANIZATIONAL STRUCTURE

66. The Administration strives to ensure that the organizational structure keeps pace with the growing complexities of various activities. IOM has grown exponentially in recent years due to the evolving migration environment. The changing patterns of migration dynamics require the Organization to position itself to effectively respond to new challenges in order to deliver its mandate and meet the increasing demands and expectations of its beneficiaries, Member States and other stakeholders. With a dynamic operational budget and activities spread over many countries around the world, it is crucial to establish appropriate organizational structures that facilitate the implementation of the Organization's activities and, at the same time, safeguard its assets through effective control mechanisms. The core structure is regularly monitored to ensure that it is effective, and suitable improvements are presented through the yearly budget process for the consideration of Member States.

- 67. The organizational structure of IOM falls into the following broad categories:
- Headquarters
- Administrative centres
- Regional offices
- Special liaison offices
- Country offices

HEADQUARTERS

68. Headquarters is responsible for the formulation of institutional policy, guidelines and strategy, standard-setting, quality control procedures and oversight and is composed of the following four departments under the Office of the Director General:

- Department of International Cooperation and Partnerships
- Department of Migration Management
- Department of Operations and Emergencies
- Department of Resources Management

Director General and Deputy Director General

69. The Director General and the Deputy Director General are elected by the Council for a five-year term. They exercise constitutional authority to manage the Organization and carry out activities within its mandate by formulating coherent policies and ensuring that programme development is consistent with strategic priorities.

Office of the Director General

70. The Office of the Director General manages the Organization and has overall responsibility for the formulation of coherent policies and oversight of activities to ensure compliance with strategic priorities. The Office comprises those units and functions that report directly to the Director General and provide advisory services and/or direct support to the whole Organization.

71. The Office of the Director General is composed of: (a) Office of the Chief of Staff; (b) Office of the Inspector General; (c) Office of Legal Affairs; (d) Senior Regional Advisers; (e) Spokesperson; (f) Gender Coordination Unit; (g) Ombudsperson; (h) Office of Staff Security; (i) Ethics and Conduct Office; (j) Policy Hub; and (k) United Nations Network on Migration Secretariat.

72. The **Office of the Chief of Staff** assists the Director General in the fulfilment of his or her mandate and provides strategic planning and coordination for the Director General's organization and management objectives; facilitates the development and strengthening of management capacity and ensures that both Headquarters and field structures respond adequately to organizational challenges; coordinates the Organization's complex activities; ensures accountability, follow-up and implementation

of organizational policies and procedures; and facilitates coordination between Headquarters and the field. This Office also serves as a focal point in the Office of the Director General for all matters that require direct intervention, such as staffing, financial issues and reporting matters.

73. The **Office of the Inspector General** contributes to the oversight and internal control of the Organization through its functions of internal audit, evaluation, rapid assessment and investigation. The Office formulates proposals for remedial action in response to problems encountered. It ensures that IOM's objectives are pursued in compliance with the Organization's rules, regulations and ethical standards; detects fraud, waste, abuse and mismanagement; and contributes to the management and minimization of risk.

74. The **Office of Legal Affairs** is responsible for ensuring that the Organization's activities are carried out in accordance with the constitutional and other relevant provisions adopted by its governing bodies, and that its relations with governments, organizations, private institutions and individuals have a sound legal basis. It provides advice on constitutional issues, the privileges and immunities of the Organization and its staff, contractual issues and staffing matters, among others. It is also the focal point on data protection issues and provides advice to Field Offices and Headquarters to ensure that personal data of IOM beneficiaries are collected, used, transferred and stored in accordance with the IOM Data Protection Principles.

75. The **Senior Regional Advisers** to the Director-General ensure effective coordination, communication and coherence on policy and priorities among Headquarters, the regional offices and country offices in support of the Office of the Director General. Under their geographic areas of coverage, they assume a political advisory and diplomatic liaison role with Geneva-based permanent missions, regional entities and other relevant stakeholders. They provide political analysis and guidance to the senior leadership on issues that require attention. They work under the direction of the Office of the Chief of Staff, and in close cooperation with the Department of International Cooperation and Partnerships, other Headquarters departments and the regional offices.

76. The **Spokesperson** advises the Director General and senior management on all media and public information matters and oversees strategic communication across the Organization.

77. The **Gender Coordination Unit** promotes and supports the implementation of the Organization's gender policy by providing advice and technical guidance to Headquarters departments and the field. The Unit aims to ensure that a gender perspective is factored into all IOM programmes and policies and within human resources management. It strives to raise awareness on gender and migration-related issues, actively cooperating with partners at the inter-agency level, and oversees and works with a network of Headquarters and field-based gender focal points.

78. The **Ombudsperson** provides impartial dispute-resolution assistance to address the employment-related problems of staff members in accordance with the Standards of Practice and the Code of Ethics of the International Ombudsman Association.

79. The **Office of Staff Security** is responsible for safety and security management throughout the Organization. The Office identifies the Organization's institutional responsibilities in relation to all aspects of occupational safety and security and advises the Office of the Director General accordingly. It also oversees its operations centres in the Manila and Panama Administrative Centres and works with a network of field-based staff security focal points.

80. The **Ethics and Conduct Office** promotes ethical awareness and behaviour and standards of conduct. It is responsible for receiving and tracking allegations of misconduct, conducting initial assessments and referring cases to other Headquarters departments/units where necessary. It also receives requests for information and provides advice to staff on involvement in outside activities and issues relating to conflicts of interest.

81. The **Policy Hub** works across the Organization to foster migration policy knowledge management and facilitate strategic policy coordination. Its aim is to facilitate meaningful exchange on migration policy; enhance coherence; promote learning; and develop evidence, knowledge and experience-based institutional strategic migration policy advice. To this end, the Policy Hub acts as a catalyst for the effective collection, analysis and exchange of policy-relevant data and knowledge within IOM and promotes their use in the development of IOM migration policy perspectives and advice.

82. United Nations Network on Migration Secretariat. Following the designation of IOM as the coordinator and secretariat of the United Nations Network on Migration, the Secretariat was established to provide support to enhance the ability of the United Nations system to deliver effective system-wide support to States and ensure greater coherence in the migration domain, under overall IOM coordination. The Secretariat, through its Fund Management Unit, also supports management of a start-up fund to help strengthen capacities, foster multi-partner cooperation and promote overall coherence in the system-wide support to Member States in managing migration. The structure of the Secretariat is currently being covered through a combination of various funding sources, including unearmarked contributions from Member States and seconded staff from United Nations agencies.

Department of International Cooperation and Partnerships

83. The Department of International Cooperation and Partnerships is responsible for supporting and coordinating the Organization's relations with its Member States, intergovernmental organizations, civil society and the media. It also provides guidance and support for relations with governmental, multilateral and private sector donors. The Department leads and coordinates IOM's forum activities, including the IDM, IOM's support for global and regional consultative processes and preparations for IOM's annual governing body meetings. It is also responsible for the Organization's communications and public information functions. One of the Department's principal functions is to act as a first port of call and a "window" into IOM for external partners, answering inquiries, arranging briefings and generally providing information about the Organization and migration issues and trends in general.

84. The Department monitors national and international migration policy developments and promotes awareness and understanding of international migration law. It ensures broad and consistent development and dissemination of IOM's institutional positions on key international migration policy issues and trends, in consultation with other organizational units. The Department is also responsible for keeping IOM staff informed on strategic planning and programme development, as well as coordinating, promoting and disseminating new research, in particular with respect to emerging issues. These functions include providing contributions to the international migration discourse, tracking international meetings, determining priorities and ensuring adequate representation. The Department also supervises the Global Migration Data Analysis Centre, located in Berlin, Germany. The Centre's objectives are to foster better analysis, use and presentation of IOM's data, establishing the Organization as a key source of reliable data on migration through strategic partnerships, and to act as a data hub for decision makers and practitioners seeking the best available statistics (see paragraph 93 for further details on the Centre).

85. The Department of International Cooperation and Partnerships is composed of: (a) Governing Bodies Division; (b) International Partnerships Division; (c) Media and Communications Division; (d) Donor Relations Division; (e) Migration Research Division; (f) Multilateral Processes Division and (g) International Migration Law Unit; and (h) Global Migration Data Analysis Centre.

86. The **Governing Bodies Division** is the institutional focal point for relations with Member and observer States on governing body matters. As such, it is responsible for preparing and coordinating the sessions of the Council, the Standing Committee on Programmes and Finance and its Working Groups and informal consultations. It is the focal point for information concerning meetings and documents and for the translation of IOM's official documents and publications in the three official languages, and others as requested. The Division is also responsible for conceptualizing and organizing the IDM, the Organization's global forum for migration policy dialogue. Through the IDM – and by lending support to other dialogue initiatives – the Division works to monitor emerging migration-related issues and major trends, to enhance understanding of migration and its impacts, and to strengthen the capacities and cooperative mechanisms of governments and other relevant stakeholders to address migration comprehensively and effectively. The Division prepares the reports capturing the results of IDM events and related documents and maintains an online source of information on the IDM.

87. The **International Partnerships Division** is responsible for monitoring and developing IOM's partnerships, in particular with intergovernmental organizations, civil society and other multilateral and regional institutions with a view to improving policy coherence and cooperative approaches to migration management. The Division develops and disseminates IOM's contributions to State-led regional or interregional migration-related processes, supports IOM's participation in the RCPs and other ISCMs as a member, partner, observer or service provider at the request of participating governments, and serves as a global focal point for information on and exchanges among the RCPs and other ISCMs. It is the focal

point for relations with civil society in all its manifestations and organizes regular consultations to facilitate the identification and sharing of effective policies and practices on a wide range of migration issues.

88. The **Media and Communications Division** oversees all aspects of public communication in the Organization. It is responsible for the Organization's communications and media to improve public understanding of migration, reduce anti-migrant sentiment, increase awareness among potential migrants of the dangers of irregular migration, promote awareness of IOM's policies and programmes, and position IOM at the centre of the broader ongoing debate surrounding migration in all its aspects.

The Donor Relations Division has the institutional responsibility for liaising with donors, building 89 private sector partnership, mobilizing unearmarked funds, organizing fundraising campaigns and providing guidance on donor reporting. Specifically, the Division uses a range of complementary approaches to strengthen and diversify IOM resources and collaboration with traditional and nontraditional donors by providing guidance, tools and funding analyses to IOM country offices so as to match donor priorities with IOM programming; initiating annual high-level and technical-level bilateral consultations with donors; organizing annual field visits for traditional donors and the private sector; and ensuring the quality of donor reporting. The Division is responsible for developing an institutional resource mobilization strategy; acts as Secretariat for the Migration Resource Allocation Committee (MIRAC); maintains the Global Crisis Response Platform; and serves as focal point for institutional assessments, such as those carried out by the Multilateral Organisation Performance Assessment Network (MOPAN). The Division includes the Private Sector Partnership Unit which is responsible for the development and implementation of IOM Private Sector Partnership Strategy 2016-2020. This Unit supports partnershipbuilding with the private sector at Headquarters and in regional and country offices in close coordination with the Private Sector Partnership Working Group, of which the Division is the Chair and Secretariat. The Unit establishes and coordinates IOM's due diligence processes, builds staff capacity in private sector partnership-building, supports the negotiation of partnership agreements, serves as the institutional focal point for engagement with companies, foundations, associations and individuals, and mobilizes resources from the private sector.

90. The **Migration Research Division** is responsible for supporting IOM's worldwide efforts in developing and conducting policy-oriented migration research and analysis, as well as implementing its own migration research and analysis initiatives and projects in order to inform programme delivery and policy development. It promotes deeper and more nuanced understanding of international migration within and outside IOM, and is responsible for preparing the Organization's biennial flagship report: the World Migration Report. The Division is also responsible for developing and coordinating the Organization's overall research and publishing standards and for the production of around 200 IOM publications annually, including on specific migration topics, migration law, and country migration profiles. The Division partners with applied and academic migration researchers from around the world and is the IOM focal point for academic research collaborations.

91. The **Multilateral Processes Division** is the focal point for IOM's institutional relationship and overall liaison within the United Nations system, providing guidance to IOM staff in their work with regard to coordination processes and document preparation, including in the United Nations country teams. The Division supports, coordinates and articulates IOM's positions and provides guidance on migration governance and policy. It takes the lead on IOM's work related to the 2030 Agenda for Sustainable Development and represents IOM or provides guidance to those representing the Organization at key multilateral processes dealing with policy issues. The Division is also responsible for developing and maintaining the relationship with other migration-relevant platforms, such as the GFMD, as well as other key actors, such as parliaments, cities and local authorities.

92. The **International Migration Law Unit** is the institutional focal point for promoting awareness and understanding of international migration law and standards applicable to migrants and migration. A key objective of the Unit is to encourage the dissemination and understanding both within IOM and among IOM counterparts of the international legal standards that govern migration and protect the rights of individuals involved in migration, and thus to promote migration governance that is more effective and consistent with the rule of law, including human rights and humanitarian norms, as well as better implementation of those standards. The Unit assists governments in developing and implementing migration legislation, policies and procedures consistent with applicable international and regional frameworks and promotes a rights-based approach to policy and planning. It also provides guidance, expert advice and technical support to Headquarters, and country and regional offices on issues and projects linked to international migration law.

93. The **Global Migration Data Analysis Centre** was established to respond to calls for better international migration data and analysis to inform migration policy. The Centre is located in Berlin and its objectives are to foster better analysis, use and presentation of IOM data, to establish the Organization as a key source of reliable data on migration through strategic partnerships, and to act as a data hub for decision makers and practitioners seeking the best available statistics.

Department of Migration Management

94. The Department of Migration Management is responsible for the development of policy guidance for the field; the formulation of global strategies; standard-setting and quality control; and knowledge management relating to "mainstream" migration sectors, including labour and facilitated migration, migration and development, counter-trafficking, assisted voluntary return, migration health, assistance for vulnerable migrants, immigration and border management and overall capacity-building in migration management. In addition, the Department also manages the IOM Development Fund and is responsible for reviewing, endorsing and managing multiregional and global projects. The Department provides technical supervision of project review and endorsement to experts in the field. It is also responsible for maintaining operational partnerships with relevant governmental, multilateral and private sector industry partners in coordination with the Department of International Cooperation and Partnerships.

95. The Department of Migration Management is composed of: (a) Migration Health Division; (b) Immigration and Border Management Division; (c) Migrant Protection and Assistance Division; (d) Labour Mobility and Human Development Division; (e) Migration, Environment and Climate Change Division (f) IOM Development Fund Unit; and g) African Capacity Building Centre.

96. The **Migration Health Division** has the institutional responsibility to oversee, support and coordinate migration health services globally, ensuring its services are integrated throughout the work of the Organization, are in line with public health and human rights principles, and enable migrants to contribute to the socioeconomic development of their home and host communities. The services provided by the Division aim to meet the needs of States in managing health-related aspects of migration by promoting evidence-based policies, sharing practices and providing a platform for multisectoral and multi-country collaboration. In close collaboration with partners, including ministries of health and other sectors in national governments, WHO, UNHCR, UNAIDS and CSOs, and in response to the World Health Assembly resolution on promoting the health of refugees and migrants (WHA70.15) and, more recently, the inclusion of health-related commitments in the Global Compact for Safe, Orderly and Regular Migration and the Global Compact on Refugees, the Division advocates for migrant-inclusive, peoplecentred health systems and capacity-building for the health and relevant non-health sector workforce.

97. Through its delocalized global functions and Headquarters-based team, the Division provides technical guidance and policy advice and establishes partnerships among countries and with relevant governmental, multilateral, civil society and private entities in the area of migration health. The Division's different units address the needs of migrants and the public health of host communities; provide oversight for the Migration Health Assessment Programme, which evaluates the physical and mental health status of migrants either prior to departure or upon arrival; facilitate access to equitable and quality preventive and curative health services for migrants and cross-border and mobile populations, including those affected by forced displacement and crises; and provide technical standards and programme support in key thematic areas such as emerging and re-emerging diseases (e.g. Ebola), pandemics, HIV, tuberculosis and malaria prevention and care, and mental health and psychosocial support.

98. The **Immigration and Border Management Division** has the institutional responsibility for overseeing activities related to border and identity solutions, and immigration and visa policy and programming, designed to assist governments in the development, testing and implementation of innovative approaches to address migration management challenges. The Division provides capacity enhancement and technical assistance to address core capacity-building needs regarding border and identity management, ranging from policy advice to operational solutions, including automated processing systems, such as the IOM Border Management Information System currently used in over 20 countries. The technical support provided strengthens government capacity in areas such as border security, registration and regularization, readmission, detention and alternatives to detention, countering migrant smuggling, border management and development/trade, regional free movement regimes and humanitarian border management in crisis situations. Moreover, the Division supports immigration and consular authorities in managing visa application processes through a wide range of tailored, technology-driven and cost-effective operational solutions, which make regular migration pathways more accessible,

better informed, dignified, timely and transparent. These include comprehensive assistance for family reunification processes, the management of visa application centres, the facilitation of verification services on behalf of Member States and implementation of consular services. In addition, the Division oversees the coordination of a number of cross-thematic, organizational initiatives, including the responsible use of biometrics, as well as IOM's flagship migration management capacity-building programme, the Essentials of Migration Management 2.0. To meet its objectives, the Division fosters partnerships with governments, other United Nations agencies and global international bodies, regional organizations, academia, civil society and the private sector.

99. The **Migrant Protection and Assistance Division** provides protection and assistance to migrants in need, particularly those in situations of vulnerability. The Division has the institutional responsibility to oversee policy and technical guidance and provides support to field offices in the following areas: data and analytics for evidence-based policy and programming; safe and dignified assisted voluntary return and sustainable reintegration; countering trafficking in persons; protection and assistance for migrants who experience or are vulnerable to violence, abuse or exploitation; protecting migrant children; promoting responsible business conduct and addressing exploitation in business operations and supply chains; and providing direct assistance through the Global Assistance Fund. The Division builds partnerships with and provides capacity-building and policy support to governments, civil society, the United Nations and other international organizations and the private sector to promote better practices and synergies in protecting and assisting migrants.

100. The Labour Mobility and Human Development Division is responsible for providing policy. regulatory and operational guidance in matters related to labour and human mobility facilitation. integration and social cohesion, and migration as an enabler of sustainable development in line with the 2030 Agenda for Sustainable Development. It is also the custodian of the IOM Institutional Strategy on Migration and Sustainable Development. The Division facilitates vertical and horizontal policy coherence (sectoral and local/central levels of governance), helps identify labour migration and human mobility solutions, elaborates tools and supports cooperation mechanisms. It operates in collaboration with a large variety of partners from public and private sectors, academia and civil society - including from migrant and diaspora communities - with a view to ensuring that migration contributes to socioeconomic development, poverty reduction and cohesion in host and home communities and enhances the well-being of migrants and members of their families in full respect and fulfilment of their rights. The Division helps build IOM's global capacity to address the needs and priorities of governments and partners at the local, national and international levels through support to multi-stakeholder and intergovernmental initiatives, and the development and implementation of programmes in a rights- and evidence-based manner in four core areas of expertise: migration and development; labour and human mobility facilitation; labour migration; integration and migrant training.

The Migration, Environment and Climate Change Division has the institutional responsibility to 101. oversee, support and coordinate the development of policy guidance for activities with a migration, environment and climate change dimension. The Division provides assistance to and capacity-building for governments in developing and implementing innovative approaches to migration, the environment and climate change. It formulates global strategies that address human mobility in the context of environmental change, land degradation, natural disasters and climate change impacts on livelihoods; mainstreams environmental and climatic factors in other migration management sectors; and integrates migration matters in external, regional and global processes that deal with climate and the environment. The Division is responsible for internal standard-setting and overall institutional knowledge management on migration, the environment and climate change and collaborates closely with other departments at Headquarters to address and integrate these issues more comprehensively within institutional activities. as they cut across many areas of IOM's work. It provides technical supervision of IOM project review and endorsement for experts in the field, and reviews, endorses and manages global projects with a migration, environment and climate change dimension. The Division is responsible for developing and maintaining partnerships with relevant governmental, multilateral, non-governmental and private sector partners, in direct cooperation with the Department of International Cooperation and Partnerships.

102. The **IOM Development Fund Unit** provides support to developing Member States, Member States with economies in transition and, in coordination with the regional offices, to the relevant country offices in the development and implementation of joint government–IOM capacity-building projects to address specific areas of migration management.

103. The **African Capacity Building Centre** provides Africa-wide technical assistance in matters pertaining to migration and border management. Under the general administrative support of the IOM Office in the United Republic of Tanzania, the Centre is hosted by the Tanzania Regional Immigration

Training Academy in Moshi. It works in close coordination on substantive matters with the Department of Migration Management, and its activities are divided into three pillars: capacity-building in border and migration management; migration research and development with a focus on training publications and modules; and migration advocacy and partnerships.

Department of Operations and Emergencies

104. The Department of Operations and Emergencies directs, oversees and coordinates IOM's resettlement work and transport programmes and oversees IOM's activities in all aspects of the mobility dimensions of crises: from preparedness, risk reduction and prevention, through humanitarian emergency response to post-crisis transition and recovery. It coordinates IOM's participation in humanitarian responses and provides migration services in emergencies or post-crisis situations to address the needs of individuals and uprooted communities, thereby contributing to their protection.

105. While also engaging in global processes, the Department provides technical support to efforts in the field, particularly in responding to forced migration and mass population movements, including protracted internal and cross-border displacement and refugee situations. It provides strategic policy and operational-oriented recommendations as well as guidance on project development and implementation, and inter-agency coordination. This contributes to improving the conditions of crisis-affected populations and leads to life-saving interventions through the early identification and implementation of comprehensive durable solutions to progressively resolve displacement conditions.

106. The Department also oversees individual specialized projects related to humanitarian principles, protection mainstreaming and protection against sexual abuse and exploitation, among others.

107. The Department of Operations and Emergencies is composed of: (a) Preparedness and Response Division; (b) Transition and Recovery Division; (c) Resettlement and Movement Management Division; and (d) Statistics and Knowledge Management Unit.

The Preparedness and Response Division serves as the institutional focal point for 108. humanitarian preparedness and response to sudden-onset and protracted crises. Working in close coordination with other IOM departments and regional thematic specialists in the Department of Operations and Emergencies, the Division provides technical expertise, operational support, and policy guidance to country offices on emergency preparedness and response planning and implementation, and ensures that country offices are engaging at country, regional and global levels on relevant humanitarian programming. The Division maintains an operational overview of humanitarian crisis responses, providing support across a broad range of sectors, to ensure that IOM policies and operations are in line with those set by inter-agency humanitarian coordination frameworks, including the IASC and the Grand Bargain. In this context, the Division also coordinates the implementation of IOM's corporate emergency procedures, supports humanitarian resource mobilization efforts, and supports global and country alignment within the humanitarian programme cycle. The Division is composed of the following units/functions: (a) Preparedness; (b) Emergency Response; (c) Camp Coordination and Camp Management; (d) Displacement Tracking; (e) Shelter and Settlements; (f) Water, Sanitation and Hygiene; (g) Cash-Based Interventions; and (h) Division Support.

109. The Transition and Recovery Division is the institutional focal point on prevention, resilience and solutions within crisis settings and fragile contexts. It builds on humanitarian responses to address socioeconomic, peace, security and development challenges found in natural, human-induced and protracted crises as a way to prevent and resolve migration crises and assist governments, communities and vulnerable populations to cope with migration-related pressures. Developing strategies to better bridge the gap between humanitarian aid and development action, the Division promotes sustainable transition from relief to recovery and development. The Division addresses drivers of migration and root causes of complex migration crises; promotes human mobility as a means to reduce vulnerability and to progressively transition towards durable solutions to displacement; and invests in conflict analysis, stabilization and development-oriented solutions. During the crisis and post-crisis phase of a response, the Division is responsible for providing policy advice, technical assistance, capacity-building, and operational support to resolve land disputes and mobility-related land issues, and for providing reparations and other transitional justice measures to victims of systemic and widespread human rights violations. The Division is also the focal point for global partnerships on elections support, and three global workstreams: resilience and recovery (early recovery, durable solutions, and disaster risk reduction); peacebuilding (preventing violent extremism; disarmament, demobilization and reintegration; and community stabilization), and transition and restitutive justice (land, property and reparations).

110. The **Resettlement and Movement Management Division** directs, oversees and coordinates IOM's resettlement work and transport programmes, which include humanitarian evacuations. The Division coordinates the policy, programmatic and resource management aspects of IOM's work in these areas and provides direction, guidance and support to managers of resettlement and movement programmes. It also negotiates, oversees and maintains the Organization's global agreements with air carriers and other transport providers and is the focal point for managing movements of IOM-assisted passengers travelling by air, land or sea.

111. The **Statistics and Knowledge Management Unit** is responsible for maintaining quality control for IOM operations by providing support for data collection, analysis and evaluation and for the systematic consolidation of knowledge to strengthen IOM's humanitarian response and recovery operations. The statistics produced by the Unit provide the source of data for multilevel analysis of IOM projects, donor reporting and financial control. The Unit is also responsible for developing tools and products to better support operations and programmes under emergency and post-crisis operations.

Department of Resources Management

112. The Department of Resources Management is responsible for establishing and implementing the financial and administrative policies required by the Organization to carry out its activities efficiently. The Department establishes and executes policies to ensure sound financial and human resources management; formulates financial and budgetary proposals for their dissemination to internal and external stakeholders; and assists the Director General in making overall management decisions.

113. The Department's objectives are to: (a) be responsive to the needs of operations and field offices, with a focus on internal controls to ensure that both human and financial resources are utilized in an economical, effective and efficient manner; (b) ensure that Member States are informed and kept up to date on key administrative, budget and financial issues; and (c) maintain regular dialogue with Member States through informal and formal meetings of the governing bodies.

114. The Department of Resources Management is composed of: (a) Human Resources Management Division; (b) Information and Communications Technology Division; (c) Accounting and Financial Reporting Division; (d) Budget Division; (e) Treasury Division; (f) Procurement and Supply Division; (g) Common Services Unit; (h) Staff Travel Coordination Unit; (i) Risk Management Unit; and (j) Headquarters Building Division. This structure also includes the Emergency Resources Management Office, which comes under the supervision of the Director of the Department and works in close coordination with the Department of Operations and Emergencies, to provide financial and administrative support to field-led emergency response operations and to contribute to the coordination of IOM's handling of Level 3 emergencies.

115. The **Human Resources Management Division** is responsible for: (a) developing and implementing human resources management policies to support IOM's strategic focus and organizational structure, as well as its operational activities, through the selection, recruitment, retention, evaluation and professional development of competent and motivated staff; (b) establishing and maintaining conditions of service, benefits and entitlements, job classification and social security with reference to the United Nations common system; (c) ensuring adherence to the established Staff Regulations and Rules and related policy instructions and guidelines; and (d) developing and implementing strategies aimed at strengthening staff occupational health, well-being and general welfare across the Organization. Based at Headquarters, the Division supervises delocalized human resources units at the Manila and Panama Administrative Centres.

116. The Policy and Advisory Services Unit is responsible for developing, implementing and monitoring human resources policies, providing advice on matters relating to appeals, grievances and misconduct, in collaboration with the Office of Legal Affairs and the Ethics and Conduct Office; and giving guidance to managers and staff regarding benefits, entitlements and performance management cases.

117. The Human Resources Business Partner oversees the application of human resources policies and other administrative instructions and guidelines; ensures alignment of IOM benefits and entitlements with those of the United Nations common system; manages insurance schemes, including the relationship with IOM's insurance provider; oversees upscaling and downsizing initiatives and classification issues; and ensures oversight of the human resources units at the Manila and Panama Administrative Centres. 118. The Talent Management Unit is responsible for the human resources functional areas of performance management, strategic staffing, mobility, succession planning and workforce analytics, and staff development and learning. The Unit provides guidance to managers and staff, ensuring that IOM staff members are in appropriate posts, have their performance assessed fairly and are given the opportunity to further develop their skills and careers. The Unit undertakes mobility and succession planning for international staff through rotation and other selection and placement options.

119. The Occupational Health Unit is responsible for all medical aspects related to staff health issues in the workplace. The Unit designs, coordinates and implements the strategic plan for IOM staff medical services. It also sets standards and provides policy guidance, quality assurance and medical services to staff worldwide. The Unit provides advice to IOM management on the development, implementation and maintenance of policies to reduce stress in the workplace and to enhance working conditions so as to improve the quality of the work environment for all IOM staff. Through the Staff Welfare Officer, the Unit also provides resources for staff counselling, emergency deployment preparation, debriefing and peer support.

120. The Information and Communications Technology Division is responsible for directing, planning and implementing a global IT and communications architecture, as well as information systems and processes to support the administration and operations of the Organization. The Division establishes and maintains IT policies and standards, including information security. It provides the necessary guidelines and benchmarks for the IT infrastructure and ensures that policies are in place to protect information confidentiality and integrity. The Division prioritizes, in coordination with senior management, IT-based initiatives. From 2021, the Division will run IOM's central infrastructure systems and operations from a consolidated data centre at the United Nations Information and Communications Technology Facility, Valencia, Spain.

121. The financial management of the Organization is administered through the Accounting and Financial Reporting, Budget and Treasury Divisions.

122. The **Accounting and Financial Reporting Division** is responsible for monitoring, analysing and reporting on the financial position, financial performance, financial risks and financial compliance of the Organization. The Division prepares key financial statements and reports, including the annual Financial Report in compliance with IPSAS (International Public Sector Accounting Standards), and oversees the project financial reporting mechanisms of IOM. To safeguard the Organization's resources and assets, the Division's fundamental functions also include developing financial reporting and accounting standards and policies; monitoring compliance with financial policies and procedures; implementing appropriate financial controls, tools and systems; and ensuring integrity of accounting and financial data. The Division also liaises with external and internal auditors and other relevant stakeholders on accounting and financial matters.

123. The **Budget Division** is responsible for preparing the Organization's annual Programme and Budget and related documents, provides advice on budgetary matters and establishes guidelines and procedures for preparing field office and project budgets. The Division provides guidance in ensuring that all institutional requirements are incorporated in budgets and prepares the assessment scale used to calculate Member State contributions to the Administrative Part of the Budget. It also ensures that all costs are appropriately budgeted to meet the objectives of the Organization's activities within the limits of available resources.

124. The **Treasury Division** is responsible for providing effective cash management for the Organization's funds to ensure optimum yield and operational liquidity. This is achieved by managing the short-term investment of funds according to anticipated incomes and expenditures and financial market conditions. The Division develops strategies to effectively manage cash and to ensure that foreign exchange risk is measured, monitored and controlled by suitable hedging policies. It also formulates and incorporates appropriate treasury controls; and establishes and maintains effective banking relationships across the Organization in order to ensure local liquidity that will facilitate effective implementation of IOM's operations. The Division also leads technology-driven initiatives to improve automation, security and efficiency of treasury processes across IOM.

125. The **Procurement and Supply Division** is responsible for the global oversight of all procurement and supply chain policies and related activities, including the purchase and delivery of goods, services and work. The Division develops procurement and supply strategies, drives improvements of processes and system solutions, and ensures the implementation of best practices to achieve best value for money, operational excellence and compliance with procurement and supply chain procedures. It is also responsible for strengthening procurement and supply capabilities and for conducting functional training on core procurement and supply chain competencies and skills.

126. The **Common Services Unit** is responsible for establishing guidelines for the purchase and maintenance of office supplies and equipment for Headquarters and for specific programmes; safeguarding IOM Headquarters inventory; ensuring the general maintenance of the Headquarters building; providing printing, mailing and shipping services; and handling office space and security matters at Headquarters.

127. The **Staff Travel Coordination Unit** is responsible for ensuring proper application of rules and directives pertaining to official travel. It analyses and interprets rules and guidelines regarding official travel and entitlements and provides solutions on a wide spectrum of travel-related issues. The Unit is responsible for the global coordination of travel arrangements and the issuance of tickets to ensure that these are done in the most economical and efficient manner under the terms of agreements drawn up between IOM and airline companies worldwide. The Unit also addresses travel and visa-related issues.

128. The **Risk Management Unit** oversees the development and implementation of the institutional risk management framework, including the use of risk appetite measures. The Unit is responsible for enhancing methodologies, tools and competencies to identify, assess, monitor and report on IOM's risk exposures in a more dynamic and integrated manner across the Organization and in IOM management systems.

129. The **Headquarters Building Division** is responsible for the overall planning, design and execution of the IOM Headquarters building project and accountable for the oversight and management of resources, the efficient implementation of the project, and providing technical knowledge and advice on areas relating to quality, costs and deadlines, from the conceptualization stage through to the completion of the project. The Division works in close consultation and coordination with the Headquarters Building Steering Committee and the authorities of the host State.

ADMINISTRATIVE CENTRES

130. The Manila and Panama Administrative Centres were established to contain the cost of the Organization's growth by providing financial and administrative support services from low-cost locations, and this continues to be one of the important efficiency measures undertaken by the Administration. The focus of the administrative centres is to provide labour-intensive functions that support the Organization's global network of field offices. As the number of programmes and offices increases, IOM's core support functions in the key areas of ICT, legal, audit, finance, human resources, migration health, staff safety and security, procurement, project monitoring, online communications and administrative services have come under mounting pressure, struggling to keep pace with the growth of the Organization within existing financial resources. With IOM membership and programmes expected to continue to increase, the Administration is constantly reviewing opportunities to establish and transfer functions from Headquarters and other expensive locations to the administrative centres or to increase the support provided by the centres for functions still carried out at Headquarters. This is an ongoing process used to manage the Organization's growth within the limits of available funding.

Manila Administrative Centre

131. The Manila Administrative Centre is IOM's global administrative hub based in the Philippines which provides a range of administrative services mainly covering human resources, finance, legal affairs, procurement, and supply, staff safety and security, audit, publications and research, migration health, project monitoring, online communications and IT.

132. The **Global Procurement and Supply Unit** provides supply chain management assistance to meet operational and office needs relating to procurement processes and the purchase and delivery of goods and services in a timely, efficient, convenient and transparent manner. The Unit also manages assets and maintains agreements with vendors. The Unit keeps track of and promotes best practices in procurement in keeping with established policies. It is also tasked with ensuring the quality and safety of the goods and services procured through adequate controls and documentation.

133. The **Global Migration Health Support Unit** provides global support services to field offices, Headquarters and IOM donors on administrative and financial matters, statistics, reports, research, health informatics and knowledge management in order to facilitate monitoring, standardization and increased efficiency and quality of migration health programmes worldwide.

134. The **Information and Communications Technology Operations Centre** consolidates the Organization's ICT support through a 24 hours a day, seven days a week global service centre and supports internal business functions and enhance the delivery of IOM services to migrants and Member States. The Operations Centre acts as the focal point for IOM field offices on matters related to ICT service delivery and support. It defines ICT standards and solutions and facilitates the development and support of PRISM and other applications such as MiMOSA and iGATOR. The Operations Centre is also responsible for IOM's intranet and document management system.

135. The **IOM Pension Administration** is responsible for and provides services in all matters related to the UNJSPF. It is the focal point for the UNJSPF, affiliated field offices and IOM staff members who participate in the Fund. The IOM Pension Administration is also tasked with registration, document processing, data tracking, reporting and interpretation of the UNJSPF rules and regulations. The Unit also serves as the Staff Pension Committee secretariat.

136. The **Contract Division** is an integral part of the Office of Legal Affairs and is the global focal point responsible for reviewing contracts, agreements and memorandums of understanding, declarations, and consent and waiver forms, among others. It also provides legal advice on disputes related to contractual relationships with external entities and on terminating contractual relationships. The Contract Division has a unit in Manila and a unit in Panama.

137. The **Office of the Inspector General Unit** conducts internal audits, including compliance, performance and management audits, and undertakes investigations of IOM's activities worldwide.

138. The **Manila Financial Services**, composed of several units listed below, is responsible for providing overall financial management support, including accounting, budget and treasury support, to IOM field offices.

- The **Central Accounting Support** assists in the preparation of financial management and special donor reports and in month-end and year-end closing of accounts, reviews accounts receivable and revenue accounts, processes travel claims and performs bank reconciliations, among other tasks.
- The **Manila Budget Support** confirms project funding reviews, manages the annual terminal emoluments exercise and uploads project budget data into PRISM.
- The **Manila Treasury Support** processes payments and funding requests from field offices and airline and medical claims payments, facilitates payroll payment transfers for international staff worldwide, prepares summaries of daily bank balances, maintains a database of all IOM bank accounts and processes all payments for operations in the Philippines.
- The **PRISM Central Support Team** manages all the master data in PRISM in close coordination with the Accounting and Financial Reporting Division. It ensures the consistency and accuracy of master data to facilitate general and specific financial reporting.
- The **Regional Accounting Support** conducts account validation for field offices, account reviews, monitoring and clearing of suspense accounts, bank reconciliations, reviews and endorsement of donor financial reports and payroll reviews. It also assists with project closure coordination and provides field offices with accounting advice and audit support, as needed.
- MFS Crisis Support, in close coordination with the crisis support functions of the Department of Resources Management, helps offices responding to emergencies and crises by monitoring the financial situation, assisting in resources management functions, promoting capacity-building, monitoring the allocation and repayment of loans granted under the Migration Emergency Funding Mechanism and the Emergency Preparedness Account, providing immediate advice and ensuring rapid response.
- IDF Project Monitoring and Finance Support Unit, in close coordination with the IOM Development Fund Unit at Headquarters, supports the overall administration of the Fund by monitoring its funded projects globally from start to finish, providing technical support on

administrative and financial matters and promoting financial effectiveness and efficient use of project funds in accordance with established policies.

 Business Processes Improvement and Quality Assurance, in close coordination with the Accounting and Financial Reporting Division and other relevant units, is involved in developing and implementing business process improvement plans and quality assurance strategies relating to accounting and financial reporting functions, in compliance with the Organization's accounting policies and procedures. It is also responsible for conducting special projects to improve the efficiency and quality assurance of existing processes and systems.

139. The **Manila Human Resources Operations** provides human resources administration support for all Professional staff worldwide and General Service staff at Headquarters. It is responsible for the recruitment process, personnel administration and payroll of all Professional and Headquarters General Service staff and for the provision of administrative services relating to staff health and staff development and learning.

140. The **Resettlement and Movement Management Division**, composed of the Airline Invoice Settlement Section, the Movement Systems Support Unit and the Data Monitoring Section, is responsible for maintaining the Movement Support Site – which is the point of reference for all operations personnel worldwide, expediting the settlement of airline invoices, monitoring refunds, identifying discrepancies related to unused tickets, and so on. It also collates field movement statistics and reviews the suitability of existing movement and migration-related systems.

141. The **Resources Management Unit** is composed of six sections - Project Monitoring, Common Services, Local Procurement and Logistics, Staff Travel, Local Human Resources and Accounts Payable. The Project Monitoring Unit provides budgeting, financial analysis and reporting support for specific global projects and programmes, such as resettlement to the United States, the Junior Professional Officer Programme, visa application centres for Canada and the United Kingdom, the Family Assistance Programme of Germany and counter-trafficking programmes and other programmes. Other resources management sections mainly provide administrative support to all Manila Administrative Centre units.

142. The **Research and Publications Unit** supports the production of IOM's main publications by providing editing, layout and cover design services, coordinating with printers, distributing publications to field offices, sending electronic alerts on new publications and managing the publications page on the intranet and the online bookstore section of the IOM website.

143. The **Manila Unit of the Office of Staff Security** collaborates closely with UNDSS and the United Nations security management system and other security stakeholders. It directly monitors and provides advice on issues that affect the safety and security of IOM staff and offices worldwide, the protection of assets or any matter in that regard which may have a negative impact on the reputation of the Organization.

144. The **Online Communications Unit** is responsible for developing online communication strategies and managing the editorial content of IOM's external websites and online communication channels.

Panama Administrative Centre

145. The Panama Administrative Centre offers a range of administrative services as outlined below.

146. The **ICT Service Centre** in Panama provides different services and functions to offices worldwide. The Global User Support Unit provides bilingual technical support to all field offices. The Infrastructure and Networks Unit provides system management, advanced technical support and advice on projects that include an IT component. The IT Security Unit promotes and implements security standards and practices to secure IOM data and systems. The PRIMA Unit provides business analysis and support for the implementation of PRIMA. Lastly, in the event of a disaster in any of the corporate global hubs in Manila or Geneva, the Disaster Recovery Centre ensures business continuity for the Organization, with minimal data loss and within established time frames.

147. The **Panama Financial Services** has two main areas under its responsibility: Regional Accounting Support and PRISM Central Support Team. The Regional Accounting Support team performs advisory, review and support functions for country offices in the Americas region, the Manila Administrative Centre and Headquarters, as well as for projects related to Level 3 emergencies. It is also responsible for the validation of the accounts from country offices, the review and reconciliation of

accounts, the monitoring and payment of outstanding accounts, bank reconciliations and support with the monthly closures and year-end processes. The PRISM Central Support Team in Panama manages and maintains data in the PRISM accounting system, namely general ledger, donor and vendor information; bank accounts; project codes; and general project information, among others. It works in close coordination with the PRISM Central Support Team in Manila. It also guarantees the consistency and accuracy of centralized data, in order to facilitate the presentation of financial reports

148. The **Human Resources Advisory Services**, which includes the Organizational Design Unit, provides support to IOM field offices worldwide in the administration of locally recruited personnel. It also provides guidance and advice on the interpretation and application of policies and procedures, by analysing feedback from offices and recommending improvements to policies, reviewing a number of administrative processes, such as structure reviews, human resources policy compliance, classifications, promotion calculations and salary scales, analysing and preparing statistical data for various reports, and providing support in handling poor performance cases.

149. The **Staff Development and Learning Unit** provides support in developing training materials and facilitating training sessions for career development and technical training.

150. The **Occupational Health Unit** and the **Health Claims Processing Unit** process and reimburse medical claims and undertake occupational health assessments for General Service staff in the Americas and Africa. Activities include the promotion, assessment and follow-up of all IOM mandatory examinations for entry-on-duty clearance, the annual examination of drivers and periodical medical examinations supporting enrolment into the Medical Service Plan for staff and their dependants.

151. The **Emergency Response and Preparedness Unit** provides technical support on emergency activities in the western hemisphere and for the development and endorsement of projects to address emergency situations. The Unit also provides camp coordination and camp management training and facilitates greater cooperation within the United Nations system.

152. The **Panama Unit of the Office of Staff Security** provides security advice and support to offices in the region to ensure the safety and security of all IOM staff and to safeguard the Organization's assets through extensive collaboration with UNDSS.

153. The **Panama Unit of the Contract Division** is responsible for timely and accurate review in the three official languages of contracts and agreements necessary for the development and implementation of IOM projects.

154. The **Office of the Inspector General Unit** carries out its audit functions in accordance with the International Professional Practices Framework of the Institute of Internal Auditors. This Framework has mandatory elements, including the Definition of Internal Auditing, the Code of Ethics and the International Standards for the Professional Practice of Internal Auditing.

155. The **Procurement Unit** provides support on procurement processes to small offices and to cover the needs of the Panama Administrative Centre for the acquisition of goods and services and assets management. It is also responsible for managing non-food item stocks at the United Nations Humanitarian Response Depot in Panama for covering emergencies and contingencies in the region.

156. The **Resources Management Unit** supervises administrative issues in the Panama Administrative Centre, ensuring support, guidance, training and compliance with the Organization's regulations, rules, policies and procedures, and is responsible for updating regularly the Business Continuity Plan.

REGIONAL OFFICES

157. The regional offices oversee, plan, coordinate and support IOM activities within their region. They are responsible for project review and endorsement and provide technical support to country offices, particularly in the area of project development, project implementation, monitoring and evaluation, resource mobilization, resource management, and liaison coordination with regional and subregional governments, United Nations agencies and other key partners. A brief description of the nine regional offices is outlined below.

158. The **Regional Office in Bangkok, Thailand**, provides support to IOM offices in Asia and the Pacific; plans and coordinates IOM activities and maintains liaison and partnerships with governments, development partners and civil society within the region; provides technical support to governments to develop national migration frameworks and strengthen migration management systems, as well as in the areas of emergency and post-crisis response, including support for global Displacement Tracking Matrix operations, disaster risk reduction and climate change-induced migration. The Office works closely with the United Nations Economic and Social Commission for Asia and the Pacific and other regional multilateral bodies, such as Association of Southeast Asian Nations (ASEAN), the South Asian Association for Regional Cooperation, the Pacific Islands Forum and the Asian Development Bank; and provides programme and secretariat support for regional initiatives, including the Colombo Process, the Bali Process on People Smuggling, Trafficking in Persons and Related Transnational Crime and its Regional Support Office, and the Joint United Nations Initiative on Migration and Health in Asia.

159. The Regional Office in Brussels, Belgium, provides support to IOM offices within the European Economic Area and Switzerland; maintains liaison and partnerships with governments, development partners and civil society within the region; and provides technical support to governments to develop national migration frameworks and strengthen migration governance systems. In addition to its regional functions, the Office provides, by virtue of its liaison role with the European Union, a range of functions benefiting IOM offices worldwide. These include the Office's coordination function in IOM's institutional approaches to policies and activities in relation to the European Union: negotiations and an advisory role for the Organization as a whole and for IOM offices worldwide on European Union policies, programming and funding; liaison, on behalf of the Organization and its offices worldwide, with European Union institutions on matters of a political and financial nature; support for European Union dialogue with third countries on migration issues and liaison with regional bodies; and assistance in strengthening IOM's relations and liaison with European Union institutions, including through the advancement of strategic cooperation on migration and the administrative and financial Framework Agreement. Furthermore, the Office coordinates IOM's relations and liaison with NATO, the Organization of African, Caribbean and Pacific States, the World Customs Organization and other multilateral bodies with headquarters in the region.

160. The Regional Office in Vienna, Austria, provides practical, technical and administrative support to IOM offices in South-Eastern Europe, Eastern Europe and Central Asia; works to implement projects in those countries where IOM presence is limited; provides technical support to governments to develop national migration frameworks and strengthen migration management systems; leads the implementation of migration management strategies and policy frameworks, coordinates IOM activities and maintains liaison and partnerships with governments, development partners and civil society within the region and represents IOM at the Regional UN System Meeting for Europe and Central Asia. The Office liaises with the United Nations Office in Vienna, the United Nations Office on Drugs and Crime, the United Nations Industrial Development Organization, the Organization for Security and Co-operation in Europe, the International Anti-Corruption Academy, other Vienna-based international organizations and donors, such as the OPEC Fund for International Development. It also liaises with regional and subregional organizations and coordination structures, such as the Organization of the Black Sea Economic Cooperation, the Migration, Asylum, Refugees Regional Initiative, the Regional Cooperation Council and the Central European Initiative, as well as with regional integration processes, such as the Commonwealth of Independent States and the Eurasian Economic Union. The Office also promotes regional dialogue and cooperation on migration by supporting the Almaty Process, the European Union's Eastern Partnership Panel on Migration, Mobility and Integrated Border Management, and the Western Balkans Initiative.

161. The **Regional Office in Buenos Aires, Argentina**, provides support to IOM offices in South America, plans and coordinates activities and maintains liaison and partnerships with governments, development partners and civil society within the region; conducts research and publishes studies on migration issues in the region; provides technical support to governments to develop national migration frameworks and strengthen migration management systems, particularly under the Technical Cooperation in the Area of Migration for Latin America (PLACMI) programme; acts as the technical secretariat for the South American Conference on Migration; works with and provides technical support to subregional integration processes like the Andean Community (CAN) and the Southern Common Market (MERCOSUR); interacts with regional bodies like the Union of South American Nations (UNASUR); and liaises with multilateral institutions based in the region, such as the Economic Commission for Latin America and the Caribbean and its Latin American and Caribbean Demographic Centre (CELADE), the Community of Latin American and Caribbean States (CELAC), the Latin American and Caribbean Economic System (SELA) and the Pacific Alliance.

162. The **Regional Office in San José, Costa Rica**, provides support to IOM offices in Central America, North America and the Caribbean; plans and coordinates strategies and activities within the region and maintains liaison and partnerships with governments, development partners and civil society; provides technical support to governments to develop national migration frameworks and strengthen migration management systems; works with the Regional Conference on Migration and other relevant subregional and regional processes, such as the Central American Integration System (SICA), the Central American Commission of Directors of Migration, and the Caribbean Community; and liaises with regional multilateral institutions, such as the Organization of American States, the Inter-American Development Bank and the Pan American Health Organization.

163. The Regional Office in Cairo, Egypt, provides support to IOM offices in the Middle East and North Africa, through technical advice, training and the formulation of strategies, processes, projects and programmes; promotes and facilitates international dialogue, partnerships and coordinated migration policy development and programming between States, international organizations, NGOs and civil society. The Regional Office further supports regional dialogue processes such as the Abu Dhabi Dialogue and the Arab Regional Consultative Process on Migration and Refugee Affairs; maintains liaison and partnerships with regional organizations, in particular the League of Arab States and the Economic and Social Commission for Western Asia - with which IOM co-convenes the Issue Based Coalition on Migration in the Arab Region - and regional networks, such as the Regional United Nations Network on Migration for East and Southern Africa, which it co-leads with the International Labour Organization. The Office also works with other regional entities, such as the Arab Labour Organization, and the Arab Parliament and seeks to shape a common platform of response and preparedness for migration crises in the region; and promotes and undertakes information-sharing and research to help national, regional and international partners carry out evidence-based advocacy, policy development and programming, including by hosting the North Africa Mixed Migration Hub on behalf of the North Africa Mixed Migration Task Force. It furthermore undertakes regional public information activities to contribute to IOM's visibility and to promote its activities vis-à-vis counterparts and donors at the regional and global levels.

164. The **Regional Office in Dakar, Senegal**, provides support to IOM offices in West and Central Africa; plans and coordinates activities and maintains liaison and partnerships with governments, development partners and civil society within the region; provides governments with technical support to develop national migration frameworks and strengthen migration management systems; liaises with and provides capacity-building support to ECOWAS and the Economic Community of Central African States; and promotes and supports regional dialogue processes, such as the Migration Dialogue for West Africa and the Migration Dialogue for Central African States. It also liaises with other United Nations system organizations, including the United Nations Office for West Africa and the Sahel and the United Nations Regional Office for Central Africa, and represents IOM in the United Nations Sustainable Development Group for Western and Central Africa.

The Regional Office in Nairobi, Kenya, provides support to IOM offices in East Africa and the 165. Horn of Africa; maintains liaison and partnerships with governments, development partners and civil society within the region; works to implement regional programmes, as approved by the Director General; supports evidence-based migration policies and practices through the harmonization and analysis of migration-related data sets; provides technical support to governments to develop national migration frameworks and strengthen migration management systems; promotes the RCPs for East African States; maintains liaison with the United Nations Office in Nairobi, the United Nations Environment Programme and UN-Habitat; promotes inter-agency cooperation through the formation of a migration group for regional United Nations partners; and maintains and strengthens IOM's relations with the East African Community and Intergovernmental Authority on Development to enhance regional cooperation and dialogue on migration and contributing to their enhanced understanding of migration issues. This relationship enables IOM to translate political decisions into practical programmatic and policy responses at regional and national level. The Office also undertakes regional public information activities to contribute to IOM's visibility and to promote its activities with counterparts and donors at the regional and global levels and promotes knowledge-sharing and knowledge management within the region.

166. The **Regional Office in Pretoria, South Africa**, provides support to IOM offices in the Southern African Development Community member countries; plans and coordinates activities and maintains liaison and partnerships with governments, development partners and civil society within the region; provides technical support to governments and the Regional Economic Communities to develop national and regional migration frameworks and strengthen migration management systems; promotes the RCPs for Southern African States; serves as a link between migration and development and the Secretariats of the Pan-African Parliament and the African Union New Partnership for Africa's Development, and works with the Secretariats of the Southern African Development Community, the Common Market for Eastern

and Southern Africa and the Indian Ocean Commission to enhance regional cooperation and dialogue on migration.

SPECIAL LIAISON OFFICES

167. IOM has two special liaison offices, one in Addis Ababa, Ethiopia, and one in New York, United States of America, which are responsible for liaison with multilateral bodies. A brief description of their functions is outlined below.

168. The **Special Liaison Office in Addis Ababa, Ethiopia**, maintains and strengthens IOM's relations with the African Union, the Economic Commission for Africa, diplomatic missions and other relevant actors by contributing to their enhanced understanding of migration issues. The Office works to enhance IOM's strategic engagement with both of these bodies, particularly the African Union Commission, the highest continental policy organ, by ensuring the appropriate inclusion of migration in its developmental, political, social, and peace and security policy agendas. This relationship enables IOM to translate political decisions into practical programmatic and policy responses at regional and national level. The Office is accredited to and works closely with the Economic Commission for Africa to mainstream migration into multilateral initiatives focusing on Africa. The Office works to ensure IOM Headquarters and regional and country offices in Africa are kept abreast of key decisions and new policy directions of both bodies. The Special Liaison Office also has full country office responsibilities with the host government.

169. The **IOM Mission to the United Nations in New York, United States of America**, strengthens migration elements within the United Nations system and IOM's relations with diplomatic missions and NGOs. The Mission contributes to these stakeholders' understanding of migration issues by facilitating international policy dialogue on migration and by promoting the inclusion of migration in frameworks and agendas on peace and security, human and sustainable development and humanitarian response. With much of the United Nations decision-making and coordination mechanisms taking place at the United Nations Headquarters in New York, the Mission works closely with United Nations secretariat departments/offices and agencies, funds and programmes headquartered in New York to enhance this collaboration. The Mission strengthens IOM's activities within the United Nations by participating in policy, funding and operational mechanisms. In this regard, the Mission works closely with IOM Headquarters, regional offices and country offices worldwide to ensure an overall coordinated approach on policies and programming at the United Nations Headquarters.

COUNTRY OFFICES

170. IOM has a global network of country offices and sub-offices which implement a wide range of projects addressing specific migration needs. These offices keep abreast of and analyse migration issues and emerging trends in the country in order to develop appropriate responses and contribute to regional strategies and planning. On the basis of the regional strategies, they develop a country strategy and a national plan of action in coordination and consultation with their respective regional office. They are financed predominantly by the projects implemented in the respective locations.

Country offices with resource mobilization functions

171. To ensure effective fundraising and liaison with donors, four country offices that coordinate substantial funding for IOM's activities worldwide (**Berlin, Germany; Helsinki, Finland; Tokyo, Japan;** and **Washington, D.C., United States of America**) have additional responsibilities for resource mobilization. They support the development of funding policies, establish priorities and procedures, prepare proposals and develop fundraising strategies and mechanisms for national programmes and projects in line with the Organization's strategic focus and priorities.

Country offices with coordinating functions

172. Within the large geographical areas covered by each regional office, there are subregional migratory realities for which certain country offices are assigned coordinating functions to deal with such specific migration dynamics. These offices help address specific subregional migration issues and emerging trends and promote increased IOM membership in the subregion. They establish priorities for project development and resource mobilization, and stimulate, direct and support project development in the cluster of offices in the context of subregional strategies, policies and consultative processes. The

country offices with coordinating functions are in the following locations: **Nur-Sultan, Kazakhstan**, for Central Asia; **Canberra, Australia**, for the Pacific; **Georgetown, Guyana**, for the Caribbean; **Rome, Italy**, for the Mediterranean; and **Beijing, China**. A coordinating function to cover South Asia is located in the Regional Office in **Bangkok, Thailand**.

COORDINATING COMMITTEES

173. Although not part of the core structure, two coordinating committees, one for policy and one for management matters, facilitate communication and cooperation between Headquarters and the field and enhance the quality of decision-making and compliance throughout the Organization.

174. The **Policy Coordinating Committee**, consisting of the Director General, the Deputy Director General, the Chief of Staff, Regional Directors, Department Directors and Senior Regional Advisers, reviews IOM's activities from a policy and programmatic perspective, identifies opportunities for innovation and growth, as well as potential obstacles, and sets the broad priorities of action for the Organization.

175. A similar committee is established in each of the regions and is composed of the Regional Director, the relevant Senior Regional Adviser and Chiefs of Mission. These regional policy coordinating committees review IOM's activities in the regions, identify opportunities for growth, establish priorities, identify potential obstacles and develop regional strategies.

176. The **Management Coordinating Committee**, consisting of the Director General, the Deputy Director General, the Chief of Staff, Department Directors, the Director of the Human Resources Management Division, the Senior Regional Advisers and the Regional Directors, ensures coordination between departments, regional offices and the administrative centres and provides guidance on major or complex management, resource allocation and utilization issues.

AUDIT AND OVERSIGHT ADVISORY COMMITTEE

177. The **Audit and Oversight Advisory Committee** acts in an advisory, non-executive capacity to assist the Director General in fulfilling his oversight responsibilities, including on the effectiveness of audit and oversight, risk management and internal control concerning the Organization's operation.

178. The Committee is an independent, expert advisory and oversight body that reports to Member States on the appropriateness and effectiveness of internal oversight, risk management and internal controls at IOM. The Committee reports annually to the Standing Committee on Programmes and Finance. It does not infringe on the functions and responsibilities of any existing oversight entities of the Organization or those of the Organization's External Auditors.

41

FUNDING OF THE CORE STRUCTURE

DEFINITION OF THE CORE STRUCTURE

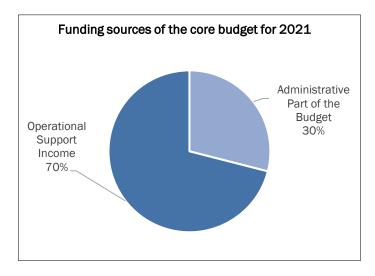

179. On 27 June 2018, the Standing Committee on Programmes and Finance adopted Resolution No. 18 on budget regulations and practices. Resolution No. 18 defines the core structure of IOM as the minimum structure necessary for the Organization to deliver its services. The core structure comprises functions needed to exercise basic management responsibilities, including policy formulation, financial and budgetary control, activity planning and development, and liaison with governments and multilateral partners.

- (a) At Headquarters, this includes the costs of all staff who serve as advisers and/or who plan, organize, supervise and monitor the overall activity of the Organization, within regional and functional contexts, and whose work is not tied to the implementation of a single identifiable programme or project.
- (b) In the field, this includes the costs of the regional offices, the administrative centres, the special liaison offices, the country offices with coordinating functions and the country offices with resource mobilization functions when the activities of these offices are of a regional or organization-wide nature, and when they are not tied to the implementation of a single identifiable programme or project, and involve the following: significant liaison duties; management of relations with other multilateral bodies; planning, organizing or implementing the activities of the Organization at the global, regional or subregional level or in a functional capacity; overseeing and supporting the operations of the Organization in the areas of project development, endorsement and implementation; procurement services; control of project expenditures; receipt and disbursement of funds; negotiation of agreements; provision of recruitment and human resources services; financial reporting; support for external/internal audits; and the provision of global administrative support.

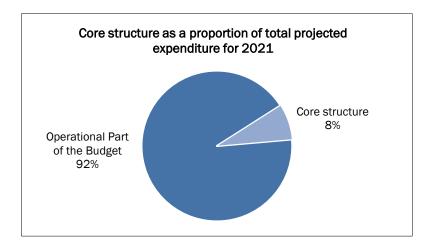

SOURCES OF FUNDING FOR THE CORE STRUCTURE

BACKGROUND

180. IOM's core structure is funded from two sources: Member State assessed contributions and OSI. The Administrative Part of the Budget is funded from the assessed contributions paid by the Member States and is used to cover administrative costs of the Organization. OSI is derived principally from the overhead rate on projects, plus miscellaneous income. As shown in the chart below, OSI covers more than two thirds of the core budget for 2021. In addition to the overhead income, an amount of USD 5 million will be contributed directly from unearmarked income to complement the core structure. In line with Standing Committee on Programmes and Finance Resolution No. 18 on budget regulations and practices, adopted on 27 June 2018, the OSI projection has been established based on the actual results derived from the latest Financial Report of the Organization and taking into consideration current and expected trends. In 2021, OSI has increased and is 4.07 per cent higher than the previous year.

181. The proportion of the core structure in relation to the Organization's total budget represents one of the lowest ratios when compared with any public sector organization. The chart below illustrates the level of the core budget as a proportion of the currently projected total expenditure of the Organization for 2021. This proportion will reduce in subsequent revisions to the budget document when new projects are reported. It clearly underlines that the core structure costs constitute only a fraction of the Organization's projected expenditures for 2021 to support a global operational portfolio estimated to reach USD 2 billion.

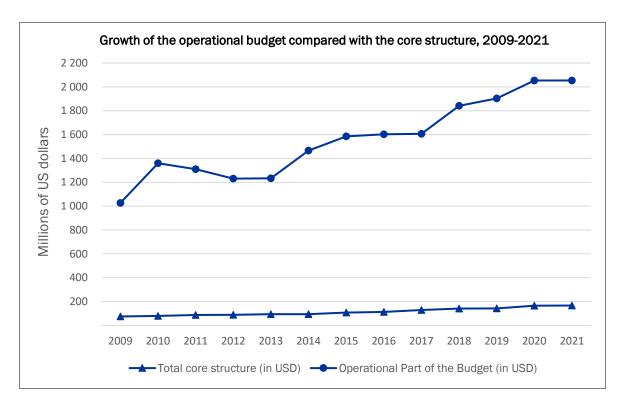

BUDGET REFORM

182. In May 2010, the Member States decided to establish the Working Group on Budget Reform to undertake a comprehensive budget reform exercise and address the issue of insufficient funding for the core structure. Recognizing that the issue would take time to address, various decisions intended to offer some interim financial relief were approved by the Member States which have allowed the Organization to partially moderate the effects of the problem. These decisions included: (a) authorizing the addition of contributions from new Member States to the Administrative Part of the Budget; and (b) reducing the mandatory OSI reserve balance from USD 10 million to USD 5 million.

183. The Member States continued to examine the matter by considering a combination of measures comprising: (a) cost-efficiencies; (b) alternative funding sources; and (c) budget increases, which formed the basis of the budget-strengthening model adopted in November 2013. In keeping with the budget-strengthening plan, a 12 per cent increase in the Administrative Part of the Budget was implemented over three years, from 2014 to 2016, and the project overhead rate was increased to 7 per cent for new projects as of 1 January 2014. The conversion of existing projects to the 7 per cent overhead rate is still in progress as negotiations with donors and Member States continue.

184. Cost-efficiency is an important element of the budget reform process, and it has been a high priority within IOM since the founding of the Organization. Delocalization has been the primary cost-efficiency tool, through the establishment and development of the Manila and Panama Administrative Centres. Savings generated from the delocalization initiative are estimated at approximately USD 20 million per year. In addition, among the other various cost-efficiency measures implemented, staff travel should be highlighted. Staff travel is strictly monitored through a central travel unit. Economy air travel is mandatory, and the size of IOM delegations is kept to a minimum to further reduce staff travel costs.

185. The Organization has experienced a sustained growth and expansion over in recent years. In almost all regions, there has been a significant increase in large-scale migration crises and challenges, many of which are complex and have no immediate solution. The increasing complexity of migration dynamics is reflected in the substantial growth in IOM's project portfolio. The following chart summarizes the continuous growth of the Operational Part of the Budget in just over a decade and presents the projection for 2021. More details on the figures are contained in Annex I. It is likely that the Organization's expenditures in 2021 will reach USD 2 billion.

186. In 2020, the Working Group on Budget Reform held meetings to discuss proposals to introduce changes to the financial framework of the Organization as well as improvements to the budget regulations, with the aim of aligning the regulations with the current realities of the Organization. The main changes proposed by the Administration are related to: consolidation of the separate mechanism for managing the amount of OSI relating to staff security into the larger OSI projection and reserve mechanism; the mechanism to determine the level of allocation to the IOM Development Fund; flexibility in accessing funds held in the OSI reserve; and consolidation of emergency funding mechanisms.

187. The key issue going forward will be the effective management of the growth of the Organization. The upsurge in migration challenges globally and IOM's leadership role in the field of migration within the United Nations system will have a substantial impact on the Organization's future growth and direction. To keep pace with this growth, the budget reform must be a sustained effort, consistent with the decision made by Member States to avoid an erosion of the budget strengthening actions already taken. The funding model of the Organization should be strengthened, and the Administration considers the Working Group on Budget Reform to be the best mechanism to foster these discussions.

188. The Administration and Member States have a joint responsibility to ensure that the growth of the Organization is well managed, with proper support and oversight functions for the sake of the long-term sustainability of the Organization. The Administration considers the Working Group on Budget Reform to be the best vehicle for supporting and overseeing the Organization's core budget in the longer term. The Working Group will continue its work to provide a sound foundation for IOM's future.

BUDGET LEVEL

189. The table on pages 48 and 49 presents an overview of core structure funding under the Administrative Part of the Budget and OSI for 2021. In line with Standing Committee on Programmes and Finance Resolution No. 18 of 27 June 2018, section II, the core structure is funded from two sources: Member State assessed contributions and OSI.

190. The consolidated table also includes miscellaneous income, which comprises unearmarked contributions and interest income, in order to provide a complete picture of the application of OSI.

191. The core structure under both sources of funding is subject to statutory increases every year which have to be absorbed within the approved budget. The budget level under the Administrative Part of the Budget is approximately USD 53.8 million and projected OSI is USD 128 million. The combined resources of the Administrative Part of the Budget and OSI to cover the core structure and other non-staff items in 2021 amount to approximately USD 181.9 million.

PART I: ADMINISTRATIVE PART OF THE BUDGET (in Swiss francs)

ADMINISTRATIVE PART OF THE BUDGET

BACKGROUND

192. The diversity of IOM activities and scope of its projects and programmes, which span all continents and are interlinked between countries, require the maintenance of adequate administrative and management support structures to ensure that project objectives are met and accountability requirements achieved. Mindful of the financial challenges faced by many Member States in recent years, the Administration continues to undertake various cost-containment measures, including postponing the upgrade of outdated IT systems and office equipment and refurbishment of premises; deferring reclassifications following restructuring of the Organization; decentralizing functions from Headquarters to the field; delocalizing back office functions to low-cost locations in Manila and Panama; and restricting all staff travel to economy class. Furthermore, the adoption of the budget-strengthening model by the Council for the years 2014 to 2016 increased the core budget and offered the opportunity to boost certain critical core structures.

BUDGET LEVEL

193. The Administrative Part of the Budget has been prepared on the basis of zero nominal growth and is presented at CHF 52,242,614.

194. The Administrative Part of the Budget is financed by contributions from the Organization's current 173 Member States. Inflation and cost-of-living adjustments which affect salaries and other staff entitlements established in line with the conditions of service of the United Nations common system have been absorbed in the proposed budget.

APPLICATION OF THE ADMINISTRATIVE PART OF THE BUDGET

195. The allocation of funds under the Administrative Part of the Budget is consistent with the definition of core functions as set out in Standing Committee on Programmes and Finance Resolution No. 18 on budget regulations and practices, adopted on 27 June 2018. The Administrative Part of the Budget partly covers the core structure needed to exercise management functions, including policy formulation, financial and budgetary controls, activity planning and development, and liaison with governments and multilateral partners.

ADJUSTMENTS AT HEADQUARTERS AND IN THE FIELD

196. Owing to the increase in statutory costs for the existing core structure, the Organization proposes to move 14 positions from the Administrative Part to the Operational Part of the Budget to balance the administrative budget. While the total staff count decreases, the transfer of positions from one location to another are being proposed to enhance service delivery within the Organization.

197. The overall staffing levels under the Administrative Part of the Budget in 2021 compared with 2020 are as follows:

- Headquarters 84 Professional category staff and 34 General Service staff (2020: 82 P staff and 37 GS staff)
- Manila Administrative Centre 3 Professional category staff and 8 General Service staff (2020: 3 P staff and 12 GS staff)
- Panama Administrative Centre 3 Professional category staff and 2 General Service staff (2020: 3 P staff and 2 GS staff)
- Regional offices 34 Professional category staff and 26 General Service staff (2020: 38 P staff and 28 GS staff)
- Special liaison offices 6 Professional category staff (2020: 6 P staff and 1 GS staff)

Headquarters

198. Headquarters is organized into four departments under the Office of the Director General: (a) Department of International Cooperation and Partnerships; (b) Department of Migration Management; (c) Department of Operations and Emergencies; and (d) Department of Resources Management. These four departments are designed to consolidate structures in order to enhance efficient use of limited resources.

- 199. The proposed changes at Headquarters are outlined below:
- Establishment of the following Professional category positions:
 - One Deputy Director General position
 - One position for a special adviser to the new Deputy Director General
- Establishment of a General Service position to provide administrative support to the new Deputy Director General
- Moving three General Service positions, previously funded by the Administrative Part of the Budget, to OSI funding
- One General Service category position for information and communications technology abolished

Administrative centres

200. The Manila and Panama Administrative Centres serve as administrative hubs providing extensive support to the Organization's global network of offices. They have proven to be successful in further enhancing IOM's cost-efficiency and responsiveness.

201. The proposed changes have minimum effect on the total number of staff in the administrative centres, as outlined below:

• Moving four General Service category positions, previously funded by the Administrative Part of the Budget, to OSI funding.

Field

202. The nine regional offices, which have oversight responsibilities for the country offices under their coverage, and the two special liaison offices, which are responsible for liaison with multilateral bodies, are funded under this part of the budget. This structure is designed to enhance effective use of limited core resources and expertise within and across regions.

203. The proposed changes in the field as outlined below result in moving both professional and general service category positions to OSI funding:

- Moving four Professional category positions, previously funded by the Administrative Part of the Budget, to OSI funding
- Moving three General Service category positions, previously funded by the Administrative Part of the Budget, to OSI funding

204. The details of all positions funded by the Administrative Part of the Budget can be seen in the staffing table on page 62.

Staff fixed costs

205. The estimate for the fixed costs of staff shows a net decrease of CHF 732,300, which is mainly due to the transfer of 14 positions from the Administrative Part of the Budget to OSI. Nevertheless, despite the net decrease, there are increases in some areas, namely:

- An increase in base salary mainly resulting from the regular step increments for all staff in graded positions at Headquarters and in the field, which is partially offset by the transfer of positions previously funded by the Administrative Part of the Budget to OSI funding.
- An increase in contributions to the UNJSPF based on the actual costs of staff funded under this part of the budget.
- A slight increase in contributions to health and accident insurances to reflect the actual entitlements of staff members, which are mainly influenced by family composition.

Staff variable costs

206. The total variable costs for staff (mobility and hardship allowance, family allowance, language allowance, rent subsidy, education grant, home leave, and appointment and transfer costs) have increased by CHF 311,000 and reflect the actual staff members' entitlements, most of which are influenced by family composition.

Non-staff costs

207. Non-staff costs, including general office costs, communications and governing body sessions, are straight-lined, with the exception of the following proposed change:

 An increase of CHF 481,100 for staff development and learning, which is compensated for by a similar decrease in OSI funding.

ASSESSMENT SCALE

208. The Administrative Part of the Budget is financed by assessed contributions from Member States in line with Council resolutions.

209. Through Resolution No. 1380 of 26 November 2019, the Council authorized the Standing Committee on Programmes and Finance to adopt in 2020 a scale of assessment for IOM Member States for the year 2021, on the basis of an assessment scale fully equated to that of the United Nations and updated with the addition of new Member States. The IOM assessment scale for 2021 is fully equated to the larger membership of the United Nations through the application of an equation factor.

210. The contributions of Member States to the Administrative Part of the Budget, as presented on pages 56 to 59, have therefore been calculated in accordance with the scale of assessment for 2021 (document S/26/3), approved by the Standing Committee in July 2020.

PART II: OPERATIONAL PART OF THE BUDGET (in US dollars)

OPERATIONAL PART OF THE BUDGET

INTRODUCTION

211. The Operational Part of the Budget is funded by voluntary contributions.

212. Funding for the Organization's activities is mostly earmarked for specific projects or reimbursements for services provided. The Operational Part of the Budget consists of funding that IOM expects to receive from donors for new and ongoing activities based on formal contractual agreements. The Operational Part of the Budget for 2021 is estimated at USD 913.4 million.

213. It should be noted that the Organization prepares its budget based on anticipated funding, and the projections made represent the funding confirmed for 2021 thus far. The total funding ultimately received and the total actual expenditure for 2021 will be higher.

214. The budgeted resources for 2021 have been established using current information on projects and programmes which are expected to continue or commence during the budget year. These do not always reflect the total cost of implementing the projects, as only activities for which funding is currently available for the budget year are shown. The budgeted resources for staff, office and programme costs are therefore based on reasonable estimates made when the present document was being prepared.

215. In certain cases, not all the funds earmarked by donors for specific projects are utilized or committed to activities in the budget year. The unused funds are carried over to the following year for continued project implementation. Funds expected to be carried over have been reflected as budgeted resources for the specific activities or projects for which they are intended.

216. If only partial funding has been received for a project's implementation, the portion requiring additional funds is included in Migration Initiatives for fundraising purposes. The budget levels for such projects are increased in subsequent revisions of the Programme and Budget as additional funding is received.

217. Funding earmarked for specific programmes under the Operational Part of the Budget cannot be used for purposes other than those specified by the donor, and this limits IOM's ability to invest in new initiatives without firm pledges. Except for a limited amount of OSI which offers some flexibility, the Organization does not have its own funds from which to make allocations to specific programmes or to support its field structures. The Administration appeals to Member States to consider making unearmarked voluntary contributions towards the Organization's work.

218. Projected OSI for 2021 is USD 128 million and more information on its sources and application is provided in the section on pages 66 to 77.

219. The geographical breakdown of the Operational Part of the Budget on pages 149 to 168 provides a regional perspective on IOM programmes.

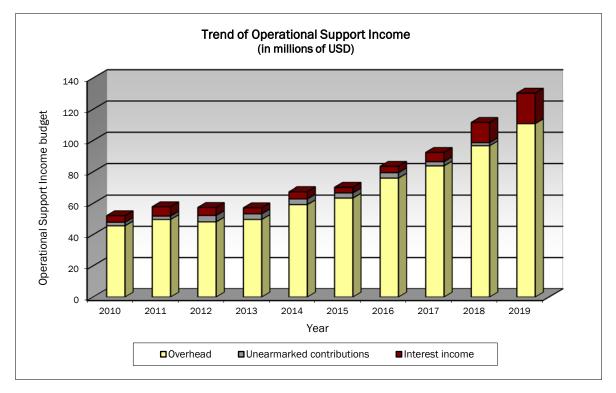

220. Annex II (Funds in special accounts) presents details of the funds and the criteria for their use.

221. Staff and office costs are shown in the table in Annex IV. The staffing levels and related costs attributable to specific operational projects are based on the projections for staff and office structures, which depend on the level of activity and funding, and are therefore adjusted on an ongoing basis. Annex IV also reflects staff positions, office structures and other costs funded by OSI.

222. Movement estimates are given in Annex V. This table presents a breakdown of the projected number of movements based on the anticipated level of activities.

OPERATIONAL SUPPORT INCOME

223. In line with Standing Committee on Programmes and Finance Resolution No. 18 on budget regulations and practices, adopted on 27 June 2018, part of OSI is earmarked as complementary funding to cover the Organization's core structures. The chart below, which is based on the annual Financial Reports, shows that the actual OSI generated has increased over the years as the Organization's activities have expanded.

224. The proposed budget level for 2021 has been estimated based on the budget-strengthening model adopted by Member States, whereby the overhead rate was increased to 7 per cent. The OSI budget estimate for 2021 is projected at USD 128 million. In line with Resolution No. 18, the OSI projection has been established based on the actual results derived from the latest Financial Report of the Organization and taking into consideration current and expected trends. In 2021, the OSI projection has increased by 4 per cent compared with the previous year.

225. The functions, services and projects funded by OSI are outlined below. With the increased funds, certain functions and services have either been strengthened or established in line with the areas identified through the budget reform discussions. Part of OSI is earmarked to cover the fees for IOM's participation in the UNDSS mechanism, the cost of IOM staff security structures and the IOM Development Fund. The projects financed by the IOM Development Fund are presented in a separate report and are not described by activity in this document.

226. Should actual OSI be higher than the expenditure levels at the end of the year, the difference will be applied towards covering unforeseen shortfalls; and any balance remaining thereafter will be credited to the OSI reserve mechanism. On the other hand, funds will be drawn from the reserve should the amount of OSI available at the end of the financial year be less than the amount projected. This approach helps address concerns about fluctuations in the OSI level and ensures a sustainable level of funding to cover the core structure of the Organization.

PROJECT-RELATED OVERHEAD PROJECTION

227. As mentioned in the previous section, project-related overhead is a percentage charged on projects to cover indirect costs and the Organization's fees for participation in the UNDSS mechanism. The current project-related overhead rate is 7 per cent on total project costs, but a lower rate may be applied to bilateral funds from developing Member States requesting technical assistance from IOM for the implementation of national development projects and to projects involving "pass-through" funds where IOM's involvement is limited to merely transferring funds to another entity.

228. The project-related overhead for 2021 is projected at USD 112 million. For a few active projects, which had been negotiated under different overhead regimes before the new rate was adopted, the old rates continue to be applied. The following table illustrates the overhead that is expected to be generated from the different overhead rates of projects and programmes included in the present document under the Operational Part of the Budget.

Overhead rate	2021 Total budget in millions of USD	% of total 2021 budget	2021 Staff and office costs out of the total budget in millions of USD	2021 Overhead in millions of USD
12% on staff/office costs	243.6	26.7%	103.9	12.5
5% on total costs	70.4	7.7%	32.8	3.3
7% on total costs	522.8	57.2%	160.8	31.7
0 to 4%	76.6	8.4%	15.8	1.2
TOTAL	913.4	100%	313.3	48.7
Difference needed to bring overhead income to the projected level in 2021				63.3
TOTAL	913.4	100%	313.3	112.0

Note: USD 63.3 million must be realized from new and additional projects/funding over the course of 2021 in order to realize the projected overhead income of USD 112.0 million and will generally fall under the higher 7 per cent overhead category. The confirmed overhead funding of USD 48.7 million is derived from ongoing projects which continue at previously agreed overhead rates until they end or can be converted to the higher rate. The increase in the overhead rate to 7 per cent will continue to have an effect as it is applied to new projects.

APPLICATION OF OPERATIONAL SUPPORT INCOME

Project-related overhead income

229. This section of the document presents an overview of the sources and application of OSI. The costs funded by OSI are separated under the subheadings of project-related overhead income and miscellaneous income, as presented below.

230. Details of staff positions, office costs and other line items funded by OSI are provided in Annex IV.

1. Headquarters

231. The core staff at Headquarters are those who serve as advisers and/or who plan, organize, supervise and monitor the overall activity of the Organization, within regional and functional contexts, and whose work is not tied to the implementation of a single identifiable programme or project. Part of the core structure which is not funded under the Administrative Part of the Budget is covered by OSI.

Budgeted resources: 27 041 900

2. Headquarters – Internal Governance Framework

232. IOM has grown significantly in terms of budget, staffing and scope of activity and is recognized as an institution of extraordinary scope and delivery, characterized by the positive impact it has across the world. This rapid growth and transformation within a short time frame has placed a strain on the Organization's internal governance system. The Administration has launched an ambitious action plan to enhance the Organization's overall functioning by driving continual improvement to support the delivery of its mandate, strategic vision, objectives and goals, meeting donor expectations and requirements. The Organization is in need of consolidation, coherence and structural development to continue to be a reliable and effective partner to Member States and donors and to continue to provide high-quality assistance to beneficiaries. To address this, the Internal Governance Framework, outlining the essential requirements for a modern and fit-for-purpose internal governance system, has been developed.

Budgeted resources: 2 450 000

3. Field – Administrative centres

233. The Manila and Panama Administrative Centres are considered extensions of Headquarters and provide administrative support throughout the Organization. Most of the functions in the centres provide general administrative support and are therefore covered by OSI. The role of the administrative centres continues to be invaluable as the Organization continues to grow, with the services they provide costing less than if they were provided in Geneva.

Budgeted resources: 14 862 500

4. Field – Regional offices

234. The regional offices oversee, plan, coordinate and support IOM activities within their region. This budget allocation is directed towards covering the core functions of the regional offices which include, among others, undertaking liaison duties; managing relations with other multilateral bodies; planning, organizing or implementing activities of the Organization at the regional or subregional level or in a functional capacity; overseeing and supporting the operations of the Organization in the areas of project development, providing thematic specialized support, endorsement and implementation; procuring services; controlling project expenditures; undertaking receipt and disbursement of funds; negotiating agreements; providing recruitment and human resources services; performing financial reporting; supporting external/internal audits; and providing administrative support to country offices. The budget allocation for country offices with resource mobilization functions and country offices with coordinating functions is also included under this section.

Budgeted resources: 33 390 000

5. Field – Special liaison offices

235. The special liaison offices in Addis Ababa and New York have the responsibility of maintaining liaison with multilateral bodies. These offices strengthen the relations with diplomatic missions, the United Nations system and NGOs. In line with institutional policies, they are part of the core structure. Most of the services and support they provide are organization-wide and therefore covered by OSI.

Budgeted resources: 1 933 000

6. Field – Country offices

236. In line with the Organization's projectization policy, most of the staff and office costs in the country offices are directly attributed to the projects under which they are incurred. In some cases, however, the Administration supports country offices where project funds do not fully cover the costs of office structures, particularly for liaison activities or establishing and maintaining a presence as an investment for potential project opportunities.

Budgeted resources: 7 660 400

7. African Capacity Building Centre

237. The objectives of the African Capacity Building Centre, established in Moshi, United Republic of Tanzania, in collaboration with the Government are to: (a) help promote international understanding of migrants and migration issues; (b) promote sound migration governance in Africa; (c) develop, institutionalize and deliver on-site and off-site migration management training programmes; and (d) build the migration management capacity of African States. In meeting these objectives, IOM works closely with all governments, regional bodies and other stakeholders across the continent.

Budgeted resources: 529 600

8. Global Migration Data Analysis Centre

238. The objectives of the Global Migration Data Analysis Centre, established in Berlin, Germany, are to provide timely, evidence-based analysis of data on global migration issues; enhance IOM's capacity to assess the impact of its projects and programmes; and position the Organization as a key source of data on global migration trends. The Centre also contributes to the development of IOM's global migration governance framework and is responsible for preparing several IOM flagship reports.

Budgeted resources: 791 000

9. Staff development and learning

239. The Administration remains committed to supporting the implementation of existing human resources strategies and policies and developing new policies and tools to address the Organization's need for a holistic and integrated approach to talent management, staff development and learning, performance management and succession planning.

Budgeted resources: 267 600

10. Publications

240. The work of the Publications Unit continues to grow and the current publications catalogue lists over 2,130 titles (an increase of 13% from last year). In order to increase the readership and sales of IOM publications, more should be invested in the production process, including enhancing tools, and in the provision of publications to Member States and the public in general. More publications are available in the three official languages compared with last year, but budget limitations remain a barrier to achieving a more balanced production of publications in languages other than English. A new publications platform is being developed, which will allow an enhanced search as well as better reporting features.

News and information on IOM programmes

241. IOM will continue to present its programmes in a number of periodic publications, such as brochures, info sheets, manuals, handbooks and other information leaflets. Thematic catalogues with focus on the diversity of the themes that cut across migration will continue to be presented at different venues.

• IOM's academic journal: International Migration

242. The journal is edited by Koç University and published by Wiley. Six issues of the journal are published per year and are available online only. Hard copies can be requested through the Wiley portal.

Migration Policy Practice

243. *Migration Policy Practice* is a quarterly journal published jointly by IOM and Eurasylum. The journal produced an issue for its 10-year anniversary in 2020. Contributions are received from senior officials from governments, the European Union, international organizations and civil society worldwide who work in the field of migration policy. By 15 September 2020, 42 issues of the journal had been published, including 10 special issues since 2015. One special issue, on data, human mobility and the environment, was produced in 2020, and one – on return and reintegration – was produced in 2019. Four were produced in 2018, on the following topics: *World Migration Report 2018*; child migration; migration and the 2030 Agenda for Sustainable Development; and the Global Compact for Safe, Orderly and Regular Migration.

Migration Research Series

244. The Migration Research Series focuses on policy-oriented and empirical research and analysis with the aim to contribute to a better understanding of the multidimensional aspects of migration and inform migration policies at the national, regional and international levels. By 15 September 2020, 64 titles had been published in this series, some of which have also been published in French and Spanish. In 2020, three issues were related to COVID-19. All issues are freely available online on the IOM online bookstore, to ensure a wide reach and impact among policymakers, practitioners, scholars, researchers and students interested in issues related to migration.

World Migration Report

245. The World Migration Reports explore and discuss the latest trends in international migration and are published in English, French and Spanish. The 2020 edition of the report was launched in English at the end of 2019, and the full report has been translated into Chinese, French and Spanish. Chapter one has been translated into Russian and Portuguese and translations into Arabic and Turkish are being organized. The World Migration Report has three objectives: (a) to provide key information on migration and migrants, globally and regionally; (b) to provide analyses of complex and emerging issues in the field of migration; and (c) to present policy-relevant findings based on sound research and analysis, and practical suggestions for a range of different stakeholders.

Other publications

246. The Organization also produces a substantial number of publications (studies, reports, books, handbooks and manuals) through its offices around the world and at Headquarters, either directly or through co-publishing arrangements with other organizations or commercial companies. IOM also works in partnership with United Nations Publications.

247. The IOM online bookstore provides a large range of IOM publications in the three official languages, as well as some other languages. Most publications can be downloaded free of charge.

Budgeted resources: 255 000

11. Gender mainstreaming activities

248. Through its Gender Equality Policy – the revised version of which is currently under development – IOM strives to respond to the practical needs and strategic interests of all migrants, considering their sex, age and gender, in all its activities, ensuring that women, men, boys and girls experience safe migration and are provided with equal opportunities for social and economic empowerment and access to adequate assistance, as needed. Technical guidance is provided throughout the Organization in strengthening competency on gender issues for IOM staff at all levels and in actively cooperating with partners at the inter-agency level.

249. Specific efforts will be directed at strengthening the Organization's capacity to deliver on gender equality issues in line with its participation in the United Nations System-wide Action Plan on Gender Equality and the Empowerment of Women. IOM will continue to prioritize the enhancement of its capacity to report on gender equality results.

Budgeted resources: 100 000

12. Course on International Migration Law

250. In response to the interest expressed by governments, IOM organizes an annual course open to officials from various government ministries that formulate and implement migration law and policy. The course provides a broad overview of international migration law, focusing on migration issues of specific interest. Dialogue and cooperation between government departments in the same country are also encouraged.

Budgeted resources: 20 000

13. Leadership, diversity and inclusion initiatives

251. The purpose of these initiatives is twofold: (a) to address shortages in managerial and leadership skills by identifying and preparing a talent pool of emerging IOM leaders to secure effective succession planning for middle and upper management positions; and (b) to maximize the benefits of employing a wide range of people of different genders, backgrounds, cultures and ethnicities, with a view to serving IOM beneficiaries and Member States effectively and with sensitivity.

Budgeted resources: 300 000

14. Private sector outreach

252. IOM recognizes the private sector as both a partner and an important stakeholder that offers unique skills, knowledge and expertise for tackling today's pressing migration challenges. To establish effective private sector partnerships, in line with the private sector partnerships strategy for the period 2021–2023 and its action plan – both of which are currently being finalized - the Private Sector Partnerships Unit will provide Headquarters and the regional and country offices with assistance and expertise relating to initiating, establishing and maintaining partnerships with the private sector, in order to fully utilize the benefits of such partnerships. It will do so by leading and supporting the Organization's overall efforts to build partnerships with the private sector; identifying opportunities for strategic engagement; coordinating structured outreach to potential private sector partners; and developing and implementing brand awareness and fundraising campaigns.

Budgeted resources: 200 000

15. Regional consultative processes on migration

253. In response to the growing complexity and diversity of international migration, a number of RCPs have been established in recent years. Periodic consultation offers participants the opportunity to share and exchange information on migration issues of topical interest. Such consultations facilitate and deepen cross-fertilization among RCPs and explore ways to harness future opportunities for greater collaboration. Building on IOM's past involvement in organizing and supporting a number of RCPs, the Administration considers it important to strengthen structures in order to enhance engagement in the processes.

Budgeted resources: 25 000

16. Support for consultations with civil society organizations

254. IOM constantly develops and nurtures relationships with CSOs that work in the field of migration as part of its mandate to strengthen cooperation with non-governmental actors on migration and related areas. Annual IOM–CSO consultations continue to foster partnerships on migration-related topics. Consultations cover a range of increasingly topical issues, including mixed migration flows, migrants in countries in crisis and climate adaptation. These annual consultations will benefit from having a broader range of relevant CSOs participate by sponsoring a small select number of them, as dictated by the topics on the agenda.

Budgeted resources: 10 000

17. Humanitarian Assistance for Stranded Migrants

255. Although home country governments are responsible for assisting stranded migrants, they are often unable to respond to immediate needs. IOM is therefore frequently asked by governments and international agencies to provide humanitarian emergency assistance, at very short notice, to migrants, particularly those who find themselves in difficult migratory circumstances for which funding is not readily available.

256. The Humanitarian Assistance for Stranded Migrants programme, which serves as a funding mechanism to provide global, timely and effective responses, seeks to: (a) provide flexible and quick humanitarian assistance to stranded migrants in difficult circumstances for whom support is not readily available from existing programmes; and (b) derive, from the information collected in providing such assistance, a clearer picture of changing trends in irregular migration in order to help the international community formulate countermeasures that can be included in future IOM programming.

Budgeted resources: 300 000

18. Centre for Information on Migration in Latin America (CIMAL)

257. As a service to States and the general public, IOM will continue to provide information on international migration and related matters in Latin America, the Caribbean and other geographical areas. This information has been compiled over the years from reliable sources, such as academic institutions, migration specialists and projects and information units working on migration in the region, and enables the characteristics and magnitude of migration movements within the region to be understood and monitored. The Centre has published and updated a bibliographic registry of publications on migration, reverse technology transfer, human resources and related matters in Latin America and the Caribbean. It also plays a major role in the promotion and use of modern information dissemination tools and methodologies in order to make regional systems more compatible.

Budgeted resources: 30 000

19. Technical Cooperation in the Area of Migration (PLACMI), Latin America

258. This activity is described in section IV.3.18 of the present document, where full donor contributions are shown. This paragraph reflects only the additional amount allocated from OSI to enhance IOM's structures in support of PLACMI, part of which will be used to help the Organization of American States organize the annual Inter-American Course on International Migration with the National Directorate of Migration of Argentina. This course aims to provide specific training to representatives from different areas in the region and encompasses theoretical and applied knowledge that will facilitate mechanisms to improve the administration and regularization of migration processes. It also facilitates the exchange of expertise, experience and methodologies to develop activities in the field of international migration. The combined funding for PLACMI totals USD 74,000.

Budgeted resources: 63 000

20. Technical Cooperation Project to Strengthen the Puebla Process

259. This activity is described in section IV.3.21 of the present document, where full donor contributions are shown. This paragraph reflects only the additional amount allocated from OSI to enhance IOM's structures in support of the Puebla Process. The combined funding for the Puebla Process totals USD 116,200.

Budgeted resources: 20 000

21. Support to Strengthen the Central American Commission of Directors of Migration (OCAM)

260. The general objective of the project is to strengthen the role of OCAM as a mechanism for consultation, coordination and cooperation on migration issues within the framework of the regional integration process. The project is based on the development of cooperation activities through the OCAM electronic communications network and the modernization of migration administrative systems. An allocation from OSI is provided in recognition of the importance of this mechanism in achieving regional integration.

Budgeted resources: 10 000

22. South American Conference on Migration process

261. The general objective of the project is to support the South American Conference on Migration process, in line with the regional strategy. IOM acts as the technical secretariat for the Conference. An allocation from OSI is provided in recognition of the importance of this mechanism in achieving regional cooperation.

Budgeted resources: 20 000

23. Annual support for African Union migration policy formulation and dialogues

262. The general objective of the project is to support migration dialogues in Africa to ensure inclusive and coherent policy formulation and implementation. This support will provide platform for advisory and technical assistance to ensure the complementarity of engagement and work in line with the African migration and development agenda. This annual support will align as well with IOM's Continental Strategy for Africa 2020–2024 for greater collaboration with the African Union Commission, its Regional Economic Communities and other relevant entities on safe, orderly and regular migration. IOM acts as the main partner of relevant migration dialogues in Africa, notably the Pan-African Forum on Migration. An allocation from OSI is provided in recognition of the importance of this support mechanism in achieving regional cooperation and integration.

Budgeted resources: 80 000

24. Information and communications technology

263. Efforts will be continued to update and enhance existing technology, IT security and organization-wide information and communications systems through several ongoing and planned initiatives that will enable the Organization to continue providing effective and efficient support to administrative and operational structures and services. This is in line with the objective to maximize the benefits of ICT systems in advancing the mandate of the Organization, while mitigating cybersecurity risks. The priority projects in 2021 are described below:

- Ongoing upgrades and maintenance of PRISM are critical to keep pace with demands from IOM offices and departments for improved business processes and to keep up to date on technical upgrades, functional enhancements and change management.
- Implementation of tools and applications to mitigate the Organization's cybersecurity risks and vulnerabilities, while protecting the Organization's information and data assets from malicious attacks, will be continued.
- Key enhancements of the MigApp (Migrant Application) platform and a technology rebuild of MiMOSA are required to further enhance the automation and integration of facilitated migration services. MigApp complements MiMOSA and other systems and allows IOM to have systems of engagement that enhance the capacity of programmes to provide migrants with information on regular migration and resettlement services. It also allows staff to leverage mobile technology to conduct business and provide services as they interact with migrants in remote areas.
- IOM will embark on a programme to create high availability of key systems (MiMOSA, PRISM and PRIMA) as part of its activities to move to cloud services. This will include transferring IOM central infrastructure systems and operations to a consolidated data centre in Valencia, Spain, thereby ensuring optimum disaster recovery and business continuity services for the Organization's most critical systems, which are currently hosted in Geneva and Manila.

Budgeted resources: 4 141 000

25. Staff security

264. International organizations have reinforced their efforts to enhance staff and asset security management in response to the mounting threat to staff safety and security. IOM recognizes the potential threat to the lives of its staff in certain hazardous environments, and therefore participates in the UNDSS mechanism.

265. In line with the budget regulations, a portion of project-related overhead income is earmarked to cover the Organization's fees for participation in the UNDSS mechanism, the cost of staff security structures and, within the limits of the available resources, for compliance with the minimum operating security standards, evacuations and other staff security costs. Established internal procedures have proven effective in identifying safety and security requirements across the Organization, particularly in the field, and these are addressed within reasonable security practices and standards. Security needs are assessed, and security arrangements inspected on an ongoing basis in all IOM field offices, and staff receive training on security matters.

266. The actual use of the project-related overhead income earmarked for participation in UNDSS and other related costs will continue to be reported separately in the annual Financial Report.

Budgeted resources: 14 500 000

26. Unbudgeted activities and structures

267. The significant growth in the Organization's activities, with their inherent risks, and changing migration priorities require good management and prudent decisions in implementing projects around the world. The Administration has established internal control measures and policies to limit the risks associated with the complexity of IOM's operations. However, unforeseen developments with a potentially significant financial impact may result in: (a) emerging needs that cannot be realistically anticipated in advance; (b) co-funding requirements, when certain donors finance only a proportion of total project costs and IOM undertakes to implement the project in the expectation that it will be able to raise the outstanding amounts; and (c) a need for bridging funds to fill gaps during the transition from emergency operations to normal migration activities, when it might prove expensive to downsize structures, only to rebuild them again.

268. Taking into account IOM's "projectized" financial structure, and in the absence of other sources of income, unbudgeted expenditures resulting from unforeseen events are covered at the end of the year by additional OSI, if available, after all other avenues have been exhausted.

Budgeted resources: 3 500 000

27. Maintenance of office premises

269. With the expansion of the core staff structure, the Organization needs to allocate additional resources for office costs, particularly for rental, maintenance and other office running costs at Headquarters.

Budgeted resources: 500 000

Miscellaneous income

28. IOM Development Fund

The IOM Development Fund provides a flexible mechanism to respond rapidly and efficiently to the priorities of eligible Member States to strengthen their migration management capacity. Detailed criteria and guidelines on the IOM Development Fund, which provide practical information on the operation and management of the two funding lines, can be found on the IOM Development Fund website in the three official languages (http://developmentfund.iom.int/).

- 270. In summary, the IOM Development Fund operates within the parameters set out below:
- IOM uses the most recent version of the World Bank list of low-income to upper-middle income economies as the primary eligibility guideline. Countries that would otherwise be eligible because of their position on the World Bank list are excluded when they join the European Union.

- Priority is given to innovative capacity-building projects in the various IOM areas of activity, including research and feasibility studies related to such activities.
- National and regional projects are eligible for funding.
- Projects with good prospects for future funding and projects that provide co-funding for major donor commitments or bridging funds continue to be supported.
- Certain areas of IOM activity are excluded from consideration for support under the Fund. These include:
 - Movements: activities that are overseen by the IOM Resettlement and Movement Management Division, including IOM's traditional refugee and migrant transport and resettlement programmes;
 - Emergencies: activities that are overseen by the IOM Preparedness and Response Division;
 - Major conferences and similar events including continuations of ongoing dialogues and similar activities that are already well established; however, some events that may be useful in launching new regional processes, opening new geographical coverage or increasing programme planning and implementation between IOM and Member States are not excluded;
 - Projects mainly supporting IOM staff and office costs, including projects proposed for the specific purpose of opening or keeping open an IOM office; however, IOM staff and office costs can be included in the budget for project implementation following the usual IOM projectization approach, up to a maximum of 30 per cent of the budget;
 - Assisted voluntary return, unless the project has a significant government capacitybuilding component alongside the return component.
- In the context of regional projects, countries that are not IOM Member States continue to be included among the beneficiaries only where a majority of IOM Member States benefit from the project.
- Non-member States cannot directly apply for support through the Fund.
- All eligible Member States can apply for Line 2 funding excluding those with outstanding assessed contributions to the Administrative Part of the Budget which equal or exceed the amount due from them for the preceding two years (as provided for in Article 4 of the IOM Constitution). This exclusion does not apply to Member States with up-to-date payment plans.
- The following maximum funding levels apply:
 - Line 1: USD 100,000 for national and regional projects. Exceptional increases for regional projects will continue to be considered up to USD 200,000.
 - Line 2: USD 300,000 for national projects and USD 400,000 for regional projects. Funding requests beyond these limits are not considered.
- Distinct tracking and accounting have been introduced for the two funding lines.
- All projects include an ex-post evaluation the cost of which is budgeted at 5 per cent of the total project budget.
- A fundraising and visibility campaign is proposed for 2021.
- In order to ensure that the Fund is properly administered, support functions are also funded.

Budgeted resources: 15 000 000

FINANCING OF THE OPERATIONAL PART OF THE BUDGET

271. Contributions to the Operational Part of the Budget comprise the following:

- **Earmarked contributions** for specific programmes/projects and reimbursements from governments, migrants and sponsors, voluntary agencies and others;
- Unearmarked contributions from governments/donors;
- Interest income.

272. A summary of anticipated voluntary contributions by source of funds for 2021 is provided in the table below.

	US	D
Total Operational Part of the Budget		913 367 000
Earmarked contributions		
Anticipated earmarked contributions and reimbursements from governments, intergovernmental agencies, migrants, sponsors, voluntary agencies and others	752 984 800	
Refugee Loan Fund (principally the United States Government)	133 400 000	
Total earmarked contributions		886 384 800
Unearmarked contributions		15 982 200
Interest income		11 000 000
TOTAL ANTICIPATED RESOURCES		913 367 000

273. A breakdown of financing of the Operational Part of the Budget is provided on pages 80 and 81.

ANTICIPATED VOLUNTARY CONTRIBUTIONS TO THE OPERATIONAL PART OF THE BUDGET

274. The list of anticipated voluntary contributions from governments and multilateral donors for the implementation of projects under the Operational Part of the Budget for 2021 is shown on pages 80 and 81. Part of the earmarked contributions relates to reimbursable transport-related services for resettlement programmes and the remainder is applied directly to the projects for which the funds have been earmarked. In certain cases, not all the financial resources earmarked by donors in 2020 for specific initiatives will be utilized or committed to activities in the course of the year. The remaining funds will therefore be carried forward into the following year for continued project implementation and are shown as budgeted resources.

275. The amounts in the "unearmarked" column are based on specific discussions, notifications received and agreements concluded with Member States and estimated carry-forward from 2020, or are guided by calculations made in applying the model schedule of voluntary contributions to the Operational Part of the Budget (Council Resolution No. 470 of 23 November 1970: Voluntary financing of operations).

276. Given that the Organization has no financial resources of its own that can be used in a flexible manner to initiate new projects in response to migration issues of relevance to stakeholders, the Administration appeals to Member States to consider making unearmarked voluntary contributions to the Operational Part of the Budget. Such funds afford the Organization the possibility to adapt its strategies to constantly evolving migration patterns. They also serve as seed money to support IOM structures in critical areas where project funding is not fully developed, and to carry out necessary core functions and strengthen its management systems.

277. Migration has a far-reaching impact that affects all countries to varying degrees, and a concerted global effort is required to address the associated issues. The growing complexity and scope of the migration phenomenon require a focused approach backed by sufficient resources that enable the Organization to support government efforts to find solutions. The Administration therefore once again appeals to donor governments for unearmarked funds. The Administration will continue to explore, with Member States, the possibilities for general financial contributions that will help IOM meet the numerous challenges migration poses to all countries worldwide.

278. The total budget for Movement, Emergency and Post-crisis Programming is approximately USD 408.3 million. The projects are listed by programme area, indicating the objective(s) of each project and their link(s) to the activities outlined in the IOM Strategy on page 18.

279. Movement, Emergency and Post-crisis Programming activities, which are the responsibility of the Department of Operations and Emergencies, provide secure, reliable, flexible and cost-effective services to migrants, displaced persons and affected communities during emergency and post-crisis situations, and ensure that the human rights and well-being of migrants are guaranteed in accordance with international law.

280. The following programme areas are used to classify Movement, Emergency and Post-crisis Programming projects and activities.

281. **Resettlement Assistance:** IOM will continue to provide a wide range of support to governments and UNHCR in implementing refugee resettlement programmes offering resettlement as a durable solution to meet individual needs for international protection. While IOM support for resettlement is multisectoral and spans the continuum of the resettlement process, the Organization will retain a fundamental focus on arranging the safe, orderly, flexible and cost-efficient international transport of refugees from countries of first asylum to countries offering resettlement. The movement of people accounts for a significant portion of IOM's operational programmes and IOM maintains a global operational structure to implement ongoing and emerging resettlement and movement activities.

282. IOM helps resettle people accepted under various programmes by providing case processing, medical assessments, training and transport services as circumstances require. Migration health assessments and treatment form an integral part of IOM's support for resettlement programmes, thus some of the resources budgeted for these activities are reflected under this programme area.

283. Changing economic and security environments have had a severe impact on the airline industry and made it more challenging for IOM to negotiate concessionary fares and conditions. IOM has sought and continues to develop additional partnerships in order to maintain a robust, reliable and cost-efficient network of transport options.

284. To strengthen its capacity to track and manage resettlement operations, IOM has developed and implemented proprietary information management tools such as MiMOSA and iGATOR. These tools enhance the Organization's capacity to manage operational activities, control costs and monitor emerging trends. Ongoing staff training complements these tools with the aim of maintaining a high level of operational readiness across IOM's global network of field offices.

285. **Repatriation Assistance:** IOM will continue to provide voluntary repatriation assistance to refugees, mainly in support of UNHCR repatriation activities. These returns are carried out in accordance with protection concerns and procedures, which take into account the specific status of returnees. As part of a comprehensive repatriation assistance package provided to ensure the safe and sustainable return of refugees to their countries of origin, transport arrangements made for the beneficiaries are often supplemented with reintegration assistance, including travel health assistance and medical escort services where needed.

286. **Emergency Preparedness and Response Assistance:** IOM continues to provide rapid response, emergency relief and life-saving services, as well as support in preparedness and disaster risk management. The ongoing concurrent large-scale emergency responses will continue to call for increased capacities and resources. Furthermore, many emergency contexts are characterized by severe and protracted conflict and violence, requiring IOM to engage in emergency responses for longer periods than ever before.

287. Emergency responses in humanitarian crises focus on the provision of emergency shelter, the distribution of non-food items, camp management, water, sanitation and hygiene support, profiling and registration, logistics support, transportation, protection, awareness-raising, medical assistance and psychosocial support. These activities will be further bolstered by the Organization's ongoing investment in strengthening core humanitarian capacity, providing operational guidance, ensuring a comprehensive institutional response to crises, and focusing on preparedness efforts at both technical and management levels.

288. IOM has an increasingly large role in coordinated humanitarian responses. In close cooperation with other United Nations system organizations, as a member of the IASC and through its participation in strategic response plans, IOM ensures its activities and programmes are well coordinated and harmonized with globally agreed standards and contribute to the efforts of the international community. IOM serves as the lead agency for the Global Camp Coordination and Camp Management Cluster in natural disasters; and is also an active partner in the Global Shelter Cluster, co-leading the GBV in Shelter Programming Working Group and leading or co-leading the shelter cluster or its equivalent structure in different emergency contexts. IOM will strengthen the infrastructure and capacities of its Displacement Tracking Matrix – a core component of the Organization's operational response – in order to ensure the delivery of timely, accurate and actionable data and analysis, which is necessary for targeted humanitarian responses.

289. **Transition and Stabilization Assistance:** IOM's recovery, stabilization and transition operations assist individuals and communities, including communities of return or at risk of displacement, through medium- and longer-term programmes implemented at the local and national levels. Using peace, security and development frameworks, the majority of the portfolio continues to focus on promoting stability through multisectoral efforts and grants to improve social and economic recovery, build peace dividends and address drivers of forced migration. Its grants and project activities, as well as technical assistance to governments, are development-principled and carry particular importance in transitional, complex and protracted crisis environments. Using community-based, participatory approaches, IOM empowers populations to lead their own transition to durable peace, recovery and sustainable development; to assist in the reconstruction and rehabilitation of affected areas; and to addresses drivers of displacement to prevent forced or irregular migration.

290. Key activities will continue to focus on the return and reintegration of IDPs, refugees and segments of the population in situations of vulnerability, livelihood restoration, promoting stabilization and conflict mitigation, strengthening social cohesion, and community-based reconstruction and rehabilitation of social infrastructure. It will also continue to focus on peacebuilding, and prevention and preparedness in the areas of disaster risk reduction and resilience-building.

291. The Organization is developing new tools and expertise to enhance its continued support for disarmament, demobilization and reintegration processes, with a focus on community-based socioeconomic reintegration and new applications for the IOM information, counselling and referral service approach in contemporary conflict contexts. It equally includes other activities such as preventing the recruitment into armed groups of at-risk populations, particularly youth; transitional justice for victims in communities of return; reintegration of foreign fighters; and efforts aimed at preventing violent extremism.

292. **Elections Support:** IOM provides assistance to governments and migrants with a view to promoting political rights and expanding access of migrant communities (diasporas, refugees and IDPs) or potential migrants to democratic electoral processes in their countries or territories of origin. It also promotes national and local elections as a fundamental component of democracy, conflict prevention and community stabilization. IOM's activities relating to elections support focus on the different stages of the electoral cycle and are implemented in coordination with partners. This collaborative approach is intended to provide effective electoral assistance to governments requiring such support.

I.1 RESETTLEMENT ASSISTANCE

Programme/Project	Objectives
I.1 Resettlement Assistance	In line with cooperation agreements signed with host countries and in close collaboration with UNHCR and other international agencies, governmental organizations, NGOs and private sponsors, assistance will be provided to resettle approximately 107,000 people to various destinations in North America, Europe and Asia under various resettlement programmes in 2021. These resettlements include international travel assistance from the country of departure, through transit points and on to the final destination and are organized through the Organization's worldwide network of field offices.
	The costs relating to people accepted for resettlement are generally covered by the governments concerned on a fully reimbursable basis. Many resettlement programmes include health assessments of their beneficiaries and pre-departure orientation activities. Beneficiaries' health is assessed either by IOM or by a panel of approved doctors at the request of the governments of some resettlement countries. Costs relating to family reunification cases are borne by sponsoring parties. Owing to the financial structure of some of the projects, the costs of health assessments to establish fitness for travel are funded under this programme area too.
IOM Strategy: 1, 2, 3, 5, 8, 9, 10, 11	Budgeted resources: 167 943 800
Resettlement Assistance	Total budgeted resources: 167 943 800

I.2 REPATRIATION ASSISTANCE

	Programme/Project	Objectives
I.2.1	Protecting Migrants in Situations of Vulnerability and Stabilizing Communities in Libya	To provide urgently needed assistance and protection to migrants in situations of vulnerability and other crisis-affected populations in Libya and improve social cohesion through voluntary return and reintegration, distribution of non-food items, improving migration data and communication on migration flows, and capacity-building for relevant stakeholders. The project also aims to address irregular migration across the Mediterranean from Libya and the resulting challenges for migrants and Libyan institutions, as well as to respond to the effects of the ongoing instability and difficult economic conditions of migrants and host communities, including IDPs and returnees in the country.
IOM St	rategy: 1, 2, 3, 4, 5, 7, 9, 10, 11	Budgeted resources: 5 803 400
1.2.2	Providing Safe and Orderly Voluntary Repatriation Services in the United Republic of Tanzania	To support to the Government of the United Republic of Tanzania in collaboration with other United Nations agencies by providing voluntary repatriation services to Burundian refugees who are willing to return to their country of origin.
IOM St	rategy: 1, 2, 10	Budgeted resources: 250 000
Repatr	Repatriation Assistance Total budgeted resources: 6 053 4	

	Programme/Project	Objectives
I.3.1	Enhancing Strategic Capacity for Humanitarian and Emergency Response	To contribute to comprehensive efforts of the United Nations to better prevent, reduce and resolve internal displacement by strengthening capacity in targeted thematic areas as part of multi- stakeholder initiatives worldwide; to augment the capacity of country offices responding to crises in line with the structures and capacities of key partners; and to bring coherence across its operations and bring expertise on internal displacement to global humanitarian and development practices and discourse.
IOM Str	ategy: 3, 9	Budgeted resources: 133 800
I.3.2 Improving Efficiency of Humanitarian Water Supply Interventions through the Use of Solar Energy		To create an enabling environment for mainstreaming the use and maintenance of solar energy solutions for water provision for both disaster-affected populations and surrounding local communities through improving knowledge and building evidence of the cost- effectiveness of solar water-pumping solutions.
IOM Str	ategy: 9	Budgeted resources: 418 400
1.3.3	Enhancing Regional Convergence in Data Collection, Analysis and Dissemination	To contribute to a better understanding of migration trends and patterns in order to inform targeted policies and humanitarian interventions by enhancing data collection and analysis and dissemination of information among the relevant stakeholders.
IOM Str	ategy: 3, 6, 7, 9	Budgeted resources: 11 538 100
Displaced Populations in Burundi		To support the Government of Burundi in assisting returnees from the United Republic of Tanzania through water, sanitation and hygiene and shelter interventions using a community-based approach. This project will also provide emergency shelter and non- food items to people affected by flash flooding.
IOM Str	ategy: 9, 10	Budgeted resources: 1 352 800
I.3.5 Multisectoral Humanitarian Assistance in the Democratic Republic of the Congo		To provide humanitarian assistance to conflict-affected populations, survivors of the Ebola virus disease epidemic, displaced populations and host communities in the Democratic Republic of the Congo by improving the living conditions and protection through health, shelter, and water, sanitation, and hygiene support and improved site coordination and management.
IOM Str	ategy: 2, 9	Budgeted resources: 1 485 300
I.3.6	Provision of Emergency Shelter and Non-food Items to IDPs in Ethiopia	To provide life-saving shelter – including cash for rent support and housing – non-food item and water, sanitation and hygiene support to extremely vulnerable families affected by natural disasters and conflict in Ethiopia and to enhance the management of disaster and displacement information and referral mechanisms. This project will also contribute to improving the living conditions and self-reliance of refugees and host communities.
IOM Str	ategy: 9	Budgeted resources: 13 814 900

I.3 EMERGENCY PREPAREDNESS AND RESPONSE ASSISTANCE

	Programme/Project	Objectives
	nanitarian Assistance for Migrants IDPs in Libya	To contribute to the provision of enhanced protection and direct assistance to migrants and IDPs in Libya by establishing the migrant resource and response mechanism and to increase to the resilience of crisis-affected populations notably through social cohesion activities. This support will be delivered directly to migrants in distress, in particular those rescued at sea or being held in detention centres and at other identified locations, through a comprehensive, rights-based approach to humanitarian assistance. Moreover, this initiative will enhance the coordination of humanitarian assistance through improved data collection and the provision of evidence-based information on displacement inside the country; the provision of non-food items, hygiene kits and other direct assistance to IDPs; and the strengthening of the understanding of relevant government officials about human rights- based migration management and labour migration.
IOM Strategy:	1, 2, 5, 9, 10, 12	Budgeted resources: 4 249 800
	nanitarian Assistance for Cyclone- cted Populations in Mozambique	To provide assistance through the delivery of life-saving shelter and non-food items and water, sanitation and hygiene assistance to the most vulnerable cyclone-affected populations in the provinces of Sofala, Manica, Tete and Zambézia. This project will help to strengthen the referral system and provide psychosocial assistance to victims of trafficking and their families and unaccompanied migrant children in emergency settings. Another component of the project will continue the implementation of the Displacement Tracking Matrix in order to capture, analyse and disseminate information identifying the numbers, locations and – most importantly – the needs and vulnerabilities of displaced and host populations.
IOM Strategy:	2, 6, 9	Budgeted resources: 676 700
	nanitarian Response to the Crisis igeria	To support and facilitate the efforts of the Government of Nigeria to respond to the emergency in the country and to provide direct assistance, including shelter, water, sanitation, hygiene, mental health and psychosocial support, to the populations affected by the crisis, especially IDPs in situations of vulnerability and returnees. This project also provides capacity-building support to the national authorities and sector partners on disaster and displacement management and supports the establishment of humanitarian hubs to ensure a humanitarian presence.
IOM Strategy:	9	Budgeted resources: 1 949 100
	ision of Emergency Shelter port in Rwanda	To meet the immediate emergency housing needs of the most vulnerable displaced populations in three of the districts most affected by floods and landslides in Rwanda and to prevent deterioration in the existing humanitarian situation.
IOM Strategy:	9	Budgeted resources: 11 300
	nanitarian Response and Irgency Preparedness in Somalia	To provide support to drought-affected displaced populations in Somalia and to scale up the pre-positioning of water, sanitation and hygiene emergency supplies. This project supports the improvement of living conditions in IDP sites and facilitates the immediate and targeted delivery of services to displaced populations. Moreover, the project responds to the humanitarian emergency in the country by providing direct assistance, including shelter and non-food items and integrated multisectoral life-saving and stabilization support to improve the human security of migrants.
IOM Strategy:	9	Budgeted resources: 3 079 200

	Programme/Project	Objectives
1.3.12		To provide material assistance, such as water, site maintenance, shelter and non-food items for conflict-affected households in South Sudan, and to enhance their health and psychological well- being through integrated protection programming. The actions will further strengthen the capacity of the humanitarian aid system to provide timely and targeted humanitarian assistance through information management and cluster coordination support to logistics and common pipelines, common transport services for humanitarian partners, and Displacement Tracking Matrix data to support planning and prioritization, with a view to encouraging complementarity between humanitarian partners and clusters to enable more cost-effective programming that reaches a greater portion of the affected population.
IOM Stra	ategy: 4, 9	Budgeted resources: 3 125 700
1.3.13	Supporting Migrants in Situations of Vulnerability and Victims of Trafficking in Tunisia	To contribute to the provision of services to migrants in situations of vulnerability and victims of trafficking in Tunisia by enhancing the capacity of the Tunisian authorities and institutions to provide emergency assistance and health security through improved access to emergency shelters, non-food items and food items, health and legal services, and assisted voluntary return and reintegration assistance.
IOM Stra	ategy: 1	Budgeted resources: 1 107 100
1.3.14	Supporting Cyclone-affected Populations in Zimbabwe	To provide key information to the Government of Zimbabwe and humanitarian partners on the internal displacement situation and corresponding humanitarian needs in areas affected by Cyclone Idai using the Displacement Tacking Matrix. This information will be used at the strategic level to advocate the needs of the cyclone- affected population and at the operational level to improve beneficiary targeting and resource allocation and to monitor the ongoing food security crisis. This project will also provide shelter, non-food items cluster coordination and training support.
IOM Stra	ategy: 9	Budgeted resources: 1 701 200
1.3.15	Emergency Response for Displaced Populations in Iraq	To contribute to the improvement of living conditions of IDPs in conflict-affected areas in Iraq by providing life-saving humanitarian assistance in the form of non-food items and to enhance the capacity of the humanitarian community to monitor and understand the movements of IDPs and returnees through implementation of the Displacement Tracking Matrix. This project will also improve access to child protection, mental health and psychosocial support services and will address protracted displacement by facilitating durable solutions through an evidence- based approach.
IOM Stra	ategy: 9	Budgeted resources: 1 697 900
I.3.16	Emergency Response to the Crisis in the Syrian Arab Republic	To provide support to respond to the immediate needs of IDPs in situations of vulnerability in the north-western part of the Syrian Arab Republic through multisectoral assistance, including shelter, water, sanitation and hygiene, protection, food and health services, non-food items, education and transportation services. This project will also address urgent winterization needs, provide camp management services and collect and assess data on IDP movements, IDP site profiles, emergency needs, and informal sites across the country. The project also supports replenishment of shelter and non-food item cluster contingency stocks for distribution in the north-western part of the country and shelter rehabilitation, and capacity-building and the provision of security- related training for humanitarian personnel.
IOM Stra	ategy: 9, 10	Budgeted resources: 8 730 400

	Programme/Project	Objectives
1.3.17	Humanitarian Assistance for IDPs and Conflict-affected Communities in Yemen	To provide humanitarian assistance to IDPs, host communities and conflict-affected communities in Yemen through increased access to potable water, sanitation and hygiene facilities and non-food items and the provision of integrated protection and life-saving health assistance that meets the most critical needs of migrants traveling through Yemen. The response also provides emergency shelter materials, non-food items and basic site maintenance services, including camp coordination and camp management services and displacement tracking. The project will also respond to the needs of irregular migrants and refugees through humanitarian assistance along migratory routes, options for humanitarian voluntary returns and assisted spontaneous returns. It will also enable comprehensive regional analyses of migration flows and routes, as well as migrants' profiles and protection needs.
IOM Stra	ategy: 9	Budgeted resources: 15 424 600
1.3.18	Enhancing Emergency Preparedness in Haiti	To support the maintenance and handling of the non-food item stockpile to pre-position items at four emergency logistics hubs, namely in Port-au-Prince, Gonaïves, Jérémie and Les Cayes, in Haiti. This project will further strengthen the capacities of the Directorate of Civil Protection in Haiti at the national and departmental levels to assist disaster-affected populations during the 2020 and 2021 hurricane seasons. Moreover, this project also provides return and basic reintegration assistance to repatriated migrants.
IOM Stra	ategy: 9	Budgeted resources: 294 600
1.3.19	Humanitarian Assistance for Migrants in Situations of Vulnerability in Mexico	To support to the government of Mexico and civil society, including faith-based actors, who provide assistance to migrants from El Salvador, Guatemala, Honduras and Nicaragua, including access to accommodation and dignified basic services in government installations and in civil society organizations' shelters. This initiative also supports increasing humanitarian support through the provision of adequate shelter for migrants in situations of vulnerability, particularly victims of trafficking and survivors of gender-based violence.
IOM Stra	ategy: 1, 10	Budgeted resources: 2 198 900
1.3.20	Supporting Migrants and Refugees in Situations of Vulnerability in Peru	To support refugees and migrants from the Bolivarian Republic of Venezuela in Peru through various initiatives related to shelter, camp coordination and camp management, non-food items, water, sanitation and hygiene, humanitarian transportation, health, nutrition, food security and communication.
IOM Stra	ategy: 2	Budgeted resources: 120 500
1.3.21	Improving Living Conditions and Other Emergency Support to Populations in Situations of Vulnerability in the Bolivarian Republic of Venezuela	To contribute to improved living conditions through shelter assistance, access to basic services, including sanitation, infrastructure rehabilitation and the provision of equipment in the Bolivarian Republic of Venezuela. This initiative will also aim to provide life-saving information related to access to documentation, prevention of trafficking and smuggling, gender-based violence and other forms of exploitation and abuse. Moreover, it will track and disseminate up-to-date data and information on human mobility and distribute of personal protective equipment and institutional kits to the personnel of medical facilities and government established quarantine centres, in order to prevent the spread of COVID-19.
	ategy: 2, 6, 9,	Budgeted resources: 826 500

	Programme/Project	Objectives
1.3.22	Regional Initiative on Evidence for Migration Analysis and Policy	To strengthen the evidence-based formulation and implementation of humanitarian and development policy and programming on migration and forced displacement in Asia and the Middle East.
IOM Stra	ategy: 5, 6, 9	Budgeted resources: 3 686 700
1.3.23	Disaster Preparedness and Emergency Relief in the Solomon Islands, Tonga and Vanuatu	To work with the Governments of the Solomon Islands, Tonga, and Vanuatu to reduce the disaster displacement risk to vulnerable communities in their countries through strengthening their disaster displacement response capacities in a sustainable and comprehensive way.
IOM Stra	ategy: 9	Budgeted resources: 553 000
1.3.24	Strengthening National and Cross- border Humanitarian Protection in Afghanistan	To contribute to strengthening national and cross-border protection mechanisms and provide humanitarian protection assistance for vulnerable undocumented Afghans returning from the Islamic Republic of Iran and Pakistan through four major border crossings. This project aims to meet the immediate humanitarian needs of vulnerable populations by providing post-arrival humanitarian assistance through medical screening, transportation grants, water, sanitation and hygiene services, food assistance and non- food items assistance.
IOM Stra	ategy: 9	Budgeted resources: 4 546 200
1.3.25	Humanitarian Assistance for Rohingya Refugees in Situations of Vulnerability in Bangladesh	To contribute to the Joint Response Plan for Rohingya Humanitarian Crisis in Bangladesh by providing basic assistance, such as temporary shelters, building the institutional capacity of Bangladeshi law enforcement officials and supporting community policing initiatives. This project also contributes to enhancing support for protection mechanisms and approaches in both camps and host communities and livelihood initiatives and women's empowerment to address the risks of household poverty.
IOM Stra	ategy: 9	Budgeted resources: 1 616 000
1.3.26	Capacity-building for Disaster Response in the Republic of Korea	To increase common understanding of humanitarian principles and expand knowledge on the areas of security, psychosocial assistance, shelter, and health through training and capacity- building initiatives in the Republic of Korea. This project will provide an opportunity to simulate national disaster responses for professional humanitarian workers and volunteers.
IOM Stra	ategy: 3	Budgeted resources: 151 700
1.3.27	Emergency Preparedness and Support in the Marshall Islands	To support the Government of the Marshall Islands on its COVID-19 pandemic preparedness and response plan with a specific focus on providing support to the gender and protection cluster and to strengthen government capacity to screen travellers and migrants at points of entry. This project will also address violence against women and girls in coordination with multiple stakeholders including the United Nations.
IOM Strategy: 2, 3, 9		Budgeted resources: 106 300
1.3.28	Emergency Support for Capacity- building in the Philippines	To contribute to the efforts of the Government of the Philippines in disaster preparedness through increasing the capacity of the Department of Social Welfare and Development to effectively manage displaced populations in line with international standards and best practices. This initiative will also enhance the camp coordination and camp management, shelter and displacement tracking capacity of relevant government officials at various levels to prepare for and respond to humanitarian crises effectively.
	ategy: 4, 9	Budgeted resources: 274 300

	Programme/Project	Objectives
1.3.29	Initiative to Combat Violence against Women and Girls in Vanuatu	To support the multisectoral, coordinated approach taken by the Government of Vanuatu in addressing violence against women and girls, in coordination with multiple stakeholders, including the United Nations, governments, service providers and civil society, by identifying programmatic gaps.
IOM Str	rategy: 2	Budgeted resources: 143 900
1.3.30	Supporting the Response to the Refugee and Migrant Situation in Bosnia and Herzegovina	To support the management of migration flows in the context of increased numbers of refugees, asylum seekers and migrants entering in Bosnia and Herzegovina, by ensuring that the basic food and shelter needs of the population are met, facilitating access to protection services and providing transportation to schools for migrant and refugee children, particularly those with disabilities or additional needs, through improved identification and referral pathways. This project will further alleviate gaps and address the most urgent needs of project partners for a timely and effective response to prevent the spread of COVID-19 and to mitigate the social and economic impacts of the pandemic.
IOM Str	rategy: 1, 2, 9, 10	Budgeted resources: 3 441 800
1.3.31	Supporting Migration Management in Serbia	To support the Government of Serbia in meeting the challenges of managing mixed migration flows through the provision of access to quality formal and non-formal education, continuation of protection-related services in reception and asylum centres, assisted voluntary return and reintegration, distribution of non-food items in reception and asylum centres, further improvements in the areas of shelter monitoring and upgrading, and strategic response planning.
IOM Str	rategy: 2, 9, 10	Budgeted resources: 2 165 800
1.3.32	Supporting Refugees and Migrants through a Consolidated Response in Turkey	To support to the effort of the Government of Turkey to address protection services for refugees and migrants rescued at sea through humanitarian assistance, including provision of food items, non-food items and psychosocial support and referrals.
IOM Str	rategy: 6, 9	Budgeted resources: 376 200
1.3.33	Humanitarian Support in Conflict- affected Communities in Ukraine	To address urgent humanitarian needs and further strengthen the resilience of vulnerable conflict-affected populations in eastern Ukraine through the provision of winterization support, including in- kind support such as coal to overcome harsh weather conditions.
IOM Str	rategy: 9	Budgeted resources: 198 000

I.4 TRANSITION AND STABILIZATION ASSISTANCE

	Programme/Project	Objectives
1.4.1	Enhancing Engagement and Capacity in Peace and Security	To build IOM's capacity to more systematically engage in peace and security issues through the development of strategic guidance on how to better engage with the sector and its relationship to migration. This initiative will increase IOM's visibility within this area and build institutional capacity in the field and regional offices. This project also aims to strengthen partnerships on peace and security and to position IOM as an agency that promotes prevention and contributes to sustaining peace by addressing the needs and challenges associated with conflict-induced displacement.
IOM Str	rategy: 3	Budgeted resources: 87 800

	Programme/Project	Objectives
1.4.2	Programme for Human Security and Stabilization in the Lake Chad region	To operationalize a demobilization, disassociation, reintegration and reconciliation programme for former combatants, associates and victims of violent extremist groups, including those caught up in related security operations in Lake Chad region, with a particular focus on Cameroon, Chad and the Niger. This initiative will integrate the various elements of the protection, prevention, stabilization, transition and peacebuilding equation and restoration of social cohesion in the region.
IOM Str	rategy: 3, 9	Budgeted resources: 2 746 300
1.4.3	Community Stabilization in Burkina Faso	To strengthen social cohesion between host communities and displaced populations of the Centre-Nord and Sahel regions by bringing together young people from different communities around joint microprojects selected by the public administration and implemented by microgrants delivered to youth in Burkina Faso. This project will also work on the collective participation of all social groups in the improvement of community infrastructure and the roll-out of awareness-raising actions that will enable communities to get to know each other and work together. Moreover, this effort will contribute to improving the resilience of the populations of the cross-border areas of Benin, Burkina Faso and Togo that are at risk of community conflicts and violent extremism.
IOM Str	rategy: 3, 4, 9	Budgeted resources: 1 813 600
1.4.4	Community Stabilization Initiatives in Burundi	To contribute to the consolidation of the disaster risk management system in Burundi through the strengthening of institutional mechanisms to enable better management and implementation of contingency plans and coordination of the actors concerned, and through involving communities in disaster risk reduction initiatives to strengthen their resilience and their capacities for risk prevention and mitigation.
IOM Str	rategy: 5, 9	Budgeted resources: 3 511 600
1.4.5	Strengthening Stabilization and Recovery of Communities in Cameroon	To support the efforts of the Government of Cameroon to improve local governance, economic recovery and socioeconomic reintegration and to strengthen conflict resolution and community mediation mechanisms. This project also aims to reduce conflicts related to the use of natural resources for agropastoral practices in the northern regions.
IOM Str	rategy: 4, 9	Budgeted resources: 1 033 400
1.4.6	Contributing to Community Stabilization Efforts in the Central African Republic	To improve the security situation and resilience of communities through the socioeconomic reintegration of idle youth at risk of being involved in violence in the Central African Republic by organizing sociocultural events, constructing public infrastructure for intercommunity exchanges and training to encourage the development of the local economy and reduce the vulnerability of at-risk populations.
IOM Strategy: 4, 9		Budgeted resources: 10 006 500
1.4.7	Supporting Peacebuilding Efforts in Chad	To contribute to strengthening communication and peace at the grass-roots level in order to reduce tensions between communities in Chad. This project contributes to raising awareness among young people of the dangers in the north, including human trafficking, forced labour and recruitment by armed groups. The project also supports the most vulnerable households with unconditional food distribution, while simultaneously working to increase community productivity and resilience.

Democratic Republic of the Congozones of the Democratic Republic of the Congo through inclusive dialogue structures that address the divers of conflict, support social cohesion, resilience and economic growth, build the capacity of law enforcement agencies. This project also supports the empowerment of women and their active participation in the mineral exploitation sector. Moreover, this effort will contribute to the sustainable socioeconomic reintegration of ex-combatants by promoting social cohesion in conflict-affected areas as well as adopting an approach benefitting local communities and promoting economic recovery.IOM Strategy: 2, 3, 4, 5, 8, 11 12Budgeted resources: 2 330 200I.4.9Contributing to Community Stabilization Efforts in EthiopiaTo promote and implement rights- and needs-based programming for IDPs that addresses physical safety and security, access to livelihoods, documentation, family reunification and programming access to financial resources, skills training and market information. 	Programme/Project	Objectives
1.4.15	Disaster Risk Reduction Initiatives in Mauritania	To strengthen disaster risk reduction measures in Mauritania to prevent climate change-induced internal displacement through building institutional capacities to reform the current operational framework and risk reduction strategy. This project will also support the development of a regional contingency plan.
IOM Stra	ategy: 3, 9	Budgeted resources: 17 700
1.4.16	Building Capacities in Addressing Violent Extremism in Mozambique	To build the capacity of civil society organizations in Mozambique to prevent violent extremism by building a network to partner with local communities and advocate for effective strategies, interventions and initiatives for the prevention of violent extremism. This project supports community dialogues through provision of a community and conflict sensitivity expert to review the methodology and conduct training courses. Moreover, this initiative builds resilience to violent extremist influences by understanding and addressing socioeconomic needs in affected communities.
IOM Stra	ategy: 3	Budgeted resources: 1 765 200
1.4.17	Support for Disarmament, Demobilization and Reintegration Efforts and Community Stabilization in Nigeria	To contribute to the response by the civilian and military branches of the Government of Nigeria to de-escalate the conflict. This project will also develop an approach building on the concept of third-generation disarmament, demobilization and reintegration, and support the Government of Nigeria in its efforts to establish legal and policy frameworks on demobilization, disassociation, reintegration and reconciliation and to create and support positive "off-ramping" options for former associates of violent extremist groups.
IOM Stra	ategy: 9, 10	Budgeted resources: 5 661 600
1.4.18	Increasing Stability and Human Security for Migrants and Mobile Populations in Somalia	To contribute to increasing stability and addressing urgent humanitarian needs in Somalia, particularly among migrants in situations of vulnerability and mobile populations; to promote the sustainable reintegration of at-risk youth, including former fighters into their communities; to support stabilization initiatives and enhance confidence in local government administration; and to support the voluntary return of Somalian refugees. Another component of this project is to support the development of an integrated framework between the different mechanisms to ensure better coherence in the resolution of land disputes and to avoid having multiple decisions on cases, which can ultimately exacerbate conflicts.
IOM Stra	ategy: 2, 3, 4, 8, 9, 10	Budgeted resources: 6 882 600
1.4.19	Strengthening the Peace Process and Rehabilitation Initiative in South Sudan	To provide a platform to enable IDPs to express their views about peace and peaceful coexistence and for the analysis of displacement and population flows. The project will also work with at-risk youth to empower them as agents of change by equipping them with literacy and livelihood skills and supporting their psychosocial well-being. This initiative will also enhance stability and establish conditions conducive to longer-term conflict resolution and recovery by building resilience, promoting peaceful coexistence and supporting inclusive local governance mechanisms among resident communities, returnees and internally displaced persons.

	Programme/Project	Objectives
1.4.20	Community Stabilization in the Sudan	To create an enabling environment for community stabilization and peaceful coexistence among communities in the Sudan through addressing basic infrastructure needs, social services, water, sanitation and hygiene, and livelihoods in villages and along the pastoral corridors. The programme also promotes human security through mitigating the risk of conflict and tensions regarding natural resources and food insecurity. It also focuses on providing life-saving services, improving levels of stability and promoting durable solutions for vulnerable displaced populations and returnees.
IOM Stra	ategy: 5, 9	Budgeted resources: 6 585 900
1.4.21	Addressing Gender-based Violence in Zambia	To reach and support migration-affected populations as well as the surrounding refugee and host communities in Zambia through supporting the provision of safe shelters for survivors of gender- based violence and dissemination of information on and advocacy for the prevention of and responses to gender-based violence.
IOM Stra	ategy: 2	Budgeted resources: 267 200
1.4.22	Strengthening the Human Rights Commission in Zimbabwe	To support to the initiatives of the Government of Zimbabwe to strengthen the capacity of the human rights commission to work with its network of partners in monitoring and advocating the rights of populations in situations of vulnerability and at-risk populations, including IDPs and host communities that are victims of targeted human rights violations and intimidation.
IOM Stra	ategy: 2	Budgeted resources: 109 000
1.4.23	Contributing to Stabilization Efforts in Iraq	To contribute to ongoing stabilization efforts in Iraq by strengthening the capacity of individuals and communities to cope with the ongoing crisis in the country, mitigating tensions between IDPs and host community members, strengthening social cohesion and increasing the understanding of community dynamics and the factors affecting the radicalization of youth, including addressing emergency livelihood needs in communities. This project will also help to rehabilitate infrastructure related to the provision of basic services and economic recovery and establish community resource centres to provide information on reintegration and return processes and to address the root causes of irregular migration by improving the economic, social and security environment for young people. This project also provides tailored assistance and referrals to former combatants who wish to return to civilian life.
IOM Stra	ategy: 4, 5, 8, 9, 10	Budgeted resources: 16 157 700
1.4.24	Community Stabilization in Colombia	To contribute to community stabilization in Colombia by reconstructing infrastructure, including schools; assisting IDPs by providing training and income-generation opportunities; building the capacity of local authorities; promoting participative action to prevent criminal behaviour; advancing transitional justice and criminal policy for peacebuilding; and fostering institutional and community conditions conducive to the participatory and democratic development of territorial peace and reconciliation. Moreover, this initiative supports the regularization of the use and possession of land in compliance with the peace agreement. This initiative also provides technical assistance and tools to address the emerging humanitarian crisis created in communities affected by the sudden increase of population flows from the Bolivarian Republic of Venezuela.
IOM Stra	ategy: 2, 3, 9	Budgeted resources: 19 162 000

	Programme/Project	Objectives
1.4.31	Protection and Assistance to Migrants in Situations of Vulnerability in Indonesia	To support the Government of Indonesia to provide refugees and asylum seekers with improved standards of care, particularly with respect to safe accommodation and basic humanitarian assistance, health services, mental health and psychosocial services, formal and informal education, vocational training and literacy classes. It will also provide support for assisted voluntary return and reintegration.
IOM Stra	ategy: 5	Budgeted resources: 14 100 000
1.4.32	Promoting Community and Policy Environments Conducive to Women and Girls' Empowerment in Kyrgyzstan	To promote community and policy environments conducive to women and girls' empowerment and their active engagement in peacebuilding and inclusive community development in communities affected by migration and prone to conflict in Kyrgyzstan. This project will also enhance their access to socioeconomic opportunities.
IOM Stra	ategy: 5	Budgeted resources: 210 100
1.4.33	Disaster Management in the Marshall Islands	To contribute to the overall enhancement of capacity at the community and government level in the Marshall Islands to increase resilience to hazard events and disasters through equipping communities with the necessary resources and skills and prioritizing an inclusive approach with traditionally underrepresented populations.
IOM Stra	ategy: 9	Budgeted resources: 1 286 600
1.4.34	Building Community Resilience to Reduce the Threat of Violence in Myanmar	To improve community resilience and stabilize the living conditions and livelihood opportunities of vulnerable and at-risk migrant- sending communities, including ethnic Rakhine and Rohingya and ethnic minority communities; and to contribute to conflict mitigation and the prevention of unsafe or irregular migration from communities in Rakhine state, by increasing the resilience of vulnerable communities in Myanmar. This initiative will involve participatory approaches that empower communities to enhance community cohesion and resilience through community collaboration efforts and the construction or rehabilitation of social infrastructure, including a new migrant resource centre.
IOM Stra	ategy: 5, 9	Budgeted resources: 2 170 400
1.4.35	Disaster Risk Reduction in Nepal	To support the disaster risk reduction efforts of the Government of Nepal and the establishment of a National Disaster Risk Reduction and Management Authority. This project also will work closely with national actors to upgrade their capacity for disaster risk management and contextualize global training and implementation models to local contexts for safer, resilient and more sustainable communities by ensuring risk reduction measures and the elimination of pre-existing vulnerabilities to future hazards and natural disasters.
IOM Stra	ategy: 9	Budgeted resources: 999 800
1.4.36	Monitoring and Oversight of Infrastructure in Pakistan	To improve the quality and progress of the implementation of infrastructure and agricultural projects in the interest of promoting positive migration dynamics, building resilience and the attainment of the Sustainable Development Goals. This project will conduct site surveys for proposed infrastructure/agricultural projects and locations to verify the designs/plans submitted by implementing partners, while being mindful of the principle of national ownership.
IOM Stra	ategy: 10, 11	Budgeted resources: 6 827 800
1.4.37	Disaster Risk Reduction Initiative in Palau	To contribute to the preparedness efforts of the Government of Palau and build capacity to respond to hazard events by strengthening evacuation process, training community leaders on shelter management, testing pre-disaster government response structures and pre-positioning relief items.

Provinces in the Philippines radicalization and strengthen referral and assistance mechanisms for fragile community members prone to recruitment by violent extremist groups in Basilan, Sulu and Tawi-Basilan, Sulu and Sulu		Programme/Project	Objectives

II. MIGRATION HEALTH

	Programme/Project	Staff and office costs	Programme costs	Overhead	Total costs
11.1	Migration Health Assessments and Travel Health Assistance	41 761 400	18 359 900	4 266 600	64 387 900
II.2	Health Promotion and Assistance for Migrants	2 527 700	2 240 000	290 900	5 058 600
II.3	Migration Health Assistance for Crisis-affected Populations	4 826 900	13 873 800	964 300	19 665 000
	Total	49 116 000	34 473 700	5 521 800	89 111 500

Note: Health issues affect all migrants and cut across all areas of IOM's work. This section reflects only purely migration health programmes and projects. Migrant health activities which are integrated into other IOM services appear under the relevant parts of this document.

293. The total budget for Migration Health is approximately USD 89.1 million. The projects are listed by programme area, indicating the objective(s) of each project and their link(s) to the activities outlined in the IOM Strategy on page 18.

294. Guided by the Seventieth World Health Assembly resolution on promoting the health of refugees and migrants, adopted in May 2017 (WHA70.15), and the related framework (2018) and global action plan (2019), the migration health-related Sustainable Development Goals, the health-related commitments and actions of the Global Compact for Safe, Orderly and Regular Migration and, more recently, the political declaration of the high-level meeting on universal health coverage, the Migration Health Division bridges the needs of both Member States and migrants in addressing the health needs and well-being of migrants, mobile populations and host communities. The Division has been involved in the development of policy and best practices in the area of migration health, along with advocacy for migrant-inclusive health policies and programmes at national, regional and global level and the provision of thematic advice and research to support the development of multisectoral, evidence-based migration health policies. Migration health programmes seek to strengthen health systems through evidence-based policy advocacy, effective service delivery, research, information-sharing, multisectoral coordination and partnerships at national, regional and global levels. These programmes are implemented in partnership with governments, United Nations agencies, other international agencies, academia, NGOs and civil society organizations. In 2019, migration health projects were operational in about 112 countries and with a total expenditure of USD 242 million. As health is a cross-cutting issue, the Migration Health Division aims to ensure that the physical and mental health and psychosocial concerns of migrants and their families are appropriately addressed and integrated in the projects and programmes implemented by other divisions and departments in line with IOM's strategic priorities and public health and human rights principles, while building migrants' health resilience to contribute to the socioeconomic development of their home and host communities.

295. The following programme areas are used to classify Migration Health programmes/projects and activities.

296. Migration Health Assessments and Travel Health Assistance: At the request of migrant- and refugee-receiving States, health assessment services are provided to persons before their departure to destination countries. The main objectives of this global programme are to improve the health of migrants through early detection and management of health conditions and provision of preventive interventions. reduce and better manage the public health impact of population mobility on receiving countries, facilitate the integration of migrants, and ensure continuity of care through timely provision of medical information to health-care providers in the receiving countries. In addition to offering large-scale pre-departure treatment for high-prevalence conditions like malaria and intestinal parasitism, IOM also provides diagnostic and treatment services to migrants with tuberculosis and certain sexually transmitted infections. Migrants are immunized against vaccine-preventable diseases and offered confidential preand post-test counselling. Migrants travelling under the Organization's auspices are assessed for fitness for travel before departure and medical escorts are arranged for migrants who need assistance and care en route. In destination countries, other activities link migrants diagnosed with certain conditions of public health importance to national health programmes. Other related activities include the provision of DNA sampling services for migrants, primarily in the context of family reunification.

297. Health Promotion and Assistance for Migrants: IOM provides and facilitates access to highquality health services for migrants – including migrant workers, irregular migrants in vulnerable situations such as victims of trafficking – refugees, mobile and cross-border populations and host communities. Technical support is given to governments to develop and strengthen migration-sensitive policies and services. IOM works closely with partner organizations, including other United Nations agencies, national technical agencies such as the US Centers for Disease Control and Prevention, academic partners, international health NGOs, multilateral health funding mechanisms such as the Global Fund to Fight AIDS, Tuberculosis and Malaria and the Gavi Alliance, civil society and migrant communities. Joint efforts are developed in the areas of health promotion, control and management of infectious diseases of public health concern such as tuberculosis, HIV/AIDS, Ebola virus disease and malaria, and non-communicable diseases, sexual and reproductive health, health system-building and mental health and psychosocial support.

By providing this support, IOM aims to make national health systems migrant-sensitive and 298. responsive to the health needs of migrants and migrant-hosting communities. IOM undertakes a substantial amount of primary and secondary research on migration health and makes these data available to promote migrant health policies. In addition, IOM works closely with WHO and other key stakeholders to support Member States in facilitating the implementation and monitoring of the WHO Global Code of Practice on the International Recruitment of Health Personnel, adopted by the Sixty-third World Health Assembly in May 2010 (WHA63.16), the 2014 resolution on global strategy and targets for tuberculosis prevention, care and control after 2015 (WHA67.1) and the 2015 resolution on global technical strategy and targets for malaria 2016-2030 (WHA68.2), the International Health Regulations (2005), among others. The Migration Health Division works closely with other divisions within IOM to ensure that this programme area is adequately addressed and integrated; for example, by ensuring that health and psychosocial aspects are included in pre-departure training for labour migrants, providing psychosocial services for victims of trafficking, or conducting health training for border officials to build their capacity to meet the health needs of migrants. In this area, IOM maintains close engagements with key public health technical partners through working groups and other platforms and with key global health funding mechanisms - such as the Global Fund - that increasingly prioritize support for migrants and mobile populations. Programmatic and technical evidence is generated through research projects and programme evaluations for internal and external audiences.

299. Migration Health Assistance for Crisis-affected Populations: IOM is a key player in responses to humanitarian and public health emergencies and in efforts to support health system recovery, resilience and strengthening. In this regard, IOM works in close collaboration with actors in areas such as, sanitation and hygiene and the prevention of gender-based violence, which enables IOM to undertake a multisectoral approach to addressing the health needs of populations in situations of vulnerability. IOM's emergency health programming consists of two sectors that operate as distinct yet interlinked programmes, namely health support and mental health and psychosocial support, which form 2 of the 15 sectors of assistance of the Migration Crisis Operational Framework. IOM's emergency health programming includes both short- and medium-term solutions to reduce avoidable morbidity, mortality and disability alongside programming that also aims to contribute to efforts to rebuild a country's healthcare capacity and strengthen existing public health systems. IOM therefore plays a key role in supporting governments and communities to build health systems and migration management systems that are responsive to migrants and mobile populations and are equipped to address public health concerns along the mobility continuum. Through this, IOM contributes to attainment of the global health security agenda and universal health coverage.

300. IOM's wide-ranging health response interventions include, but are not limited to, the provision of primary health-care services in the domain of general clinical and trauma care, child health, nutrition, management of communicable and non-communicable diseases, sexual and reproductive health and antenatal care, gender-based violence, immunizations, outbreak preparedness, detection and response, risk communication and community engagement, and mental health and psychosocial support, together with referrals for specialized care. Emergency health programming also includes the repair and rehabilitation of damaged health-care facilities, provision of essential medicine, capacity-building and referral mechanisms or international medical evacuations. In addition, the Migration Health Division has continued to expand its work on sexual and reproductive health and gender-based violence, in line with the Organization's commitments to the Call to Action on Protection from Gender-Based Violence in Emergencies. There has also been considerable expansion of the Division's use of the Displacement Tracking Matrix, namely through work at points of entry, and population mobility mapping. IOM also plays an active role within the Global Health Cluster, the IASC Reference Group on Mental Health and Psychosocial Support in Emergency Settings and the Global Outbreak Alert and Response Network at the global level and within United Nations country teams. The Organization's emergency health programming is guided by its Framework on Health, Border and Mobility Management. The Framework (newly revised

in 2020) defines IOM's strategic role and expected outcomes in the prevention, detection and response to communicable diseases in the context of widespread human mobility. It also provides core activities and serves as a reference for Member States and partners to understand IOM's role and contributions in this area of work.

301. Building on lessons learned from IOM's response to the 2014 outbreak of Ebola virus disease in West Africa, IOM was a key first responder in the two Ebola outbreaks declared in 2018 in the Democratic Republic of the Congo and, in collaboration with ministries of health, the World Health Organization and other partners at national and regional level, played a key role in supporting cross-border preparedness and response, in line with the International Health Regulations (2005). In total, IOM supported 109 points of entry/points of control, screening over 170 million people at borders and checkpoints in the Democratic Republic of the Congo and surrounding priority neighbouring countries. In addition, 16 national and regional population mobility mapping exercises were conducted and risk communication and community engagement efforts reached approximately 5 million people. This contributed to the successful declaration of the end of the outbreak in July 2020. Considerable lessons learned from the IOM response to Ebola virus disease have since been quickly utilized and applied in the light of the COVID-19 pandemic and a further outbreak of Ebola virus disease, which was declared in May 2020. This has contributed towards increasing recognition both of points of entry as a critical juncture for outbreak preparedness, detection and response and of the role of IOM in that area.

302. IOM also has a model of mental health and psychosocial support for communities affected by complex emergencies which includes health, protection and community reactivation components that adopt a multidisciplinary and holistic approach. IOM's emergency psychosocial assistance and programmes for migrants and displaced populations in educational, cultural, community, religious and primary health-care settings continue to expand in countries affected by natural disasters or conflicts. In post-crisis or early recovery settings, psychosocial support interventions also include setting up recreational and counselling centres for families, executive/professional masters programmes, conflict management and community stabilization training. This model, which is in line with the relevant IASC guidelines and IOM guidance notes, encompasses activities on all levels of the intervention pyramid, focusing on capacity-building for national professionals.

303. **Health Services for United Nations Personnel:** On 13 July 2020, IOM entered into an agreement with the United Nations Department for Operational Support to provide health services to eligible United Nations personnel, dependents, and other persons in need of care referred by the United Nations. Through this project IOM will be providing health services related to COVID-19, thereby saving lives, supporting staff and making it possible for the United Nations to continue to operate.

304. The main objectives of this project are to contribute to the operational continuity of humanitarian work in the context of the COVID-19 pandemic, support the UN's duty of care for their personnel and to ensure the safety and health of the UN workforce and their families through provision of COVID-19-related and other health-care services. IOM has offered access to their network of health centres and laboratories to the United Nations and other humanitarian actors as a way of enhancing the capacity of the existing United Nations clinics and enabling United Nations personnel to receive treatment at IOM health centres in duty station locations where there are no United Nations facilities available. Activities encompass a range of clinical care services, including monitoring and treatment of COVID-19 patients through tele-medicine (either within countries or internationally) and out-patient visits, primary care for non-COVID-19 conditions, establishment and management of isolation and holding facilities, laboratory testing for COVID-19, and referrals to a higher level of care, including hospitalization and medical evacuation. Coined the first line of defence model, with direct provision of clinical care and treatment of patients, this is a separate service model from the traditional IOM model of providing testing and assessment services to refugees and migrants.

II.1 MIGRATION HEALTH ASSESSMENTS AND TRAVEL HEALTH ASSISTANCE

Programme/Project		Objectives		
II.1	Migration Health Assessments and Travel Health Assistance	To improve the health of migrants by detecting health conditions and managing them cost-effectively, reduce and manage the public health impact of population mobility on receiving countries and facilitate integration and continuity of care. ION provides pre-departure testing and treatment for some infectious diseases and immunizations against certain vaccine-preventable diseases at the request of resettlement countries. IOM also provides travel health assistance for refugees, including		
		medical escorts for beneficiaries requiring assistance during travel. Other related activities include the provision of DNA sampling services for migrants, primarily in the context of family reunification.		
IOM Strategy: 1		Budgeted resources: 64 387 900		
Migrat	ion Health Assessments and Travel Health	Assistance Total Budgeted resources: 64 387 900		

II.2 HEALTH PROMOTION AND ASSISTANCE FOR MIGRANTS

Programme/Project		Objectives
II.2.1	Supporting Protection and Health Systems	To strengthen the national occupational health capacity in country and contribute to improved health outcomes in Mozambican migrant workers through enhancing the knowledge and capacity of health providers on occupational illnesses, increasing access to quality occupational health screening and testing services, providing clear national and cross-border referral pathways and providing community patient and household follow-up in Mozambique and South Africa.
IOM St	rategy: 2	Budgeted resources: 403 900
II.2.2 Regional Initiatives on Fostering the Health and Protection of Migrants in Situations of Vulnerability in North Africa		To continue to support national and local actors in Egypt, Libya, Morocco, the Sudan, Tunisia and Yemen in jointly managing migration flows with a focus on improving health and protection services to migrants in situations of vulnerability. This project will support national policies and strategies to ensure that the health rights of migrants and their communities are respected, in line with international, regional and national commitments, and to enhance capacity to develop and implement public health and social protection policies.
IOM St	rategy: 1, 2, 3, 6, 7, 8, 9	Budgeted resources: 1 259 100
11.2.3	Supporting High-quality Health Services in Burundi	To contribute to strengthening the resilience of the Burundian population by increasing universal access to high-quality health services, including sexual and reproductive health care, and to address the specific health needs of populations in crisis situations.
IOM St	rategy: 1, 6	Budgeted resources: 521 700
11.2.4	Promoting Health-care Access for Migrants in Egypt	To enhance psychosocial well-being for migrants in situations of vulnerability through increased access to essential and quality migrant-friendly health care, focusing on awareness-raising sessions about risky behaviour and the provision of medical screenings and treatments in Egypt.
IOM St	rategy: 2, 6, 11	Budgeted resources: 211 200
II.2.5	Improving Protection and Assistance for Migrants in Morocco	To strengthen the role and capacity of local civil society organizations to provide protection and assistance services to victims of trafficking and other migrants in situations of vulnerability in Morocco, including unaccompanied and separated children, female migrants, single mothers, and survivors of sexual and gender-based violence.
IOM St	rategy: 2	Budgeted resources: 49 500

	Programme/Project	Objectives
II.2.6	Ensuring Sexual and Reproductive Health Rights in Colombia and Ecuador	To contribute to strengthening sexual and reproductive health care and rights for migrants from the Bolivarian Republic of Venezuela and host communities in Colombia and Ecuador. This intervention will focus on empowering women and girls from communities and institutions to promote their health rights; increasing access to comprehensive gender-responsive sexual and reproductive health services; and improving access to health-care assistance and referrals.
IOM Strategy: 2, 4, 11		Budgeted resources: 93 800
11.2.7	Hosting the Global Fund Technical Secretariat in Colombia	To contribute to the sustainability of the grants financed by the Global Fund to Fight AIDS, Tuberculosis and Malaria in Colombia by hosting the technical secretariat of the Country Coordinating Mechanism and strengthening strategic monitoring, supervision and management.
IOM Stra	ategy: 3	Budgeted resources: 134 400
II.2.8	Strategy for the Prevention of Malaria Re-establishment in Paraguay	To contribute to strengthening capacity to prevent the re-establishment of malaria in Paraguay through the detection, diagnosis, treatment and investigation of cases. This project will also reduce the vulnerability and receptivity of areas to malaria.
IOM Stra	ategy: 3	Budgeted resources: 135 600
11.2.9	Strengthening Cross-border Tuberculosis Control in Cambodia and Viet Nam	To promote migrants' access to tuberculosis diagnosis and treatment in line with regional and global commitments by identifying barriers that migrants face in that regard and their enabling factors. This project will also assess the challenges in tuberculosis control, focusing on the interaction and collaboration between the governmental and non-governmental agencies working in that area on the Cambodia–Viet Nam border.
IOM Stra	ategy: 3	Budgeted resources: 65 800
II.2.10	Strengthening Facilities to Support Tuberculosis Patients in Cambodia	To ensure that all detected tuberculosis cases will be referred to the existing local government tuberculosis services by establishing a strong referral mechanism and robust monitoring system to track all cases and treatment outcomes. This project will also provide guidance to contribute to the formulation of policies on future active case detection.
IOM Stra	ategy: 3	Budgeted resources: 178 000
II.2.11	Building Healthy Cities in Indonesia	To contribute to better health-care delivery for city residents by embedding health equity into city policies, planning and services while improving data flow in Makassar, Indonesia.
IOM Stra	ategy: 3	Budgeted resources: 101 400
II.2.12	Strengthening Screening for Tuberculosis in Nepal	To support early and improved tuberculosis case detection in Nepal by improving the capacity of private health assessment centres and establishing links with the national tuberculosis programme. This project will enhance access to rapid tuberculosis diagnostics and will engage and empower women in decision-making for screening and testing for tuberculosis.
IOM Stra	ategy: 1	Budgeted resources: 182 500
11.2.13	Systematic Screening for Tuberculosis in Timor-Leste	This project aims to contribute to reducing the tuberculosis epidemic in line with the national strategy to end tuberculosis, by increasing access to diagnostics for hard-to-reach populations through systematic screening using a mobile tuberculosis clinic. The project also works to increase community awareness regarding tuberculosis, particularly among for women, by emphasizing gender equality in capacity-building activities for health personnel to minimize the gender gap in case detection and underscore the importance of increasing diagnoses for women.

Programme/Project		Objectives
11.2.14	Capacity-building for Health Professionals and Law Enforcement Officers in European Union Countries	To support European Union Member States in reducing knowledge gaps among various categories of health professionals, law enforcement officers, social workers and health trainers and other professionals in respect of health-related border policies and health challenges faced by migrant populations.
IOM Stra	ategy: 2, 3, 8, 11	Budgeted resources: 605 900
II.2.15	Upgrading the Electronic Personal Health Record in Europe	To enhance the national, regional, and global migration health evidence base while ensuring access and continuity of care for documented and undocumented migrants at cross-border, national and local level through the IOM electronic personal health record.
IOM Stra	ategy: 1, 2, 3, 5, 6, 8	Budgeted resources: 218 100
II.2.16 Provision of Social and Psychological Support to Asylum Seekers in Bulgaria		To provide social and psychological support to asylum seekers, such as linguistic and cultural mediation, and to implement support measures to improve the identification of asylum seekers, including unaccompanied and separated children, in Bulgaria.
IOM Stra	ategy: 1	Budgeted resources: 197 700
Health Promotion and Assistance for Migrants Total Budgeted resources: 5		

II.3 MIGRATION HEALTH ASSISTANCE FOR CRISIS-AFFECTED POPULATIONS

Programme/Project		Objectives	
Respo	gthening IOM Capacity to and to Humanitarian and Health Emergencies	To strengthen IOM capacity globally to respond to humanitarian and public health emergencies, with a particular focus on improving staff surge capacity and logistical and coordination mechanisms for community-based mental health and psychosocial support practices and processes, with a particular focus on displaced populations.	
IOM Strategy: 1	, 3, 6, 9	Budgeted resources: 2 050 000	
	ectoral Humanitarian Assistance vent and Respond to COVID-19	To contribute to reducing the spread of COVID-19, mitigating the humanitarian and health impact of the outbreak and ensuring that preventive and adequate preventative measures practices are implemented in camp and camp-like settings and prioritized points of entry in Burundi, Libya, Nigeria and Somalia.	
IOM Strategy: 1	, 2, 3	Budgeted resources: 39 800	
II.3.3 Health in Guin	n Preparedness and Response nea	To improve the capacity of the law enforcement agency to contribute to large public health responses and to strengthen collaboration and communication with the health sector to ensure a sustainable, multisectoral public health emergency response capacity.	
IOM Strategy: 1	, 2, 3	Budgeted resources: 1 205 700	
II.3.4 Increasing Access to Health-care Services in Nigeria		To prevent and respond to trafficking in persons and population displacement and address mental health and psychosocial concerns in Nigeria through capacity-building at the local level, the promotion of resilience among the most vulnerable of crisis- affected populations and the restoration of collective structures and systems essential for the resumption of daily life and transitioning out of a crisis situation. This project will also support improved mental health and psychosocial well-being among crisis- affected populations through direct service provision.	
IOM Strategy: 9		Budgeted resources: 356 000	
Buildir	orting Mental Health Services and ng the Capacity of the National n Workforce in Somalia	To improve mental health and psychosocial support services for conflict-affected youth in Somalia, through a socially inclusive, integrated approach to peacebuilding. This initiative will also build the capacity of the national health workforce to deliver integrated health and nutrition services.	
IOM Strategy: 2	, 3, 9	Budgeted resources: 194 000	

	Programme/Project	Objectives
II.3.6	Emergency Health-care Support and Services for Crisis-affected Families in South Sudan	To provide community-based mental health and psychosocial support to host communities and hard-to-reach areas through mobile psychosocial teams. Another objective of this project is to map the outpatient treatment centres and mobile and outreach sites in South Sudan and coordinate with service providers so that children are fully vaccinated. This initiative also provides a basic package of health and nutrition services for returnees, host communities and IDPs and provides training and capacity-building to health personnel from the Ministry of Health, national NGOs and private sector entities.
IOM Stra	ategy: 4, 5, 9	Budgeted resources: 669 400
II.3.7	Emergency Ebola Preparedness in the United Republic of Tanzania	To contribute to the efforts of the Government of the United Republic of Tanzania to prepare a framework on health, border and mobility management to increase local preparedness in the Kigoma region to prevent outbreaks of Ebola virus disease in the areas bordering Burundi and the Democratic Republic of the Congo.
IOM Stra	ategy: 2, 9	Budgeted resources: 38 600
II.3.8	COVID -19 Preparedness and Response in Zimbabwe	To strengthen the capacity of national border agencies on COVID-19 pandemic preparedness and response along the mobility continuum in Zimbabwe. This project will also monitor and advocate the rights of vulnerable and at-risk populations and mobilize resources in the fight against COVID-19.
IOM Stra	ategy: 9	Budgeted resources: 166 500
II.3.9	Emergency Health Response to the Crisis in the Middle East	To deliver a continuum of care in challenging operating environments through the provision of essential HIV, tuberculosis and malaria services. The interventions are intended to address the needs of the general population, with a particular focus on groups in situations of vulnerability, including refugees, migrants, IDPs and people in hard-to-reach areas in Iraq, the Syrian Arab Republic and Yemen, and Syrian refugees, migrants and vulnerable populations in Jordan and Lebanon.
IOM Stra	ategy: 9	Budgeted resources: 11 717 300
II.3.10	Supporting Health and Protection Services in Iraq	To support internally displaced persons, returnees and host communities in Ninewá governorate in terms of health-care service delivery and the provision of mental health and psychosocial support services in Iraq.
IOM Stra	ategy: 9	Budgeted resources: 16 700
11.3.11	Life-saving Emergency Assistance for Migrants, IDPs and Other Conflict- affected Populations in Yemen	To enhance access to direct life-saving assistance, protection and essential primary health services for migrants in situations of vulnerability and communities, including IDPs and conflict-affected host communities in Yemen. This initiative will contribute to reducing avoidable morbidity and mortality through the provision of primary and secondary health care. Moreover, this project will support hospital managers and health professionals to improve maternal and child health care by carrying out an in-depth assessment.
IOM Stra	ategy: 9	Budgeted resources: 198 800
II.3.12		To contribute to COVID-19 preparedness and response activities in the Marshall Islands, the Federated States of Micronesia, and Palau through planning and coordination, risk communication and community engagement, infection prevention and control, and protection activities.
	ategy: 3, 9	Budgeted resources: 319 400

ilitating and Enhancing Health vices for Rohingya Refugees in ngladesh	To enhance protection and access to comprehensive essential health-care services for Rohingya and host communities in
	Bangladesh. This project will also provide psychosocial assistance, primary health care and reproductive health support for migrants in situations of vulnerability and address the need to strengthen capacity to adequately detect and respond to mental health challenges. It will also strengthen the community-based and development approach of the mental health and psychological support response.
: 9	Budgeted resources: 1 208 300
nancing Multisectoral Responses to /ID-19 in Indonesia	To enhance the overall response of government and non- government actors in Indonesia, including civil society groups, to curb the spread of COVID-19 and address the public health and socioeconomic impact of the pandemic through a multisectoral approach at the national and subnational levels.
: 9	Budgeted resources: 87 300
engthening Health Dispensaries in Federated States of Micronesia	To contribute to the efforts of Government of the Federated States of Micronesia to build capacity to prevent, detect and respond to the COVID-19 pandemic through the decentralization of health services, while ensuring protection measures are mainstreamed into preparedness activities.
: 9	Budgeted resources: 150 000
moting Access to Integrated Health vices in Myanmar	To enhance the protection and promotion of sexual and reproductive health and rights of women and young people and to deliver integrated primary health-care services in IDP camps in Myanmar. Another objective of this project is to improve mental health and psychosocial support services and to enhance community resilience and social cohesion. This project also provides critical emergency assistance to prevent and respond to key protection risks, including gender-based violence, trafficking, and exploitation and abuse of the most vulnerable, with a focus on women, young people and mobile populations.
r. 1, 3, 9	Budgeted resources: 159 700
bacity-building to Strengthen Health- e Services in Remote Islands in the lippines	To support the development of the electricity sector of the Bangsamoro Autonomous Region in the Philippines through renewable energy solutions for the provision of essential services in rural communities, specifically focusing on health facilities. This project will also adopt the "prepare, prevent, protect" approach to mitigate the destabilizing socioeconomic impacts of COVID-19 on the most vulnerable and conflict-prone communities in Mindanao.
r: 3, 9	Budgeted resources: 771 000
manitarian Health Assistance for ningya Refugees and At-risk Groups 'hailand	To continue to deliver humanitarian assistance to Rohingya refugees and at-risk groups in Thailand specifically aimed at improving the physical and psychosocial well-being of refugees and at-risk groups by enhancing the provision of continuous health assistance. This project will contribute to the protection of project beneficiaries through the provision food, non-food items and water, sanitation and hygiene support.
:1	Budgeted resources: 316 500
nanit ningy: haila	arian Health Assistance for a Refugees and At-risk Groups

	Programme/Project	Staff and office costs	Programme costs	Overhead	Total costs
III.1	Policy Coherence and Community Development	5 052 100	13 729 000	1 136 900	19 918 000
III.2	Migration, Environment and Climate Change	450 200	1 023 700	103 200	1 577 100

	Total	6 413 400	16 877 900	1 450 000	24 741 300

III. MIGRATION AND SUSTAINABLE DEVELOPMENT

305. The total budget for Migration and Sustainable Development is approximately USD 24.7 million. The projects are listed by programme area, indicating the objective(s) of each project and their link(s) to the activities outlined in the IOM Strategy on page 18.

306. As highlighted in the IOM Institutional Strategy for Migration and Sustainable Development, the Organization's work on in this area cuts across all thematic areas and projects. The projects specifically focusing on policy coherence and community development, international cooperation and development and local level development are registered under the category of Migration and Sustainable Development due to their particular focus on accelerating a broader range of goals related to sustainable development.

307. Migration and development continues to be a matter of crucial concern to the international community. Capitalizing on the positive relationship between migration and human development has long been a strategic focus of IOM's work on migration governance. With IOM's entry into the United Nations system, IOM's role as coordinator of the United Nations Network on Migration for the implementation and follow-up of the Global Compact for Safe, Orderly and Regular Migration and the United Nations development system reform, the Organization now has a clear responsibility to articulate its activities and mandate in relation to the 2030 Agenda for Sustainable Development, to report on its activities to Member States in achieving the commitments therein, and to contribute to the global discussions on migration and sustainable development. The adoption of the Global Compact presented a significant opportunity to leverage the positive relationship between migration and development, given that the Compact is anchored in the 2030 Agenda and serves as a road map to help achieve the migration dimensions of the Sustainable Development Goals.

308. The IOM Institutional Strategy on Migration and Sustainable Development guides this work by ensuring that IOM's programming and policy interventions draw on the 2030 Agenda and leverage the positive linkages between migration and development with the understanding that migration can be a powerful driver of sustainable development for migrants themselves, for members of their families and for the communities in countries of origin, transit and destination.

309. While institutional efforts are ongoing to ensure all of IOM's work is geared towards contributing to the 2030 Agenda, the following programme areas are used to classify specific Migration and Sustainable Development programmes, projects and activities.

310. **Policy Coherence and Community Development**: To achieve policy coherence in migration and development, this type of programming supports the mainstreaming of migration into national and local policy planning and implementation to ensure that the effects of migration and the needs of migrants are considered across all governance areas, such as development, health, education and financial inclusion. This necessitates a whole-of-government approach which implies coordination across all sectors and levels of government for the refinement of existing policies or development of new policies that are aligned with and respond to the effects of migration and the needs of migrants.

311. A separate area of work includes mainstreaming migration into bilateral and multilateral development cooperation programmes, plans and processes. To achieve this, IOM: (a) supports capacitybuilding for all relevant actors including donors and other development partners to enhance their understanding of and abilities to support development cooperation and govern migration for the benefit of all through training, knowledge-sharing and exchanges between countries; (b) assists governments with the establishment and consolidation of coordination mechanisms across governance sectors and between national and local authorities; (c) provides technical and financial assistance for the implementation of refined or new policies or programmes that integrate migration considerations.

312. At local level, IOM supports subnational actors in creating environments that support migrationrelated socioeconomic development and social cohesion in their communities and, hence, provide for development that benefits all of society. IOM achieves this by assisting Member States to enhance the capacities of community leaders and subnational authorities to strengthen the local dimension of migration governance; to address drivers of human mobility, making it an informed and well-planned process, as well as reduce economic, social and environmental challenges that migrants face, with a view to promoting more inclusive human development. This includes providing training tools and training sessions; setting up community-based protection mechanisms that are inclusive of migrants; and contributing to vertical policy coherence by supporting local-national coordination whereby local and regional authorities can feed their expertise and knowledge into national policymaking for more responsive and pertinent policies that can be successfully implemented at local level. IOM also supports the facilitation of migrant and diaspora participation in community development. This can take the form of technical assistance to support diaspora and migrant communities to associate and organize collectively, bargain and advocate for their rights and helping governments establish platforms for consultation and community participation. IOM also promotes a whole-of-society approach, ensuring that any services delivered through projects consider and include the entire community, ensuring that cohesion efforts benefit everyone.

313. **Migration, Environment and Climate Change:** IOM's work in this area is determined by the rationale that human mobility approaches can contribute to better policies addressing climate change and environmental degradation, and that migration policies cannot ignore environmental and climatic factors. IOM is committed to continue addressing the migration, environment and climate change nexus through policy dialogue, capacity-building and operational activities.

314. IOM activities in this area include support for strengthening the evidence base, promoting policy development and dialogue establishing, and programmes to address human mobility in the context of environmental change, land degradation, natural disasters and climate change. These activities focus on mobility in relation to environmental degradation, the impact of climate change on livelihoods, and the impact of migration on the environment. Activities are related to slow-onset events (climatic and non-climatic), such as sea-level rise, increasing temperatures, ocean acidification, glacial retreat, coastal and marine ecosystem degradation, land salinization, land and forest degradation, loss of biodiversity and desertification, as well as to climate extremes (extreme weather events or climate events), such as change in tropical storm and cyclone frequency and intensity, changes in rainfall regimes, changes in atmospheric chemistry and melting of mountain glaciers.

315. Another main area of activity is capacity-building, which focuses on developing the capacity of governments and other stakeholders in countries of origin and destination to address migration in relation to environmental and climate change. The activities in this area aim to train and facilitate dialogue for policymakers and practitioners across ministerial departments with a focus on migration in relation to environmental and climate change. These activities increase policymakers' and practitioners' understanding of the links between migration, climate and the environment and provide them with evidence on how to address human mobility-related matters at the national, regional and international levels, including in the climate change conventions and related negotiations.

316. Contribution of Migrants to Development: This programme area aims to engage, empower and enable migrants and diasporas to contribute to development in their host and home communities. IOM works with Member States to promote the protection of migrants' rights and empower migrants through the provision of the services and support they need to become an integral part of their new society and to contribute to their home communities. One way IOM does this is through initiatives that support the return of skilled and qualified nationals from abroad on virtual, short-term, repeated or longer-term professional assignments, including the establishment of mechanisms for the return of qualified nationals for knowledge transfer and technical assistance within a broader national policy and/or an international community plan for development, rehabilitation and reconstruction. IOM also supports governments in developing policies and mechanisms to enable transnational communities to support socioeconomic development in their countries of origin through the transfer of financial resources and economic contributions towards specific development projects, such as through investment, philanthropy, support to trade and networking. Other initiatives may aim to improve financial services available to migrants, including reducing the costs of remittance transfers, improving financial literacy, and working to ensure that remittance services are available even in the most remote locations. Projects in this programme area focus on maximizing migrants' contributions to development, expanding economic opportunities, and improving social services and community infrastructure in places that are prone to economic emigration or in need of development to absorb returning migrants in a sustainable manner.

	Programme/Project	Objectives
III.1.1	Guidelines on Mainstreaming Migration into International Cooperation and Development Policy	To strengthen the process of integrating migration into the international cooperation and development policy of the European Union, other donors and partners; and to increase awareness and support the efforts of partner countries to integrate migration into their development policy.
IOM Str	rategy: 3, 4	Budgeted resources: 79 400
Development		To harness the development benefits and reduce the negative effects of migration for host and home communities, migrants and members of their families through more coherent and results- oriented policies and implementation mechanisms, greater involvement of local authorities, the private sector and diasporas, and global advocacy.
IOM Str	ategy: 3, 4	Budgeted resources: 1 201 900
III.1.3	Strengthening IOM's Country-level Engagement in United Nations Activities in Southern Africa	To strengthen IOM's country-level engagement in the development of United Nations Sustainable Development Cooperation Frameworks and related processes and solidify IOM's role in the United Nations regional architecture through increasing awareness on migration and implementation of a strategic partnership framework.
IOM Str	ategy: 4	Budgeted resources: 67 800
III.1.4	Enhanced Youth Employment and Reduced Irregular Migration in Guinea	To contribute to the strategy of the Government of Guinea to promote self-employment of young people by involving members of the Guinean diaspora through training, project financing and the creation of youth associations or economic interest groups, in order to deter youth from engaging in irregular migration.
IOM Str	rategy: 4, 5, 7	Budgeted resources: 453 600
111.1.5	Supporting Migration and Development in Morocco	To support the Government of Morocco in its efforts to enhance the resilience of vulnerable communities in Morocco by increasing preparedness and promoting responsive, effective governance, thereby preventing community susceptibility to violent extremism. This project will also support the efforts of regional councils to mainstream migration into their local planning.
IOM Str	rategy: 4	Budgeted resources: 9 334 000
III.1.6	Reducing the Risk of Irregular Migration through Socioeconomic Empowerment in Sierra Leone	To preserve the peace and foster national cohesion through an inclusive approach that promotes the empowerment of and entrepreneurship among youth, particularly young women, to dissuade irregular migration and human trafficking in Sierra Leone. This initiative also supports local employment and job creation through youth-targeted, market-driven training in vocational and business skills, including through partnerships with key private sector actors.
IOM Strategy: 5		Budgeted resources: 1 788 000
III.1.7	Regional Initiative on the Global Compact for Safe, Orderly and Regular Migration in South America	To support Member States in South America in the implementation of the Global Compact for Safe, Orderly and Regular Migration and to leverage these efforts for achievement of the 2030 Agenda for Sustainable Development.
IOM Str	ategy: 3, 7	Budgeted resources: 21 800

III.1 POLICY COHERENCE AND COMMUNITY DEVELOPMENT

	Programme/Project	Objectives
III.1.8	Administrative and Technical Assistance for the Government of Argentina	To provide technical, administrative, supervision and monitoring services to support efforts by the Government of Argentina to develop policies that contribute to socioeconomic development by generating employment opportunities and promoting investment as part of ongoing efforts to manage migration. IOM has limited responsibility in project implementation; consequently, no overhead is applicable to the portion of funding from the Government of Argentina to cover activities under special management.
IOM Stra	ategy: 3, 4	Budgeted resources: 1 190 000
III.1.9	Fostering Solidarity among Local Communities in Ecuador for Migrants and Refugees from the Bolivarian Republic of Venezuela	To support the initiative of Government of Ecuador to strengthen their policies on social and economic integration, working closely with migrants and refugees from the Bolivarian Republic of Venezuela and host communities to promote social cohesion, equal access to services and the guarantee of human rights.
IOM Stra	ategy: 2, 3, 4	Budgeted resources: 820 100
III.1.10	Administrative and Technical Assistance for Migration and Economic Development in Peru	To provide administrative and technical assistance in support of national efforts to stimulate migration and economic development in Peru. IOM has limited responsibility in project implementation; consequently, no overhead is applicable to the portion of funding from the Government of Peru to cover activities under special management.
IOM Stra	ategy: 3	Budgeted resources: 33 100
.1.11	Understanding and Managing Internal Migration in Mongolia	To improve the socioeconomic well-being of internal migrants through a comprehensive approach that encompasses data generation, evidence-based policymaking and interventions on the ground in Mongolia.
IOM Stra	ategy: 2	Budgeted resources: 1 183 300
III.1.12	Increasing the Developmental Impact of Migration in Myanmar	To support to the efforts of Government of Myanmar to improve the governance and outreach capacities of national actors to increase the developmental impact of migration in Myanmar. This project will focus on governance, with the aim of establishing a whole-of- government migration governance framework to institutionalize migration mainstreaming into national and local development agendas.
IOM Stra	ategy: 4, 12	Budgeted resources: 1 210 800
III.1.13	Addressing the Root Causes of Human Insecurity for Vulnerable People of Armenia	To support the efforts of the Government of Armenia to achieve the 2030 Agenda for Sustainable Development by addressing the root causes of human insecurity for people in situations of vulnerability in Armenia.
IOM Stra	ategy: 4, 12	Budgeted resources: 114 900
III.1.14	Rural Development for Internally Displaced Populations in Azerbaijan	To support the development of a national plan and enhance capacity for energy-free and sustainable water supplies for agricultural productivity and consumption purposes. This project also aims to institutionalize capacity-building for engineers who will further develop this initiative.
	ategy: 4	

Programme/Project		Objectives
III.1.15	Engaging the Diaspora for Development in Bosnia and Herzegovina	To contribute to the efforts of Government of Bosnia and Herzegovina to increase socioeconomic opportunities and perspectives and to improve livelihoods through increased diaspora engagement.
IOM Stra	ategy: 3, 12	Budgeted resources: 180 000
III.1.16 Strengthening the Migration and Development Capacity of Italy		To strengthen the links between migration, social inclusion and development by empowering migrants and diasporic actors; promoting the recognition of migration's contributions by raising public awareness; and strengthening Italy's position in the migration and development global arena.
IOM Stra	ategy: 4, 6, 8	Budgeted resources: 391 900
Policy C	oherence and Community Development	Total Budgeted resources: 19 918 000

III.2 MIGRATION, ENVIRONMENT AND CLIMATE CHANGE

	Programme/Project	Objectives
III.2.1	Global Policies on Environmental Migration and Disaster Displacement in West Africa	To contribute to facilitating regular pathways for migration and to minimizing displacement in the context of disasters, environmental degradation and climate change in West Africa. Another objective of the project is to support policy development and policy coherence on environmental migration and disaster displacement in West Africa, in line with global policy priorities.
IOM Str	ategy: 3, 7	Budgeted resources: 653 800
III.2.2	Addressing Human Mobility and Climate Change Adaptation in the Eastern Caribbean	To address the knowledge gap and policy development, this project will work in partnership with the Organisation of Eastern Caribbean States and the governments of its six independent Member States to enhance the governance of human mobility related to environmental change in the Eastern Caribbean through improved evidence and regional cooperation.
IOM Str	ategy: 9	Budgeted resources: 170 800
III.2.3	Protecting and Empowering Communities Adversely Affected by Climate Change in the Pacific Region	To protect and empower communities adversely affected by climate change and disasters in the Pacific region, focusing on climate change and disaster-related migration, displacement and planned relocation through a regional response to climate mobility. This project will empower communities affected by climate change through training and skills development activities to increase access to labour mobility schemes, and pre-departure orientation to support migrants to migrate safely with an understanding of their rights.
IOM Str	ategy: 2, 5, 7	Budgeted resources: 752 500
Migratio	on, Environment and Climate Change	Total Budgeted resources: 1 577 100

Programme/Project	Objectives
III.3.1 Diaspora Engagement in Public and Private Sector Development	To promote the active role of diaspora in public sector strengthening and private sector development in Afghanistan, Iraq, Nigeria and Somalia through a comprehensive diaspora engagement programme that is built on two pillars, namely knowledge and skills transfer and diaspora entrepreneurship.
IOM Strategy: 3, 4	Budgeted resources: 955 000
III.3.2 Engaging the Diaspora for Institutional Development in Somalia	To provide support to consolidate sustainable development processes in Somalia, particularly by improving health and education outcomes, through the active engagement of qualified Somali diaspora and by promoting youth empowerment and gender equality.
IOM Strategy: 8	Budgeted resources: 1 881 800
III.3.3 Migration and Development in Afghanistan	To address the migration and development nexus through the coordination of humanitarian assistance and durable solutions for drought affected IDPs and sustainable economic development through the return of qualified members of the Afghan diaspora from the Islamic Republic of Iran. Moreover, this project will increase knowledge of population flows, returns, displacement and migration through the continued implementation of Displacement Tracking Matrix to ensure better-targeted, evidence-based delivery of assistance to the populations most in need in priority locations.
IOM Strategy: 8	Budgeted resources: 269 300
III.3.4 Action for Private Sector Competitiveness in Georgia	To promote market-oriented and innovative business models for job creation and greater business sophistication by strengthening the capacities of government and local entities in Georgia. This project will also develop and operate clusters, support companies with strategic investments and better connect diaspora groups. Moreover, this initiative will build the capacities of the local authorities and cluster management organizations to mainstream diaspora potential into their strategic vision and planning.
IOM Strategy: 8	Budgeted resources: 140 100
Contribution of Migrants to Development	Total Budgeted resources: 3 246 200

III.3 CONTRIBUTION OF MIGRANTS TO DEVELOPMENT

IV. REGULATING MIGRATION

	Programme/Project	Staff and office costs	Programme costs	Overhead	Total costs
IV.1	Return Assistance for Migrants and Governments	43 356 400	99 371 800	7 470 700	150 198 900
IV.2	Protection and Assistance for Migrants in Situations of Vulnerability and Counter- trafficking	19 327 600	38 246 100	3 014 900	60 588 600
IV.3	Immigration and Border Management/Border and Identity Solutions	17 044 200	49 121 300	3 736 000	69 901 500
IV.4	Migration Management Support	188 200	175 000	9 200	372 400
	Total	79 916 400	186 914 200	14 230 800	281 061 400

317. The total budget for Regulating Migration is approximately USD 281.1 million. The projects are listed by programme area, indicating the objective(s) of each project and their link(s) to the activities outlined in the IOM Strategy on page 18.

318. While in general migration is a positive force in countries of origin and destination, unregulated migration can pose social, financial and political challenges to individuals, societies and governments alike. Comprehensive, transparent and coherent approaches to migration management, involving all countries along the migration continuum, can help address the negative aspects associated with irregular migration, including migrant smuggling and trafficking in human beings, and preserve the integrity of migration as a natural social process. Good governance in migration matters at the national, regional and international levels is increasingly recognized as a key component of orderly and humane population movements.

319. IOM helps governments develop and implement evidence-based migration policy, legislation and institutional mechanisms that enhance migration management, while also providing specialized support to migrants in accordance with their protection needs and with due regard for their gender- and age-specific requirements and human dignity.

320. IOM provides technical assistance to government officials and trains them to assess, improve and upgrade their migration management operational systems, for example in the areas of travel document issuance, data systems development and border management technologies, including data capture and the responsible use of biometrics. It implements programmes to facilitate the assisted voluntary return of unsuccessful asylum seekers, stranded persons and other migrants, and to support their reintegration in their countries of origin, with due regard for the needs of the migrants themselves and the concerns of local communities. IOM takes a rights-based approach to implementing a wide range of activities in support of trafficked persons and other migrants vulnerable to violence, exploitation and abuse, including migrant children. It provides technical assistance to governments, private sector and NGOs, and joint direct protection and assistance to migrants. Several governments turn to IOM to support their efforts to find sustainable solutions for the increasing numbers of separated and unaccompanied children crossing their borders. IOM support includes family tracing, assisted voluntary return and reintegration of children and capacity-building for relevant State authorities in countries of origin, working together with UNICEF and UNHCR. IOM supports the implementation of comprehensive assistance projects addressing the needs of unaccompanied and separate migrant children in border regions.

321. In addition, programmes focus on the prevention of trafficking, exploitation and abuse of migrants, with a renewed emphasis on the importance of addressing the factors that create demand for the goods and services produced and provided by trafficked and exploited migrants.

322. The following programme areas are used to classify Regulating Migration projects and activities.

323. **Return Assistance for Migrants and Governments:** IOM's objective is to provide enhanced support to facilitate the assisted voluntary return and reintegration of migrants in their countries of origin. Assisted voluntary return and reintegration is one of the key migration management services offered by IOM to migrants and governments and includes providing administrative, logistical and financial support

to migrants unable or unwilling to remain in the host country and who volunteer to return to their countries of origin. Assisted voluntary return and reintegration programmes offer a more humane, dignified and cost-effective alternative to forced return and, in many cases, are complemented by reintegration measures. The successful implementation of these programmes requires the cooperation and participation of a broad range of actors, including the migrants, civil society and the governments of origin, host and transit countries.

324. In line with the principles and objectives outlined in IOM's Framework for Assisted Voluntary Return and Reintegration, the main objective of this project type is to provide enhanced support to facilitate the voluntary return and reintegration of migrants to their countries of origin, including unsuccessful asylum seekers, migrants in irregular situations, stranded migrants and other persons wishing to return home but unable to do so by their own means. Assisted voluntary return and reintegration programmes can also benefit migrants in situations of vulnerability, such as victims of trafficking, smuggled migrants with protection needs, unaccompanied and separate migrant children and migrants with health-related needs. A typical programme consists of three main phases: pre-departure assistance, return assistance and post-arrival assistance. This often includes undertaking needs assessments of target groups in the host countries, transit countries and origin countries, and providing return information and counselling to potential returnees, documentation and health assistance, reception-on-arrival services and longer-term reintegration support both for the returnees and their communities in the countries of origin to enhance the sustainability of reintegration.

325. Assisted voluntary return and reintegration programmes are particularly effective when they are part of a multi-pronged approach to migration management tailored to specific migration scenarios. When implemented in conjunction with effective asylum and border management in host countries, they can help preserve the integrity of regular migration systems. Within these programmes, IOM provides technical expertise to governments and relevant actors for improved return migration management, conducts research for this purpose, and facilitates dialogue on return migration between origin, transit and host countries.

326. IOM also offers post-arrival reintegration assistance to migrants who have been returned by host country authorities to their countries of origin. These programmes are implemented in cooperation with governments of both countries of origin and host countries and assist migrants who have officially entered their own countries after the process of return has been concluded.

327. Regarding the provision of reintegration support to returning migrants, IOM advocates for the adoption of an integrated approach to reintegration, targeting the economic, social and psychosocial dimensions at the individual, community and structural levels. Such an integrated approach is based on strong partnerships with other actors who may provide additional and/or specialized support to returnees. It also requires complementarity between migration management and other interventions such as humanitarian assistance, community stabilization and development cooperation. In addition, IOM focuses on fostering a community of practice on reintegration and knowledge management for the provision of thematic expertise, the development and harmonization of procedures and monitoring and evaluation frameworks, and the improvement of existing data collection and management tools.

328. Protection and Assistance for Migrants in Situations of Vulnerability and Counter-trafficking: IOM works with governments, civil society organizations, the private sector, and relevant United Nations agencies in origin, transit and destination countries to ensure the protection of migrants who are vulnerable to or have experienced violence, exploitation and abuse within a migration context, including human trafficking and associated forms of abuse and exploitation. Increasingly, this includes providing assistance and protection to those in large movements of migrants, support for migrant children (particularly separated and unaccompanied migrant children) and support for migrants at increased risk of trafficking and exploitation as a consequence of humanitarian crises. Programming in this area aims to address the factors and circumstances that contribute to migrants' vulnerability, and to assist those in need of protection.

329. In partnership with governments, the United Nations, international and non-governmental organizations, the private sector and development partners, IOM's anti-trafficking responses encompass all aspects of the United Nations Global Plan of Action to Combat Trafficking in Persons, namely prevention, protection, prosecution and partnerships.

330. IOM provides direct assistance to victims of trafficking and associated forms of exploitation and abuse, and to those who are particularly vulnerable to such abuses, such as separated and unaccompanied migrant children. Since the mid-1990s, for instance, IOM has assisted over 100,000 trafficked persons. In 2019, IOM and its partners provided specialized protection to 8,100 victims identified worldwide. Promoting freedom and the chance for a new life, IOM's assistance might include safe accommodation, medical and psychosocial support, and assisted voluntary return and reintegration.

During 2019, 435 people were assisted through the IOM Global Assistance Fund, which provides tailored assistance to victims of trafficking and other migrants vulnerable to violence, exploitation and abuse. The Fund has been operating since 2000, and in that time, it has provided individualized case management services to vulnerable migrants.

331. IOM implements information, education and communication strategies to prevent human trafficking and the exploitation and abuse of migrants and to equip vulnerable populations with the information they need to travel safely and access assistance when necessary. IOM's information campaigns also seek to encourage businesses and consumers to check that the products or services they purchase or use are not the result of migrant exploitation or human trafficking.

332. Technical support activities aim to develop the capacity of governments, private sector entities, and civil society institutions; strengthen policies and procedures to protect migrants' rights and combat human trafficking and migrant exploitation; and upgrade relevant infrastructure. These activities include training NGOs, businesses and government officials, including law enforcement officials, and providing technical support for the development of policies, procedures and programmes to protect and assist trafficked, exploited and abused migrants, as well as migrants considered particularly vulnerable to trafficking, violence, exploitation and abuse. IOM also works to strengthen legal frameworks and policies, and promotes dialogue and cooperation at the local, national, regional and international levels by facilitating national and regional task forces, developing inter-institutional victim identification and assistance mechanisms, promoting regional protection initiatives under regional consultative processes, and participating in international coordination mechanisms, such as the Inter-Agency Coordination Group against Trafficking in Persons and Alliance 8.7.

333. IOM provides advisory services to private sector entities aiming to eliminate exploitation from their operations and supply chains. This includes support to assess, mitigate and prevent risks, as well as actions to redress violence, abuse and exploitation when it has occurred.

334. **Immigration and Border Management/Border and Identity Solutions:** By engaging in active partnerships and providing information, know-how and resources, IOM's immigration and border management projects aim to strengthen the capacity of governments and other relevant actors to address immigration and border management issues in a comprehensive, cooperative and ultimately self-reliant manner.

335. IOM assists States to develop policy and design and implement targeted programmes and projects that focus on strengthening the capacity of governmental services to manage immigration and borders effectively and consistent with international and human rights law, with the aim of enhancing safe, orderly and regular migration and cross-border mobility, while addressing irregular migration. IOM provides concrete support regarding advisory services, training and capacity enhancement. Upon request, the Organization also provides technical support, including by making operational systems available to relevant national authorities to manage borders and verify travel documents in a comprehensive manner.

336. IOM projects in this programme area regularly offer assessment and advisory services, technical assistance, and training activities to strengthen the institutional capacity of national authorities. Projects consistently foster collaborative migration management approaches among the relevant national authorities and between States. Key topics often featured in IOM projects include: improving border management and migration data and analysis systems; improving the integrity of travel documents and related systems for document issuance, use and control; establishing or strengthening national or regional training programmes for immigration officials; programmes on the respect of the human rights of migrants in specific border settings; border management and development/trade; and border security. Other components becoming more prevalent in IOM projects include actions consistent with the Protocol against the Smuggling of Migrants by Land, Sea and Air, and activities regarding registration and regularization, readmission, identity management, border management and gender, community engagement/policing and regional free movement regimes.

337. **Migration Management Support**: While many IOM projects focus on specific thematic areas and challenges within the broad migration management spectrum, IOM increasingly provides support to governments in developing and implementing transparent, coherent and comprehensive approaches to migration management addressing the full range of relevant thematic areas.

338. Key elements included in such IOM projects to date concentrate on the development and delivery of national- and regional-level migration management training programmes aimed at enhancing the capacity of policymakers, practitioners and other stakeholders regarding migration management and governance.

IV.1 RETURN ASSISTANCE FOR MIGRANTS AND GOVERNMENTS

IV.1.1 Assisted Voluntary Return and Reintegration of Migrants and Support for Governments on Voluntary Return Assistance To facilitate the assisted voluntary return and reintegrations and support for Governments on Voluntary Return Assistance IOM Strategy: 1, 2, 3, 6, 10 Budgeted resources: 52 885 800 IOM Strategy: 1, 2, 3, 6, 10 Budgeted resources: 52 885 800 IV.1.2 Assistance on Voluntary Return and Sustainable Community-based Reintegration To contribute to the development of sustainable voluntary return and community-based reliations and distinction to contrise of origin, transit and destination to enhance the sustainable voluntary are turn and community-based reliations and psychosocial relintegration. IV.1.12	Return and Reintegration Assistance for Afghanistan	To facilitate the voluntary return of Afghans to their home country by providing them with reception and tailored reintegration assistance in order to facilitate a smooth transition to a sustainable normal life. This project will also ensure a cohesive, complementary programmatic approach with the objective of promoting the safe, orderly, regular and dignified migration of Afghans on the move.
IOM Stra	itegy: 1, 2, 3, 10	Budgeted resources: 11 337 400
IV.1.13	Return and Reintegration of Irregular Migrants and Unsuccessful Asylum Seekers in Australia	To facilitate the voluntary return and reintegration of irregular migrants and unsuccessful asylum seekers in Australia, to their countries of origin using an integrated approach that includes providing information and counselling to enable irregular migrants to make informed decisions with regard to their immigration status and options.
IOM Strategy: 10		Budgeted resources: 4 481 900
IV.1.14	Return and Reintegration Assistance for Bangladesh	To facilitate the voluntary return of Bangladeshi migrants to their home country by providing them with reception and tailored reintegration assistance in order to facilitate a smooth transition to a sustainable normal life. Furthermore, this project will pay particular attention to building the resilience of communities that are particularly vulnerable to irregular migration by sea.
IOM Stra	itegy: 3, 10	Budgeted resources: 5 504 200
IV.1.15	Assisted Return and Reintegration Assistance for Victims of Trafficking in Japan	To strengthen the existing IOM voluntary return mechanism in Japan through continued facilitation of safe and humane returns for victims of trafficking, as part of efforts by the Government of Japan to improve the protection and sustainable reintegration of the victims of trafficking and migration management. This project will also facilitate the voluntary return and sustainable reintegration of migrants without residential status in Japan to their countries of origin.
IOM Stra	itegy: 1, 10	Budgeted resources: 172 800
IV.1.16	Strengthening Sustainable Return and Reintegration Assistance in Viet Nam	To support the sustainable socioeconomic reintegration of female returnees to Viet Nam from the Republic of Korea through counselling and support.
IOM Stra	ntegy: 1, 10	Budgeted resources: 348 100

	Programme/Project	Objectives
IV.1.17	Facilitating Sustainable Reintegration of Returnees in Belgium	To support returnees from Belgium within the reintegration process to achieve economic stability through ad hoc counselling before they return to their country of origin. This project will also assist unsuccessful asylum seekers currently living in Belgium by facilitating a successful return and sustainable, safe and dignified reintegration into their country of origin.
IOM Stra	ategy: 2, 10	Budgeted resources: 5 583 500
IV.1.18	Support for Voluntary Return and Reintegration of Migrants in Bulgaria	To strengthen the capacity of the Bulgarian migration authorities and facilitate the assisted voluntary return of third-country nationals, including migrants in situations of vulnerability, unsuccessful asylum seekers and persons offered international protection, by providing information, psychosocial assistance, counter-trafficking support, general counselling, and transportation and reintegration assistance in the country of origin.
IOM Stra	ategy: 1, 2, 10	Budgeted resources: 315 700
IV.1.19	Providing Information on the Process of Voluntary Return and Country- specific Information in Germany	To support the German national and local authorities by providing general information to asylum seekers on the process of voluntary return and on their countries of origin, giving them an indication of the services that will be available upon their return.
IOM Stra	ategy: 1, 6, 10	Budgeted resources: 14 020 600
IV.1.20	Assisted Voluntary Return and Reintegration and Information Programme for Migrants in Ireland	To contribute to the Government of Ireland's comprehensive management of migration by providing support to migrants - unsuccessful asylum seekers and identified suspected Victims of Trafficking - willing to return voluntarily to their countries of origin and to contribute to their sustainable reintegration.
IOM Stra	ategy: 1, 10	Budgeted resources: 956 200
IV.1.21	Voluntary Return and Reintegration from Latvia	To support the effective and sustainable voluntary return and reintegration assistance provided to irregular migrants residing or arriving in Latvia and supporting their reintegration in their country of origin.
IOM Strategy: 1, 2, 5, 10		Budgeted resources: 147 000
IV.1.22	Assisted Voluntary Return and Reintegration from Luxembourg	To support the initiative of the Government of Luxemburg to assist unsuccessful asylum seekers and irregular migrants currently living in Luxemburg by facilitating a successful return and sustainable, safe and dignified reintegration into their country of origin. This project will also provide resettlement and reintegration assistance to migrants.
IOM Stra	ategy: 2, 10	Budgeted resources: 466 800
IV.1.23	Assisted Voluntary Return and Reintegration in the Country of Origin from Malta	To support the effective and sustainable voluntary return and reintegration assistance provided to irregular migrants residing or arriving in Malta and supporting their reintegration in their country of origin.
IOM Stra	ategy: 10	Budgeted resources: 87 700
IV.1.24	Assisted Voluntary Return and Reintegration from the Netherlands	To facilitate assisted voluntary return and sustainable reintegration services for irregular migrants in the Netherlands by offering assistance to migrants who wish to return to their country of origin and supporting their reintegration in their country of origin.
IOM Stra	ategy: 1, 2, 3, 4, 10	Budgeted resources: 10 199 100
IV.1.25	Voluntary Return and Reintegration of Migrants from Norway	To facilitate assisted voluntary return and sustainable reintegration services for migrants in Norway by offering assistance to migrants who wish to return to their country of origin and supporting their reintegration in their country of origin.
IOM Stra	ategy: 2, 10	Budgeted resources: 2 322 900

	Programme/Project	Objectives
IV.1.26	Assisted Voluntary Return and Reintegration from Romania	To facilitate the voluntary return and reintegration of migrants residing in Romania by providing them with information, counselling and transportation assistance, and supporting their reintegration in their country of origin
IOM Stra	ategy: 1, 2, 10	Budgeted resources: 230 100
IV.1.27	Assisted Voluntary Return and Reintegration from the Western Balkans	To assist migrants to return home based on informed decisions and comprehensive protection of their fundamental rights and supporting migrants in reintegrating in communities to which they return.
IOM Stra	ategy: 1, 2, 10	Budgeted resources: 1 177 500
IV.1.28	Assisted Voluntary Return and Reintegration from Switzerland	To facilitate the voluntary return and reintegration of migrants residing in Switzerland by providing them with information, counselling and transportation assistance, and supporting their reintegration in their country of origin.
IOM Stra	ategy: 2, 10	Budgeted resources: 813 400
IV.1.29	Assisted Voluntary Return and Reintegration in Turkey	To facilitate assisted voluntary return and sustainable reintegration services for irregular migrants in Turkey by offering assistance, as needed, to migrants who wish to return to their country of origin.
IOM Stra	ategy: 3, 10	Budgeted resources: 1 820 100
Return A	Assistance for Migrants and Government	Total Budgeted resources: 150 198 900

IV.2 PROTECTION AND ASSISTANCE FOR MIGRANTS IN SITUATIONS OF VULNERABILITY AND COUNTER-TRAFFICKING

	Programme/Project	Objectives
IV.2.1	Emergency Direct Assistance for Victims of Trafficking	To provide support for emergency direct assistance, on a case-by- case basis, for individuals identified as victims of trafficking. This project will support risk assessment and the provision of shelter, food, counselling, medical services, psychological support, legal services, travel documentation and safe transport arrangements for return and reintegration.
IOM Str	ategy: 1, 2, 10, 11	Budgeted resources: 1 123 700
IV.2.2	Strengthening Prevention Activities and Improving Responses to Trafficking and Exploitation in Indonesia and Ethiopia	To provide contextual understanding of the ways in which social norms and stigma intersect with trafficking in Indonesia and Ethiopia to strengthen prevention activities and improve responses to trafficking.
IOM Str	ategy: 3, 6, 11	Budgeted resources: 540 100
IV.2.3	Migration Management Initiative in Southern Africa	To facilitate the legal migration and the prevention of irregular migration by improving policy environment for labour migration and managing mixed migration across the region and improved access to legal and efficient means of labour mobility for labour migrants in Southern Africa
IOM Str	ategy: 4, 7	Budgeted resources: 2 144 000
IV.2.4	Improving Trafficking in Persons Referral Outcome in Comoros and Mauritius	To contribute to protecting victims of trafficking through proactive identification and comprehensive care services and preventing Trafficking in Persons in Comoros and Mauritius. The project will focus on durable transfer of knowledge and skills.
IOM Str	ategy: 11	Budgeted resources: 226 400

	Programme/Project	Objectives
IV.2.5	Improving Child Protection in the Central Mediterranean Route	To enhance the knowledge of key stakeholders on child rights and child protection principles and effective application of such principles in the Central Mediterranean Route. This project will contribute to improving the provisions in place for migrants' children, alternative care provision, and mid to long term solutions for migrant children.
IOM Stra	ategy: 2	Budgeted resources: 86 600
IV.2.6	Counter-trafficking Assistance in Algeria	To contribute to the efforts of the Government of Algeria to coordinate anti-trafficking responses, identify and prevent trafficking, prosecute traffickers, and provide protection and assistance to victims of trafficking. This project will focus on improving the capacity of law enforcement officials and victim identification and referral systems and will also raise awareness of the risks of irregular migration.
IOM Stra	ategy: 11	Budgeted resources: 345 200
IV.2.7	Counter-trafficking Initiative in Burundi	To contribute to improving human security for communities affected by trafficking in persons, and to provide appropriate support and assistance to victims of trafficking in Burundi. This project will help to increase the understanding of relevant government officials of legislation, policies and regulations pertaining to trafficking and will improve the capacity and increase awareness of security sector actors in terms of the effective prevention of trafficking in persons.
IOM Stra	ategy: 1, 11	Budgeted resources: 1 473 000
IV.2.8	Enhanced Collective Capacity to Assist Vulnerable Migrants in Chad	To address the urgent protection needs of vulnerable and stranded migrants in Chad through direct assistance, reinforcing the capacity of existing local service providers and improving identification of victims of trafficking in Chad. This project will also provide protection services to migrants.
IOM Stra	ategy: 2, 10	Budgeted resources: 142 600
IV.2.9	Enhancing the Capacity of National Authorities to Address Trafficking in Persons in Côte d'Ivoire	To enhance the operational and technical capacities of national authorities in Côte d'Ivoire to profile, investigate and refer cases of human trafficking or migrant smuggling and to improve the capacities of relevant actors to provide adequate assistance and protection to the victims.
IOM Stra	ategy: 2, 3, 10, 11	Budgeted resources: 1 816 000
IV.2.10	Enhancing Social Protection for Migrants in Djibouti	To support the efforts of the Government of Djibouti to fulfil its commitment to manage mixed migration flows by protecting refugees and migrants and providing sustainable solutions to the challenges faced by refugees, migrants and affected host populations.
IOM Stra	ategy: 4, 11	Budgeted resources: 1 637 600
IV.2.11	Counter-trafficking Activities in Ethiopia	To contribute to the efforts of the Government of Ethiopia and other stakeholders to address the challenges of irregular migration, secondary movements and trafficking in persons; and to enhance the protection of migrants in situations of vulnerability. Another component of this project seeks to reduce the risk of radicalization or trafficking of children and youth who are engaged in unsafe migration by contributing to building a safer and more stable environment through enhanced livelihood opportunities and social cohesion initiatives.

	Programme/Project	Objectives
IV.2.12	Supporting National Efforts to Combat Human Trafficking in the Gambia	To support the efforts of the Government of the Gambia to combat trafficking in persons by strengthening its capacities to successfully prevent it and protect victims and those at risk of trafficking, and to prosecute traffickers. The project also will raise awareness on safe and orderly migration.
IOM Stra	ategy: 2, 5, 11	Budgeted resources: 432 500
IV.2.13	Capacity-building to Combat Trafficking in Persons in Guinea	To support the initiative of the Government of Guinea to combat trafficking in persons through reinforcing the capacities of those responsible for the design and development of national anti- trafficking policy, with a special focus on prosecution and prevention activities.
IOM Stra	ategy: 11, 12	Budgeted resources: 106 100
IV.2.14	Capacity-building to Combat Trafficking and Transnational Organized Crime in Guinea-Bissau	To enhance capacities of the Ministry of Justice of Guinea-Bissau and relevant authorities to prevent human trafficking and support an integrated protection system for victims. This intervention will improve capacity for sustaining peace by supporting national actors in developing resilient national capacities and addressing conflict drivers to promote peace, justice and strong institutions for sustainable development.
IOM Stra	ategy: 5, 11	Budgeted resources: 27 000
IV.2.15	Capacity-building to Combat Trafficking via Prevention and Protection in Lesotho	To enhance the capacities of the relevant authorities in Lesotho to prevent human trafficking and support an integrated protection system for victims. The project will also help in the rehabilitation of a crisis shelter for migrants.
IOM Stra	ategy: 2, 5, 9, 11	Budgeted resources: 308 700
IV.2.16	Support to Civil Society for the Protection of Migrants and Human Rights in Mauritania	To contribute to improving protection of migrant rights and migration governance in Mauritania by strengthening the capacities of the civil society and institutional actors. The project will also contribute to the direct assistance and protection of migrants in situations of vulnerability.
IOM Stra	ategy: 2	Budgeted resources: 580 900
IV.2.17	Assistance and Protection for Migrant Children in Morocco	To improve assistance and protection for national and foreign unaccompanied and separated migrant children and vulnerable young migrants in Morocco. This project will contribute to strengthening key national actors, provide direct assistance and raise awareness on child migration and trafficking. This project will also empower and mobilize refugees and host communities to promote protective social norms and acceptance of refugee and migrant children and youth.
IOM Stra	ategy: 1, 2, 3, 5, 7, 8, 11	Budgeted resources: 1 809 500
IV.2.18	Direct Assistance to Returned Migrants and Victims of Trafficking in the Niger	To complement the Migrant Resource and Response Mechanism by providing direct assistance to migrants from the Niger returning from Algeria, supporting victims of trafficking in the Niger and improving conditions for migrants repatriated from Algeria.
IOM Stra	ategy: 9, 11	Budgeted resources: 99 300
IV.2.19	Combating Irregular Migration and Trafficking in Persons from Nigeria	To contribute to the efforts of the Government of Nigeria to address irregular migration from and through Nigeria via a national awareness-raising campaign that highlights the risks and realities of irregular migration, including increased vulnerability to trafficking in persons, and provides information on regular migration opportunities and procedures for achieving safe migration from Nigeria to countries of destination. This project also contributes to improving access to rehabilitation and psychosocial support services for victims of trafficking, female vulnerable returnees and other persons of concern.
IOM Stra	ategy: 1, 2, 5, 10, 11	Budgeted resources: 1 517 900

i		To contribute to the humane management of mixed flows across
	Sudan	the Sudan by enhancing the protection of migrants in in situations of vulnerability through the provision of direct assistance and building the capacity of national counterparts.
IOM Strate	egy: 3, 6, 9, 11	Budgeted resources: 1 537 800
â	United Republic of Tanzania	To raise awareness about and eliminate violence against women and children in the United Republic of Tanzania and improve their welfare in order to foster a society that respects gender equality and protects women and children against all forms of violence.
IOM Strate	egy: 1, 2, 9, 11	Budgeted resources: 712 100
	Activities in Tunisia	To enhance the capacity of the Government of Tunisia to better address irregular migration, protect migrants' rights and uphold the human rights of migrants in situations of vulnerability travelling into, through and out of Tunisia. This project will contribute to enhancing legislation and the development of an awareness-raising campaign and national action plan in Tunisia in relation to rights of migrants in situations of vulnerability. This project will also strengthen capacities to identify and provide adequate care to victims of trafficking in Tunisia.
IOM Strate	egy: 2, 3, 5, 10, 11	Budgeted resources: 373 500
	in Zimbabwe	To enhance the efforts of the Government of Zimbabwe and civil society to coordinate anti-trafficking responses, and to protect victims of trafficking through strengthening the protection given to identified victims, improving the capacity of targeted communities to prevent trafficking in persons and enhancing capacity to institutionalize the national referral mechanism.

The project will also support the development of national referral mechanisms to better identify and assist victims of trafficking, promote the prosecution of human traffickers and provide assistance to victims of trafficking within the criminal justice process.
IOM Stra	ategy: 3, 11	Budgeted resources: 1 906 500
IV.2.45	Prevention of Trafficking in Persons in Czechia, Poland and Slovakia	To strengthen the capacity of professionals working in the field of prevention of trafficking in persons and to provide the relevant target groups with tools that help them travel and work abroad safely in Czechia Poland and Slovakia.

	Programme/Project	Objectives
IV.2.46	Enhancing Migrant's Rights and Good Governance in Armenia and Georgia	To enhance the capacities of national stakeholders to protect human rights and improve migration governance in Armenia and Georgia by facilitating transnational coordination and dialogue to encourage joint efforts and inspire learning in the area of migration management among governmental and civil society stakeholders.
IOM Stra	ategy: 2, 3, 7, 8	Budgeted resources: 934 600
IV.2.47	Training for Austrian Migration and Asylum Stakeholders	To enhance the overall management of migration and asylum in Austria by improving the identification, referral and protection of trafficked migrants and asylum seekers and improving understanding among Austrian asylum and migration actors.
IOM Stra	ategy: 2, 11	Budgeted resources: 275 700
IV.2.48	Assistance for Victims of Trafficking and Awareness-raising about Asylum and Migration in Bulgaria	To support the identification of, assistance for and return and protection of Bulgarian victims of trafficking and the implementation of prevention activities in a coordinated manner. This project will also support the dissemination of information on rights and will focus on possibilities for access to legal aid on trafficking issues.
IOM Stra	ategy: 1, 4, 5, 8, 11	Budgeted resources: 483 500
IV.2.49	Awareness-raising against Trafficking in Persons in Hungary	To implement awareness-raising campaigns on trafficking in persons targeting both at-risk populations and Hungarian population in general.
IOM Stra	ategy: 11	Budgeted resources: 212 800
IV.2.50	Family Tracing and Assessment Activities in Italy	To enhance the capacity of the Italian authorities to identify and deliver durable solutions for unaccompanied migrant children in Italy which respond to their best interests. This project will also facilitate family reunification in other European Union Member States and assist voluntary return and reintegration for unaccompanied migrant children in the country of origin. This project will also use information campaigns to inform potential migrants of the risks of irregular migration.
IOM Stra	ategy: 2, 5, 6, 8, 10, 11	Budgeted resources: 595 700
IV.2.51	Assisted Voluntary Return and Reintegration for Victims of Trafficking in Sweden	To support the further development and strengthening of assisted voluntary return and reintegration assistance provided in Sweden to victims of trafficking and foreign citizens experiencing sexual or other forms of exploitation.
IOM Stra	ategy: 1, 2, 10, 11	Budgeted resources: 203 400
IV.2.52	Job Placement Programme for Former Victims of Trafficking in the United Kingdom	To provide job opportunities to former victims of trafficking in a company's janitorial supply chain in the United Kingdom. The project will also produce guidelines on how to set up and implement similar interventions, building on knowledge gained through this programme.
IOM Stra	ategy: 8, 11	Budgeted resources: 198 000
	on and Assistance for Migrants in ns of Vulnerability and Counter-trafficking	g Total Budgeted resources: 60 588 600

	Programme/Project	Objectives
IV.3.1	Cross-border Trade Initiative in Eastern and Southern Africa	To support the strengthening and formalization of the more informal cross-border trade sector by increasing formal small-scale cross-border trade flows in the Tripartite Free Trade Area, leading to higher revenue collection for governments at the borders as well as increased security and higher incomes for small-scale cross- border traders in the Democratic Republic of the Congo, Ethiopia, Kenya, Malawi, the United Republic of Tanzania, Zambia and Zimbabwe. The project will focus on five selected border areas in the concerned countries.
IOM Str	ategy: 1, 2, 3, 4, 5, 6, 7, 11,12	Budgeted resources: 729 000
IV.3.2	Strengthening Capacities to Combat Migrant Smuggling along the Central Mediterranean Route	To contribute to improving access of the Governments of Algeria, Libya, Mali and the Niger to updated, detailed information and analysis on migrant smuggling along the Central Mediterranean route through strengthening the capacity of border officials to counter migrant smuggling and ensuring cross-border cooperation on the issue.
IOM Str	ategy: 2, 3, 5, 11	Budgeted resources: 71 100
IV.3.3	Establishing a Tripartite Cross-border Migration Forum between Algeria, Mali and the Niger	To contribute to the safe, orderly and regular management of mixed migration flows in the north of the Niger, Mali and southern Algeria by strengthening collaboration and coordination through the establishment of a tripartite cross-border forum to foster inter-State dialogue. This project will also enhance the capacity of local public authorities in the region to identify vulnerable migrants and respond to their needs through training on human trafficking, migrant smuggling and the identification of migrants in situations of vulnerability.
IOM Str	rategy: 2, 3, 7, 11	Budgeted resources: 164 200
IV.3.4	Cross-border Initiative in the Great Lakes Region	To increase the cross-border trade and promote inter-community collaboration between the Democratic Republic of the Congo and Rwanda through the construction of a one-stop border post and capacity-building activities to contribute to strengthening subregional economic integration and social cohesion of cross- border communities.
IOM Str	rategy: 1, 2, 3, 4, 5, 6, 7, 11, 12	Budgeted resources: 6 721 100
IV.3.5	Border Management in Chad	To strengthen technical capacity in Chad to effectively address current border management challenges in northern Chad and along the border with the Sudan, including activities to address capacity gaps to combat trafficking in persons.
IOM Strategy: 1, 2, 3, 5, 11		Budgeted resources: 380 000
IV.3.6	Enhancing Border Management and Social Cohesion at the Border of Côte d'Ivoire	To support local communities in the border areas in the northern part of Côte d'Ivoire in order to enhance border management and build trust among security agents, local authorities and the local population.
IOM Str	ategy: 2, 3, 5, 6, 11	Budgeted resources: 74 900
IV.3.7	Improving Border Management Capacity to Address Irregular Migration in Djibouti	To contribute to reaching a healthy balance between security and enhanced cross-border mobility, specifically focusing on saving lives, enhancing security and promoting and facilitating of the regular and safe flow of people and goods across the border by
		enhancing the management capacity of the border police of Djibouti.

IV.3 IMMIGRATION AND BORDER MANAGEMENT/BORDER AND IDENTITY SOLUTIONS

	Programme/Project	Objectives
IV.3.8	Enhancing the Operational Capacities of the Gambian Authorities to Manage Borders	To contribute to enhancing the operational capacity of the Government of the Gambia to manage borders through improved physical infrastructure, strengthened migration data collection and enhanced institutional capacity through the promotion of interagency cooperation.
IOM Stra	ategy: 2, 3, 6, 7	Budgeted resources: 107 300
IV.3.9	Capacity-building in Migration and Border Management in Guinea	To promote State and human security in Guinea by supporting law enforcement agencies to be more effective, accountable and inclusive and strengthening national border and migration management capacities to combat irregular migration, including trafficking in persons and migrant smuggling.
IOM Stra	ategy: 2, 3, 5, 7, 11	Budgeted resources: 1 133 800
IV.3.10	Enhancing Migration Management in Libya	To enhance safety and security for both migrants and local communities along the land borders of Libya by developing the capacity of relevant government officials.
IOM Stra	ategy: 1, 2, 3, 8	Budgeted resources: 3 300 300
IV.3.11	Supporting Border Management in the Niger	To contribute to improving security in the Niger by enhancing the operational and strategic capacities of the Government to develop and implement consistent and principled approaches to border management. This project also includes the construction of new infrastructure for border posts and the installation of information technology solutions and other technical equipment at selected land entry points and at police headquarters; and the development of training modules for border officials to ensure that national authorities have an institutionalized and standardized response to crises.
IOM Stra	ategy: 2, 3, 6, 7, 9, 11	Budgeted resources: 1 544 700
IV.3.12	Enhancing Migration Management in Nigeria	To enhance the capacity of the Government of Nigeria in terms of border and migration management and in order to maximize the development potential through trainings for the relevant offices and the installation of the Migration Information and Data Analysis System at key land and sea borders in Nigeria. This project also contributes to enhancing the capacity of relevant stakeholders and the launch of a national biometric identity card.
IOM Stra	ategy: 2, 3, 6, 7, 9	Budgeted resources: 2 052 500
IV.3.13	Supporting Border Management in Senegal	To strengthen the capacities of the internal security services in Senegal to tackle cross-border organized crime, and to enhance the capacities of border security and management agencies in order to combat human trafficking and migrants smuggling networks. The project also foresees the construction of border-crossing points.
IOM Stra	ategy: 2, 3, 5, 10, 11	Budgeted resources: 962 000
IV.3.14	Migrant Registration Support in the United Republic of Tanzania	To enhance the migration management capacities of the United Republic of Tanzania by contributing to ongoing government efforts to strengthen related information and data gathering processes, including for registration and regularization.
IOM Stra	ategy: 2, 3, 5, 6, 10	Budgeted resources: 441 400
IV.3.15	Increasing Border Security and Regular Migration in Uganda	To fill out identified border management capacity gaps in Uganda by supporting improvements of the applicable legal framework and related procedures for regular migration while addressing irregular migration through enhanced maritime patrol capacity.

	Programme/Project	Objectives
IV.3.16	Developing the Capacity of the Government of the Sudan in Immigration and Border Management	To enhance the Sudan's technical capacity to manage migration by improving border management processes and procedures, which will also facilitate evidence-based programming on migration and support related policy formation.
IOM Stra	itegy: 2, 3, 6	Budgeted resources: 1 328 800
IV.3.17	Supporting Stability and Sustainable Return and Reintegration in Iraq	To contribute to stability and creating conditions conducive to return and reintegration through rebuilding trust and access to services in Iraq. This initiative promotes community policing and the strengthening of security institutions and legal frameworks, including for victims of gender-based violence and exploitation or conflict-related sexual violence.
IOM Stra	itegy: 1, 2, 3, 6, 8, 9, 10, 11	Budgeted resources: 6 423 600
IV.3.18	Enhancing the Capacity of the Jordanian Border Forces and Services	To improve relevant border infrastructure and, the living conditions of border staff and officers in the field at the border between Jordan and the Syrian Arab Republic in order to contribute to better protection, stability and security in Jordan.
IOM Stra	itegy: 2, 3, 5, 7, 11	Budgeted resources: 5 455 000
IV.3.19	Enhancing Internal Capacities in Border and Migration Management in Lebanon	To support the establishment of a permanent training facility for the General Directorate of General Security to enable the training of staff in border management techniques and complementary skills.
IOM Stra	tegy: 2, 3, 5, 6, 7, 11, 12	Budgeted resources: 347 200
IV.3.20	Support for Integrated Border Management in Latin America	To contribute to security, improved respect for and protection of human rights and social and economic development at national and regional levels in Latin America, building on an integrated border management perspective.
IOM Stra	tegy: 1, 2, 3, 4, 5, 6, 7, 8, 11, 12	Budgeted resources: 375 100
IV.3.21	Technical Cooperation Project to Strengthen the Puebla Process	To support the Puebla Process, which serves as a mechanism for consultation, coordination and cooperation on migration issues. The budgeted resources shown here reflect only contributions from donors. The project has received an additional allocation from OSI, in the amount of USD 20,000. The combined funding for the Puebla Process totals USD 116 200.
IOM Stra	itegy: 1, 2, 3, 6, 8, 12	Budgeted resources: 96 200
IV.3.22	Administrative and Technical Assistance for Migration Management Services in Argentina	To provide administrative and technical assistance in support of national efforts to address governance and migration management challenges in Argentina, including through support to the transfer of specialized staff, international cooperation and targeted capacity-building. IOM has limited responsibility in project implementation; consequently, no overhead is applicable to the portion of funding from the Government of Argentina to cover activities under special management.
IOM Stra	itegy: 1, 2, 3, 4, 5, 6	Budgeted resources: 950 000

	Programme/Project	Objectives
IV.3.23	Support to and Reinforcement of the Haitian Border Police	To strengthen the Haitian National Border Police's capacity to enforce security, to recognize the specific rights and needs of migrants and equip a pilot police station compound with dormitories and equipment tailored to the needs of the border police officers.
IOM Stra	ategy: 1, 2, 3, 5, 6, 9, 10, 11	Budgeted resources: 1 165 500
IV.3.24	Administration of the Regional Support Office of the Bali Process	This project supports the administration of the Bali Process Regional Support Office, located in Bangkok, which acts as a coordination office for sharing information, building capacity and exchanging best practices among Bali Process Member States. The Regional Support Office will continue to develop guidelines for immigration officials on analysing, reporting on and disseminating accurate intelligence relating to migrant smuggling, trafficking in persons and associated transnational crime.
IOM Stra	ategy: 2, 3, 5, 6, 7, 11	Budgeted resources: 281 700
IV.3.25	Border Management in Afghanistan	To deliver integrated solutions to identified gaps within Afghanistan's national identity management and border security arrangements.
IOM Stra	ategy: 2, 3, 5, 6, 11	Budgeted resources: 4 669 100
IV.3.26	Strengthening Border Security in Cambodia	To strengthen border security measures through the development of a training curriculum based on inter-agency dialogue followed by the delivery of training to front-line officers in remote border areas to enable them to more effectively monitor cross-border movements and prevent illegal activity.
IOM Stra	ategy: 2, 3, 5, 6, 11	Budgeted resources: 197 100
IV.3.27	European Union-China Dialogue on Migration and Mobility Support	To facilitate and strengthen the European Union's dialogue on migration and mobility with China by addressing migration as a global challenge. The project will focus on the negotiations on a visa facilitation agreement and on cooperation in addressing irregular migration and combating related crime.
IOM Stra	ategy: 2, 3, 5, 6, 7, 11, 12	Budgeted resources: 730 500
IV.3.28	Strengthening Government Capacity to Combat Human Smuggling and Other Cross-border Crimes in Sri Lanka	To enable Sri Lankan border agencies to operate in an integrated manner by facilitating regular cross-border movement, introducing risk-based, intelligence-driven border management systems, and supporting the launch of a coordinated immigration enforcement framework to comply with the law and minimize irregular activities.
IOM Stra	ategy: 2, 3, 5, 6, 7, 11	Budgeted resources: 92 000
IV.3.29	Strengthening Border Management and Related Intelligence Capacity in Thailand	To support the efforts of the Thai authorities and their regional counterparts to tackle migrant smuggling and human trafficking in Thailand through strengthened institutional capacities and improved border management. The project will also consolidate the front-line responses of target countries to counter irregular departures, entries and transit of travellers using fraudulent documents and/or false identities from/to participating countries.
IOM Strategy: 2, 3, 5, 6, 11		Budgeted resources: 1 030 000
IV.3.30	European Readmission Capacity- building Facility (EURCAP)	To build the capacity of partner countries – in the context of the European Union return and readmission policy – through support for ongoing negotiations, the implementation of agreements/ arrangements and practical cooperation with selected countries on return, readmission and reintegration.
IOM Stra	ntegy: 2, 3, 6, 7, 10	Budgeted resources: 8 546 000

	Programme/Project	Objectives
IV.3.31	Regional Support for Protection- sensitive Migration Management in the Western Balkans and Turkey	To develop and operationalize a comprehensive migration management system in Albania, Bosnia and Herzegovina, Montenegro, North Macedonia, Serbia, Turkey and Kosovo* through several initiatives, including developing a framework agreement for regional data exchange and standard operating procedures for assisted voluntary return and reintegration. This project also promotes social inclusion of migrants, asylum seekers and people in need of international protection.
IOM Stra	ategy: 1, 2, 3, 5, 6, 7, 10, 11	Budgeted resources: 537 700
IV.3.32	Regional Cooperation on Border Management	To strengthen the initiative to operationalize a comprehensive migration management system by supplementing national efforts to offer a protection-sensitive response to mixed migratory flows in Bulgaria, Greece and Turkey.
IOM Stra	ategy: 1, 2, 3, 5, 6, 11	Budgeted resources: 1 058 100
IV.3.33	Capacity-building for Migration Management in the Republic of Moldova and Ukraine	To help align the border guard services in the Republic of Moldova and Ukraine with European Union standards through capacity- building in the field of risk analysis, and institutional training and support for the roll-out of integrated border management, with a focus on the cross-border movement of persons.
IOM Stra	ategy: 2, 3, 5, 6, 7, 10, 11	Budgeted resources: 6 629 900
IV.3.34	Enhancing Security at the Belarus- Ukraine Border	To provide advice and technical support to enhance the management of road border-crossing points in Belarus and to build the capacity of immigration officers through training activities. The project also supports the efforts of the Government of Belarus to further develop and implement the country's strategies regarding irregular migration and protection.
IOM Stra	ategy: 2, 3, 5, 6, 11	Budgeted resources: 1 068 900
IV.3.35	Support to Address Irregular Migration in Belarus	To support the initiative of the Government of Belarus to develop and implement migration and asylum policies and strategies in order to bring them closer to European and international standards and good practices through strengthening respect of human rights and fundamental freedoms in the area of irregular migration.
IOM Stra	ategy: 1, 2, 3, 6, 11	Budgeted resources: 2 005 100
IV.3.36	Sustaining Border Management and Migration Governance in Georgia	To enhance the capacities of the Georgian authorities in the areas of integrated border management and migration governance in line with an agreement between the European Union and Georgia and related governmental action plans. The project will help to strengthen legal, institutional and operational capacity for integrated border management, including through improved inter- agency coordination and the strengthening of the migration governance framework, particularly with regard to the capacity to counter irregular migration, combat cross-border crime and facilitate safe, orderly and regular migration.
IOM Stra	ategy: 2, 3, 5, 6, 7, 11	Budgeted resources: 3 952 500
IV.3.37	Management Support Unit of the Regional Development and Protection Programme in North Africa	To provide support to the secretariat through the organization of steering committee meetings, support to the Italian Ministry of Interior in monitoring the implementation of projects in target countries, and liaison with the implementing partners' offices in the region.
	ategy: 1, 2, 3, 5, 6, 7, 11	Budgeted resources: 159 900

^{*} References to Kosovo shall be understood to be in the context of United Nations Security Council resolution 1244 (1999).

	Programme/Project	Objectives
IV.3.38	Support to North Macedonia in Migration and Border Management	To support the provision and management of accommodation, transportation and any other assistance deemed necessary for the deployed guest and re-deployed national border officers conducting border management activities, while transferring European Union practices and experiences. This initiative also supports the enhancement of the knowledge and skills of border management authorities through capacity-building activities and technical support including new technologically advanced surveillance equipment and systems for migrant registration.
IOM Stra	ategy: 2, 3, 5, 6, 7, 9, 11	Budgeted resources: 506 500
IV.3.39	Mainstreaming Human Rights Standards at Administrative Detention Centres in Portugal	To provide information that will contribute to upholding and mainstreaming standards related to the human rights of migrants under administrative detention in Portugal.
IOM Stra	ategy: 1, 2, 3, 6	Budgeted resources: 87 200
IV.3.40	Supporting Migration Management Efforts in Turkey	To contribute to the efforts of the Government of Turkey in migration management in support of institutional and legal reform in the country in line with established European Union standards through capacity-building, enhancement of a human rights-driven dialogue and the strengthening of migration management legislative and administrative capacity. This initiative also supports the enhancement of the capacities of the customs authorities and Turkish coastguard in the field of border management to further enable the agency to effectively address irregular migration, particularly migrant smuggling, and carry out search and rescue operations.
IOM Stra	ategy: 1,2, 3, 5, 6, 7, 8, 11	Budgeted resources: 2 767 900
IV.3.41	Enhancing Border Management in Ukraine	To contribute to the modernization of Ukraine's border management system. The initiative will facilitate the renovation of a training centre and the exchange of good practices. The project will also support the establishment of the new national customs services by enhancing and strengthening related technical capacities.
IOM Stra	ategy: 1, 2, 3, 5, 6, 11	Budgeted resources: 949 700
IV.3.42	Supporting Migration Issues among United Kingdom Nationals	To provide practical support to persons from the United Kingdom in the completion of their residency applications to secure and maintain their residency rights in European Union countries following the decision of the United Kingdom to leave the European Union.
	ategy: 2	Budgeted resources: 617 500

IV.4 MIGRATION MANAGEMENT SUPPORT

	Programme/Project	Objectives
IV.4.1	Essentials of Migration Management	To strengthen the capacity of government officials in Ethiopia and Somalia and other relevant stakeholders in managing their migration realities more effectively through the development IOM's knowledge management resource on migration management, which provides the substantive basis for tailor-made training packages for both face-to-face and self-paced e-learning modules, as well as the development of the Essentials of Migration Management 2.0 training certification handbook.
IOM Str	rategy: 2, 3, 4	Budgeted resources: 372 400
Migrati	on Management Support	Total Budgeted resources: 372 400

V. FACILITATING MIGRATION

	Programme/Project	Staff and office costs	Programme costs	Overhead	Total costs
V.1	Labour Migration	9 724 500	13 367 000	1 213 200	24 304 700
V.2	Integration and Social Cohesion	7 671 900	11 661 900	1 298 100	20 631 900
V.3	Immigration and Visas	16 350 500	10 149 600	1 160 100	27 660 200
	Total	33 746 900	35 178 500	3 671 400	72 596 800

339. The total budget for Facilitating Migration is approximately USD 72.6 million. The projects are listed by programme area, indicating the objective(s) of each project and their link(s) to the activities outlined in the IOM Strategy on page 18.

340. Mobility is an essential feature of today's world. Integrated global markets, the emergence of transnational networks and the rapid development of communication technologies have all contributed to increased movements of highly skilled and lower skilled workers, students, trainees, professionals and families. Demographic, technological and social developments in industrialized economies have spawned a need for workers and professionals from other countries. Economies that want to remain competitive need to consider labour mobility opportunities which can contribute to growth. The fact that some countries of destination have limited diplomatic and immigration representation also requires innovative approaches to visa-related work.

341. In addition to promoting regional dialogue and providing policy and technical advice on labour migration and other migratory movements to governments of countries of origin and destination, IOM offers governments, migrants, and businesses (recruitment agencies and employers) advice on ethical recruitment standards, skills recognition, language training, pre-departure and cultural orientation, immigration and visa processing support, assistance at departure, in transit and upon arrival and migrant integration services. This assistance is tailored to each programme's needs and provided at various stages of the labour migration process: pre-employment, recruitment, pre-departure and post-arrival stages. Integration strategies are an indispensable element in this context, given that integration support can help migrants adjust to their new environment and foster social cohesion between the newcomers and the host community. Facilitating migration can be a win-win proposition for governments, employers, migrants and communities.

342. The following programme areas are used to classify Facilitating Migration programmes and activities.

Labour Migration: Labour migration features at the top of the policy agenda of many countries. 343. be they countries of origin or destination. Given that there are more than 164 million migrant workers around the world, the stakes are enormous. Three decisive factors will continue to drive this kind of movement: the "pull" of changing demographics and labour market needs in many industrialized countries; "push" factors caused by unemployment and lack of opportunities for growing sectors of the population - including youth - and by crisis in less-developed countries; and established transnational networks based on family, cultural and historical relations between countries. A significant proportion of labour migration is irregular, with an informal economy ready to abet it. Increasingly, governments at both ends of the migration spectrum are developing regulatory mechanisms to govern labour mobility to their individual and mutual benefit, and governments and migrants are turning to IOM for expert support and to facilitate regulated labour migration. IOM aims to facilitate the development of policies and programmes that are in the interests of migrants and governments through policy advice and capacitybuilding, information dissemination and awareness-raising, promotion and facilitations of ethical recruitment and inter-State dialogue and cooperation. IOM's labour migration approach promotes the protection of migrant workers and their families, fosters development, and opens legal avenues of labour migration as an alternative to irregular migration.

344. **Integration and Social Cohesion:** This programme area consists of two sub-areas, namely migrant training and migrant integration. The programmes are designed to assist States and other relevant stakeholders in addressing migrant integration throughout the migration continuum. The aim is to facilitate effective integration and social cohesion through enhanced pre- and post-arrival support, and technical support for a 'whole-of-society' approach to the development and implementation of integration policies and services. An important feature, and one of IOM's traditional services, is preparing migrants

and refugees for their new life in order to ease the settlement process and facilitate integration. IOM provides a variety of services in this area, including pre-employment orientation, pre-departure cultural orientation, language training and post-arrival integration assistance, which engage both the migrants and the receiving community. Successful integration is a two-way process and IOM works with both newcomers and host communities to promote social cohesion. This is achieved through capacity-building, enhanced linkage between pre- and post-arrival orientation and planning, and engagement of local municipalities and stakeholders in welcoming migrants and establishing a "one-stop shop" for integration services. IOM also offers technical assistance in policy development and implementation through training, advisory services and other capacity-building initiatives, drawing on a range of models and best practices gained through its work on migrant integration and social cohesion.

345. Immigration and Visas: Visa policy and practices have become a key tool for Member States to better manage regular migration and prevent irregular migration. For migrants, access to regular migration pathways is crucial as they are otherwise vulnerable to precarious movement and the risks related to irregular migration status. IOM provides support to States for the development and implementation of comprehensive visa policies. This includes assistance for the development of relevant policies, legislation and strategies, and assistance in the review of States' visa practices, conducting research and increasing understanding of visa policies and practices at the national, regional and global levels. Furthermore, IOM supports immigration and consular authorities in managing visa application processes through a wide range of tailored, technology-driven, cost-effective and non-profit operational solutions, which make regular migration pathways more accessible, better informed, dignified, timely and transparent. The support offered includes logistical assistance to facilitate visa processing, visa application assistance, document verification, facilitation of interviews, skills and language testing facilitation, biometrics enrolment, travel document handling, visa appointment and visa issuance systems, management of visa application centres, visa-related information services and access to consular and citizen services.

Programme/Project		Objectives	
V.1.1	Development of the International Recruitment Integrity System (IRIS)	To contribute to eliminating and preventing exploitation of migrant workers by supporting transformation of international recruitment industry to make it fair for everyone involved: migrant workers, employers, recruiters and countries of origin and destination.	
IOM Str	rategy: 2, 3, 4, 5, 6, 7, 8, 9, 11, 12	Budgeted resources: 539 800	
		To support capacity-building at the African Union Commission and its Department of Social Affairs to ensure effective and timel implementation of the Joint Labour Migration Program. This project will also facilitate the establishment of the Project Support Unit and contribute to improved labour migration governance to achieve safe, orderly and regular migration.	
IOM Str	rategy: 3, 12	Budgeted resources: 2 415 500	
V.1.3 Towards a Holistic Approach to Labour Migration Governance and Labour Mobility in North Africa		To strengthen governance, implementation structures and policy coherence, harmonize data collection mechanisms, and improve migrant workers' rights and skills recognition between Egypt, Morocco and Tunisia	
IOM Str	rategy: 2, 4, 8	Budgeted resources: 414 900	
V.1.4	Diaspora Engagement in Belgium and Germany to Support Technical Education and Vocational Training in Rwanda	To support the operationalization of the national labour mobility policy and its guiding framework. This project also provides support to ensure that the diaspora participates in economic growth in Rwanda.	
IOM Str	rategy: 2, 3, 8	Budgeted resources: 148 300	

V.1 LABOUR MIGRATION

	Programme/Project	Objectives		
V.1.5	Promoting Ethical Recruitment and Fair Labour in Asia	To contribute to eliminating and preventing exploitation and human trafficking of domestic workers by better guiding and providing private sector partners with practical solutions for the implementation of ethical recruitment and decent work practices.		
IOM Stra	ategy: 2, 3, 4, 5, 6, 7, 8, 9, 11, 12	Budgeted resources: 17 064 600		
V.1.6	Reducing the Vulnerabilities of Migrant Workers in Labour Supply Chains in the Philippines	To contribute to private sector efforts to prevent forms of modern slavery through ad hoc training, capacity-building and development of a toolkit in the Philippines		
IOM Stra	ategy: 3,12	Budgeted resources: 431 700		
V.1.7	Facilitating Poverty Reduction through Skills Development for Safe Migration	To support improved employment opportunities and conditions for migrants – particularly those in Thailand – with a focus on women from Cambodia, the Lao People's Democratic Republic and Myanmar, through access to skills development and enhanced assistance services throughout the migration cycle, with the aim of reducing poverty in communities of origin.		
IOM Stra	ategy: 4, 8	Budgeted resources: 2 090 100		
V.1.8	Promoting Human Rights and Responsible Employment in Viet Nam	To support private sector actors to implement supply chain transparency, ethical recruitment and fair labour practices and to ensure the protection of and respect for labour rights for workers. This project also assists private sector actors to implement policies related to the ethical recruitment and fair employment of migrant workers in Viet Nam.		
IOM Stra	ategy: 2, 3, 4, 6, 11, 12	Budgeted resources: 78 600		
V.1.9	Migration of African Talents	To address labour market shortages in four European Union Member States by enabling migrants from West Africa to work in Belgium, Italy, Luxembourg and the Netherlands. The project will also implement skills development, capacity-building and knowledge-sharing activities.		
IOM Stra	ategy: 12	Budgeted resources: 459 600		
V.1.10	Promoting and Improving Regular and Safe Employment of Migrant Workers in Italy	To reduce the labour exploitation and marginalization of migrants in Italy by improving the effectiveness and efficiency of labour inspections, promoting coherent interventions among relevant authorities, improving coordination between entities and strengthening local governance.		
IOM Stra	ategy: 8,11	Budgeted resources: 448 800		
V.1.11	Migration and Local Development Initiative in the Republic of Moldova	To support national stakeholders to develop and implement an efficient policy and regulatory framework for circular labour migration in the Republic of Moldova.		
IOM Stra	ategy: 12	Budgeted resources: 137 400		
V.1.12	Technical Support for the Development of a Labour Mobility Scheme in Slovakia	To develop an evidence-based labour mobility Scheme with a fast- track admission, integration and return component to offer flexibility in the management of labour mobility in Slovakia. This project will enable a fast and suitable policy response to the current and expected labour shortages.		
IOM Stra	ategy: 3, 4, 8	Budgeted resources: 75 400		

Programme/Project	Objectives			
.2.1 Migrant Training	To facilitate the integration of migrants through enhancing their capacity to adapt to their new environment upon arrival and become self-sufficient and productive members of their new society.			
DM Strategy: 1, 2, 8	Budgeted resources: 5 753 800			
.2.2 Migrant Integration	To promote cohesive and inclusive societies by empowering migrants to be active members of their new communities, while enhancing the capacity of receiving communities and authorities to be inclusive of newcomers and develop policies that strengthen the welfare of all members of society.			
DM Strategy: 1, 2, 3, 4, 5, 6, 8, 11	Budgeted resources: 5 766 400			
.2.3 Facilitating the Regional Development and Protection Programme in North Africa	To contribute to strengthening the resilience of migrants, internally displaced populations and host communities by addressing challenges to socioeconomic integration and promoting a culture of rights, dialogue and social cohesion in Algeria, Egypt, Libya, Morocco and Tunisia.			
DM Strategy: 3, 4, 5, 7, 12	Budgeted resources: 769 700			
.2.4 Preventing Sexual and Gender-based Violence in Migrant Communities	To improve existing urban services for victims of sexual and gender- based violence in order to better reach migrant communities, and prevent and improve identification, referral, protection and recovery of victims of sexual and gender-based violence.			
DM Strategy: 3, 7, 8	Budgeted resources: 284 100			
.2.5 Supporting Migrant Integration in Poland	To contribute to facilitating migrant integration Poland by supporting migrants and host communities with cultural orientation training, coaching and career counselling. To build the competencies of representatives of local institutions in working with migrants and integration.			
DM Strategy: 8, 12	Budgeted resources: 265 600			
.2.6 Integration and Social Cohesion Programme in Turkey	To support the integration of migrants in line with Turkey's new migration management framework and European Union approaches by providing information services to facilitate migrants' access to services and rights and establishing and/or strengthening locally managed social cohesion programmes.			
DM Strategy: 8, 12	Budgeted resources: 7 792 300			
ntegration and Social Cohesion	Total Budgeted resources: 20 631 900			

V.2 INTEGRATION AND SOCIAL COHESION

V.3 IMMIGRATION AND VISAS

	Programme/Project	Objectives
V.3.1	Immigration and Visa Support Solutions	To support governments by providing services that are designed to enhance data collection, simplify and streamline visa-related processes, reduce time-consuming administrative functions, lower costs, improve service standards, combat fraud, improve security at diplomatic missions and provide logistical support where no representation exists. Such services are also designed to empower migrants by providing them with accurate and timely information in a language appropriate to their needs, while assisting with and simplifying the visa application process and ensuring that only properly completed applications are submitted, ultimately resulting in improved service standards and more efficient visa processing.
IOM Sti	rategy: 1, 2, 3, 4, 9, 10	Budgeted resources: 19 145 400

	Programme/Project	Objectives
V.3.2	Travel Assistance for Individuals and Governments	To support migrants requiring travel assistance, such as those with medical needs, unaccompanied minors or the elderly, by providing comprehensive support, including detailed information on air travel, reduced one-way migrant fares, completion of all travel- related documentation, assistance at the airport of departure, in transit and upon arrival, and flight escorts when required.
IOM Str	rategy: 1, 2, 4	Budgeted resources: 8 298 100
V.3.3	Promoting Qualified Migration in Argentina	To promote and facilitate qualified migration of nationals and residents in Argentina and to provide mobility-related assistance to students, academics and professionals through the implementation of the migration facilitation programme.
IOM Str	rategy: 1	Budgeted resources: 16 700
V.3.4	Community Support Programmes in Australia	To contribute to improved orderly migration and sustainable integration of migrants that will facilitate positive impacts for both migrants and host communities through increased access to information, visa support, travel services, and post-arrival assistance under the Community Support Programme
IOM Str	rategy: 1	Budgeted resources: 200 000
Immigration and Visas		Total Budgeted resources: 27 660 200

	Programme/Project	Staff and office costs	Programme costs	Overhead	Total costs
VI.1	Migration Policy Activities	629 800	98 500	41 900	770 200
VI.2	Migration Research and Publications		83 700	4 700	88 400
VI.3	Media and Communications	1 787 300	1 854 700	254 700	3 896 700
	Total	2 417 100	2 036 900	301 300	4 755 300

VI. MIGRATION POLICY, RESEARCH AND COMMUNICATIONS

346. The total budget for Migration Policy, Research and Communications is approximately USD 4.8 million. The projects are listed by programme area, indicating the objective(s) of each project and their link(s) to the activities outlined in the IOM Strategy on page 18.

347. Migration is a global issue which, boosted by the forces of globalization, uneven development, demographic trends and environmental and climate change, has gained in prominence on the political agendas of governments all over the world. There is growing awareness among governments and other stakeholders about the interlinkages between migration and other policy matters, including socioeconomic development, trade, employment, the environment, security and human rights, and about the need to ensure that migration policy development takes account of and is integrated into policy planning in these related fields. As the leading intergovernmental organization working with migrants and governments to respond to contemporary migration challenges, IOM is uniquely positioned to build on over 65 years of grass-roots experience and meet the growing needs of its membership and the international community at large by providing guidance on migration policy. The Department of International Cooperation and Partnerships serves as the focal point for IOM's strategic policy coordination on international migration issues, international migration law, and for research and communication on international migration trends, policies and practices. It aims to support the growing needs of governments and other stakeholders to better understand the multidimensional aspects of contemporary migration, in particular emerging migration policy issues. Many of the Department's activities cut across various areas of IOM's work, and they are reflected in other sections of this document under the relevant country or thematic activities.

348. The following programme areas are used to classify Migration Policy, Research and Communications projects and activities.

349. **Migration Policy Activities:** Sound data and policy analysis are key to understanding migration, developing effective new policies and designing sustainable practical approaches. The Department of International Cooperation and Partnerships provides information and advice on migration trends, challenges and opportunities. Its activities are aimed at strengthening the capacity of governments and other relevant stakeholders to develop and implement effective national, regional and global migration management policies and strategies. The Department also promotes multi-stakeholder policy dialogue on migration and related policy domains such as development, trade, the environment, health, security and human rights, as well as through its work on RCPs and support to the GFMD.

Activities in this area also include the IDM, which provides States, international organizations, 350 NGOs and other stakeholders with an informal and non-binding forum for the exchange of views and experiences on migration matters, the aim being to enhance understanding of migration and strengthen cooperative mechanisms for comprehensively and effectively addressing migration issues. The IDM is designed to broaden and deepen reflection on migration issues and their linkages with other policy domains and to boost government capacity to ensure the orderly management of migration, promote the positive aspects of migration and reduce its potential negative effects. It places value and emphasis on the diversity of migration-related topics, views and actors in order to shed light on migration issues in all their complexity. The IDM themes are selected to address issues of topical interest and, when appropriate, to dovetail with major processes at the United Nations, in an effort to complement and contribute to these activities. Although the IDM has been convened most recently in the form of two workshops a year, one in New York and one in Geneva, ministerial-level events were convened in 2013 and 2015. The Department also organizes expert workshops to explore emerging migration policy issues, and supports and contributes on a regular basis to the policy-oriented activities of IOM field offices, governments and other organizations and entities.

351. The Department, under its policy functions, is also responsible for supporting and coordinating IOM's engagement with governments, intergovernmental organizations, civil society and the media and promoting broader cooperation on migration. Related to these functions are continuous activities to monitor and develop IOM's partnerships at the inter-State and inter-agency levels. Specific activities are undertaken, geared to support and foster partnerships with and among governments with a view to improving policy coherence and cooperative approaches to migration management at the bilateral, regional and global levels. These activities complement the policy activities outlined above and emphasize the development and strengthening of multilateral cooperation through an inter-agency, multi-stakeholder framework for consistent and effective cooperation with partner organizations, notably the United Nations and civil society.

352. The RCPs are important mechanisms that foster inter-State cooperation and partnerships on migration issues by bringing States together for informal, non-binding dialogue at the regional level. Every two years, a global meeting of RCPs takes place. These meetings offer a platform for the exchange of information and good practices on migration management and facilitate the cross-fertilization of ideas across regions. They also foster ongoing interaction among RCPs and, more recently, have promoted exchanges between RCPs, other similarly structured interregional migration dialogue forums and the GFMD.

353. **Migration Research and Publications:** IOM conducts research on current migration issues to enhance and improve programme delivery and policy guidance for Member States and other relevant stakeholders. It does so through improving the knowledge base for migration policymaking and producing analyses of contemporary migration dynamics, particularly in its flagship publication, the World Migration Report. The Migration Research Division also helps IOM field offices manage research projects by endorsing project proposals, providing technical support and guidance, reviewing final reports for publication, building internal research capacity through staff training, offering information and library resources and working with external consultants on research into and studies of migration topics of current interest and concern.

354. In 2021, the Publications Unit will continue to produce IOM's main publications, including the World Migration Report, Fatal Journeys, *International Migration*, a journal published online six times a year, the International Dialogue on Migration Series, International Migration Law publications, and *Migration Policy Practice*, a quarterly journal published in partnership with Eurasylum. Continued support will be given to field offices and Headquarters for publication production. Efforts to publish more reports in French and Spanish will also be continued.

355. **Media and Communications:** Through its media and communications activities at the global, national and community levels, IOM enhances public knowledge and understanding about migration and seeks to combat pervasive xenophobia and negative perceptions of migration through its communications outreach. Specific activities are undertaken with a view to raising awareness on key migration-related topics both among the general public and in targeted communities where IOM works. The Media and Communications Division assists IOM offices by reviewing project proposals, providing technical support and guidance, building IOM's capacity to communicate effectively through staff training, developing resources to enhance communications outreach, and increasing coordination on communications among internal and external actors.

	Programme/Project	Objectives
VI.1.1	Safety, Support and Solutions along the Central Mediterranean Route	To contribute to the safety, support and solutions programme along the Central Mediterranean migration route for refugees and migrants in situations of vulnerability through capacity-building for relevant stakeholders, information campaigns and enhancing policy support for governments.
IOM Strategy: 5, 7, 9		Budgeted resources: 640 300
VI.1.2 Enhancing Capacities for Effective United Nations Engagement in Asia and the Pacific		To contribute to IOM's effective engagement with the United Nations by responding and adapting to the ongoing United Nations reforms and, in the light of IOM's roles and responsibilities related to the United Nations Network on Migration, by enhancing the capacities of the regional and country offices in Asia and the Pacific.
IOM Str	ategy: 7	Budgeted resources: 129 900
Migratio	on Policy Activities	Total Budgeted resources: 770 200

VI.1 MIGRATION POLICY ACTIVITIES

VI.2 MIGRATION RESEARCH AND PUBLICATIONS

	Programme/Project	Objectives
VI.2.1	Global Migration Data Portal	To serve as a unique access point for timely and comprehensive migration statistics and reliable information about migration data globally. The project aims to make the evidence about migration issues accessible and easy to understand and to ensure that responses to migration are based on sound facts and accurate analysis.
IOM Strategy: 3, 4, 6		Budgeted resources: 16 200
VI.2.2	Regional Report on the Attainment of the Sustainable Development Goals in the Arab Region	To produce a regional context-specific report and reference guide that incorporates tools and approaches for achieving the Sustainable Development Goals in the participating countries in the Arab region. The project will help in addressing the multifaceted challenges faced by countries affected by conflict and assess how it affects the attainment of the Goals in these countries and the region in general.
IOM Str	ategy: 4	Budgeted resources: 72 200
Migration Research and Publications		Total Budgeted resources: 88 400

VI.3 MEDIA AND COMMUNICATIONS

	Programme/Project	Objectives
VI.3.1	Information Campaign on Migration Management in West Africa	To provide access to information that will allow for informed migration-related decision-making in target countries in West Africa through the "migrants as messengers" campaign, particularly targeting aspirant migrants and young adults. The project will use innovative communication tools and peer-to-peer messaging to raise awareness about the risks associated with irregular migration and to promote safe and orderly migration.
IOM Str	ategy: 5, 6	Budgeted resources: 3 873 500
VI.3.2	Next-generation Information Systems to Support European Union External Policies	To enhance external policies by pursuing better communication, information-sharing, joint reporting, analysis and response planning between Member State embassies, European Union delegations, European Commission services, European Union special representatives and common security and defence policy missions.
IOM Str	ategy: 2, 4, 5, 7, 8, 11	Budgeted resources: 11 800
VI.3.3	Information Campaign on Migration in Spain	To promote a more balanced vision of migration in Andalucia in Spain through the "I am a migrant" awareness-raising campaign, the main goal of which is to promote a positive perception of migration through an evidence-based approach and to challenge negative narratives.
IOM Str	ategy: 5	Budgeted resources: 11 400
Media a	and Communications	Total Budgeted resources: 3 896 700

VII. LAND, PROPERTY AND REPARATION PROGRAMMES

	Programme/Project	Staff and office costs	Programme costs	Overhead	Total costs
VII.1	Assistance for Victims of Colonia Dignidad in Chile	194 400		13 600	208 000
	Total	194 400		13 600	208 000

356. The total budget for Land, Property and Reparation Programmes is approximately USD 0.2 million. The project is listed with its objective(s) and its link(s) to the activities outlined in the IOM Strategy on page 18.

The challenges of migration in the twenty-first century increasingly require IOM to move beyond 357. its traditional services. More and more governments are called upon, for example, to return and/or compensate persons dispersed worldwide who have suffered displacement, dispossession, persecution or other forms of personal harm as a result of conflict or under authoritarian regimes, and they turn to IOM's global network for assistance. As such new migration-related scenarios evolve, reflecting contemporary political realities, governments call upon IOM to offer corresponding variations of its core services. Since 2000, IOM has provided legal and technical advice and assistance, operational support, and capacity-building services to national and transitional governments and to international actors addressing land and property disputes and engaged in peacebuilding and rehabilitation efforts following a conflict or natural disaster. IOM activities relating to Land, Property and Reparation Programmes mainly concern the design and implementation of programmes for the resolution of land disputes, the restitution of property rights, and other mobility-related land issues; the provision of financial compensation or inkind benefits to individual victims; and collective reparations for victim communities. The assistance provided also involves policy review and policy recommendations on land reform and national reparation strategies.

Programme/Project		Objectives	
VII.1	Assistance for Victims of Colonia Dignidad in Chile	To assist victims of Colonia Dignidad in Chile through the provision of health care, in particular psychotherapy and psychosocial support, and education, further training and employment opportunities.	
IOM St	trategy: 9	Budgeted resources: 208 000	
Land, Property and Reparation Programmes		Total Budgeted resources: 208 000	

VIII. GENERAL PROGRAMME SUPPORT

	Programme/Project	Staff and office costs	Programme costs	Overhead	Total costs
VIII.1	Seconded Staff	4 313 100	20 000	494 700	4 827 800
VIII.2	Migrant Management and Operational Systems Application (MiMOSA)	2 042 200		245 100	2 287 300
VIII.3	Staff and Services Covered by Miscellaneous Income	5 000 000	11 000 000		16 000 000
VIII.4	Sasakawa Endowment Fund		4 000		4 000
VIII.5	Unearmarked Contributions	65 000	9 370 100		9 435 100
	Total	11 420 300	20 394 100	739 800	32 554 200

358. The total budget for General Programme Support is approximately USD 32.6 million. The activities and services in each subcategory are described below.

VIII.1 SECONDED STAFF

Programme/Project	Staff and office costs	Programme costs	Overhead	Total costs
VIII.1.1 Junior Professional Officers	2 934 400		352 000	3 286 400
VIII.1.2 Special Assignments and Support	1 378 700	20 000	142 700	1 541 400
Total	4 313 100	20 000	494 700	4 827 800

VIII.1.1 Junior Professional Officers

359. Several governments continue to support the assignment of Junior Professional Officers, who assist the Organization in various aspects of its work. IOM currently has 27 Junior Professional Officers working at Headquarters and in the field. The donor countries, office location and number of Junior Professional Officers are listed below.

Donor Country	Office location	Number of Junior Professional Officers	Total costs
France	Switzerland	1	153 000
Germany	Mali and Switzerland	4	543 000

VIII.1.2 Special Assignments and Support

360. In addition to the staff and services covered by the Administrative and Operational Parts of the Budget, certain specific staff and other costs are funded by governments to supplement IOM's overall structure. With the budgetary constraints on core resources, this support is vital to the Organization's efforts to respond to and manage migration issues. The staff and office structures covered through these special arrangements are listed below.

• Regional human resources officer in the Regional Office in Nairobi, funded by the Austrian Development Agency

The Austrian Development Agency is funding the secondment of an official to hold the position of regional human resources officer, who is responsible for providing support and guidance to the Regional Office in Nairobi and country offices in the region on management of human resources.

Government official on loan from the Government of Denmark

The Government of Denmark has loaned a government official to IOM to serve as senior adviser on migration management. The senior adviser supports the Department of Migration Management in policy, strategy and programme development in line with the IOM Strategic Vision 2019–2023, with a special focus on development, resilience to climate change, and the humanitarian, development and peace nexus. The position also includes fostering a coherent and organization-wide approach to providing capacity-building for effective migration management and governance in line with the objectives and goals of the Global Compact for Safe, Orderly and Regular Migration and the 2030 Agenda for Sustainable Development, and assisting the Director of the Department in the performance of functions and responsibilities of the Department, such as representation in meetings and coordination processes with Member States, coordination with the United Nations system, implementation of the Global Compact and mainstreaming the Department's migration management expertise, strategies, policies and practical approaches in the Organization's activities.

Specialist at Headquarters, funded by the Government of Germany

The Government of Germany has loaned an official to IOM to support the Multilateral Processes Division through advisory services and coordination with key United Nations system and other relevant partners and to support IOM country and regional offices in the areas of United Nations reform, the 2030 Agenda for Sustainable Development and the Sustainable Development Goals. The position also includes ensuring that IOM maintains a strong and coherent voice in the United Nations Network on Migration and within the GFMD.

• Partnership officer in the IOM Office in Tokyo, funded by the Government of Japan

The Government of Japan is funding the secondment of a partnership officer who is responsible for supporting the Office's core needs in terms of migration policy-related activities, project development, public outreach and private sector liaison and for providing support for the Office's overall management requirements, including reporting.

• Senior regional policy and programme coordinator in the Regional Office in Nairobi, funded by the Swedish International Development Agency

The Swedish International Development Agency is funding the secondment of a senior official to support the Regional Director in maintaining regular contact with IOM offices in the East and Horn of Africa and regional, international, governmental and non-governmental partners and to contribute to regular national and regional policy dialogues and policy development in the East and Horn of Africa.

Adviser at Headquarters, funded by the Swedish International Development Agency

The Swedish International Development Agency is funding the secondment of a senior official to support IOM's engagement in the ongoing discussions on the humanitarian, development and peace nexus and the new way of working, articulating the Organization's approach and contribution to the nexus and the new way of working and advocating the integration of the approaches across IOM's operations, including through the Organization's participation in humanitarian and development coordination mechanisms at the national and global level. The adviser will work closely with relevant IOM divisions and regional and country offices to support the development of strategies and partnerships, with a focus on advancing the new way of working within IOM's work, coordination and policies.

Voluntary return and reintegration focus officer at Headquarters, funded by the Government of Switzerland

The Government of Switzerland is funding the secondment of an official to hold the position of Voluntary Return and Reintegration Focus Officer, who will work in the Migrant Protection and Assistance Division. The secondee will provide support on direct assistance and voluntary return and reintegration, analyse these areas with a view to assisting the Division with the development of policy and guidance documents and assist in the implementation of the Division's strategic plan.

Senior regional policy officer in the Regional Office in Vienna, funded by the Swiss State Secretariat for Migration

The Swiss State Secretariat for Migration is funding the secondment of an official to hold the position of Senior Regional Policy Officer, who is responsible for providing technical expertise on national and regional migration policies to support the development and implementation of the new IOM overall strategy in key areas of migration management policy. The Officer will engage with relevant stakeholders and establish and maintain partnerships at the highest level with government entities, local authorities, implementing partners, United Nations agencies, donors and other stakeholders in coordination with the senior management at the Regional Office in Vienna.

Senior adviser on migration management at Headquarters, funded by the Government of Turkey

The Government of Turkey has loaned an official to IOM to serve as a senior adviser on migration management. The senior adviser will monitor and analyse new global and regional trends in the field of border management, with a focus on border development and security; provide policy advice; and support policy development. The senior adviser will also serve as project manager the development of the upgrade of the IOM flagship training, capacity-building and policymaking tool, the Essentials of Migration Management 2.0; develop partnerships with potential donors; and provides advice and support on developing synergies and strengthening partnerships with other international agencies, including the World Customs Organization and the United Nations Office on Drugs and Crime.

Office costs of the IOM Office in Kuwait City, funded by the Government of Kuwait

The IOM Office in Kuwait City receives support from the Government of Kuwait to partially cover its costs.

Office costs of the IOM Office in Bratislava, funded by the Government of Slovakia

The IOM Office in Bratislava receives support from the Government of Slovakia to partially cover its costs.

Office costs of the IOM Office in Madrid, funded by the Government of Spain

The IOM Office in Madrid receives support from the Government of Spain to partially cover its costs.

Budgeted resources: 1 541 400

VIII.2 MIGRANT MANAGEMENT AND OPERATIONAL SYSTEMS APPLICATION (MIMOSA)

	Programme/Project	Staff and office costs	Programme costs	Overhead	Total costs
VIII.2	Migrant Management and Operational Systems Application (MiMOSA)	2 042 200		245 100	2 287 300

361. MiMOSA is an organization-wide information system for capturing and processing biographical and demographic information on individual migrants and the services provided to them with regard to migrant registration, movement, health assessment, assisted voluntary returns, reintegration and counter-trafficking. Every IOM field office with activities in one of the above areas uses the system, allowing better coordination of activities and services delivered to migrants and refugees. The MiMOSA data centrally captured through the web-based application allow operations staff to interface with the financial system (PRISM Financials) to further enhance the benefits of integrated systems. MiMOSA has

an automated interface with the US Department of State's Refugee Processing Center system (WRAPS – Worldwide Refugee Admissions Processing System) and the US Centers for Disease Control and Prevention to enhance the efficiency of the US Refugee Admissions Program.

362. The RMI (Receiving Mission Interface) is a web-based application that allows receiving offices to process transactions such as the advance booking notifications, additions, deletions, cancellations and departures entered by the MiMOSA user to ensure data quality and consistency. RMI users can also enter domestic booking details from the port of entry to the final destination, interface with iGATOR and PRISM Financials, and update the arrival status of migrants in the destination country. The RMI is currently used by the IOM Office in New York. iGATOR is the corporate application that captures the costs of tickets for migrants, staff and consultants. It interfaces with MiMOSA, the RMI and PRISM, streamlining data exchanges between operations and finance, thereby further enhancing IOM's capacity to manage flight bookings and timely settlement of airline bills.

Budgeted resources: 2 287 300

VIII.3 STAFF AND SERVICES COVERED BY MISCELLANEOUS INCOME

	Programme/Project	Staff and office costs	Programme costs	Overhead	Total costs
VIII.3	Staff and Services Covered by Miscellaneous Income	5 000 000	11 000 000		16 000 000

363. Miscellaneous income comprises unearmarked and interest income and is an integral part of OSI. It is allocated to the IOM Development Fund and the Organization's core structure and services in line with governing body resolutions.

Budgeted resources: 16 000 000

VIII.4 SASAKAWA ENDOWMENT FUND

	Programme/Project	Staff and office costs	Programme costs	Overhead	Total costs
VIII.4	Sasakawa Endowment Fund		4 000		4 000

364. In line with the guidelines for the use of interest accrued on the Sasakawa Endowment Fund, an allocation from the interest the Fund is expected to earn in has been earmarked for priority projects in Africa, Asia and Latin America and the Caribbean. The projects, which are yet to be identified, will focus on the promotion of migration-for-development activities, furthering understanding and analysis of migration, and responding to emergency and humanitarian needs.

Budgeted resources: 4 000

VIII.5 UNEARMARKED CONTRIBUTIONS

	Programme/Project	Staff and office costs	Programme costs	Overhead	Total costs
VIII.5	Unearmarked Contributions	65 000	9 370 100		9 435 100

365. The Administration continues to engage with Member States on the possibility of making unearmarked voluntary contributions to the Organization. Such contributions enhance the Organization's ability to undertake critical development and enhancement initiatives in areas such as information systems, controls, monitoring and evaluation, risk management and results-based management, and to adapt its strategies and priorities to respond to ever-changing migration patterns. The unearmarked contributions received have enabled the Administration to carry out such strategic initiatives, which would not have been possible within available core resources. Given the long-term nature of the Organization's internal governance reforms and migration policy support commitments, the Administration encourages Member States to make predictable, multi-year, unearmarked contributions to the Organization. The Operational Part of the Budget for 2021 includes such contributions from the following Member States: Austria, Belgium, Denmark, Ireland, the Netherlands, Norway, Sweden, the United Kingdom and the United States.

Budgeted resources: 9 435 100

^a Excluding the contributions from new Member States.

^b Figures given in US dollars are rounded to the nearest thousand.

^c The increase represents the addition of contributions from new Member States, in line with the budget regulations.

^d These are estimates based on projections.

^e Number may be subject to change.

Note 1: The amounts given are either the final figure for the year, or the latest available revision or estimate.

Note 2: Core structure includes amount designated for staff security.

ZNG - Zero nominal growth.

ANNEX II – FUNDS IN SPECIAL ACCOUNTS

EMERGENCY PREPAREDNESS ACCOUNT

In accordance with IOM General Bulletin No. 1054, the Emergency Preparedness Account was established on 30 August 1993 for use in emergency situations where there is a clear need for immediate assessment and for other operational expenditure, prior to the actual receipt of external funding. Any authorized use of the Account is considered as a loan against the specific operation that it initially supports, and all funds disbursed from the Account are to be fully reimbursed as soon as possible once the operation obtains donor support. The balance of the Emergency Preparedness Account in August 2020 was USD 129,594.

MIGRATION EMERGENCY FUNDING MECHANISM

Through Council Resolution No. 1229 of 5 December 2011, the Migration Emergency Funding Mechanism was established with the purpose of bridging the gap between the start-up of emergency operations and the subsequent receipt of donor funding. The Mechanism, which is intended to have an operating balance of USD 30 million, is funded by voluntary contributions from various sources, including Member States, the private sector and individuals. As of August 2020, total voluntary contributions made to the Mechanism amounted to USD 11,348,155, of which there was a remaining balance of USD 1,833,564.

The Mechanism was established against the backdrop of major emergencies, which had highlighted the need for a funding mechanism to facilitate IOM's rapid response and intervention in the wake of emergencies involving international migration. It complements other funding mechanisms in providing rapid funding in emergency situations.

The Administration expends funds from the Mechanism to ensure a rapid response to an emergency involving migration, pending receipt of donor contributions for the said emergency, and replenishes the Mechanism upon receipt of donor contributions and within the limits of funds allocated for the said emergency. The Mechanism is governed by the Financial Regulations of IOM and is subject to an annual audit by the Organization's External Auditor.

A proposal has been presented to Member States to consolidate the Emergency Preparedness Account in the Migration Emergency Funding Mechanism. Any change approved will be reflected in subsequent versions of the Programme and Budget.

RAPID RESPONSE TRANSPORTATION FUND

Building upon the Memorandum of Understanding between IOM and UNHCR of 15 May 1997, the Rapid Response Transportation Fund was established in 2000 to facilitate joint operations between the two organizations. It specifically lays out each organization's responsibilities in the provision of transportation assistance. Over the years, the Fund has enabled IOM to respond rapidly and efficiently to emergency humanitarian transportation requirements in close collaboration with UNHCR. The Fund may be drawn on particularly in emergencies where it is established that there is a clear need for immediate assessment and transportation expenditure prior to receipt of external funding. The Fund is financed by voluntary contributions and aims at maintaining a balance of USD 5 million. The balance of the Fund as of August 2020 was USD 844,599, which is a level that requires replenishment.

IOM INHERITANCE FUND

The IOM Inheritance Fund was established to manage the use of legacies received from the estates of individuals. An oversight group, which comprises representatives from both Headquarters and the field, is responsible for its management. The criteria for the use of the funds are intended to be general in nature, but the specific requirements of benefactors have been taken into account and the criteria will be updated in future as appropriate.

Criteria for the use of the funds

In line with the specific requirements of benefactors, part of the funds have been earmarked to support refugees, asylum seekers and other vulnerable migrants who meet certain eligibility criteria through the provision of education grants to facilitate their integration. The portion of the Fund which has not been earmarked will be managed within existing funding mechanisms, including the Humanitarian Assistance for Stranded Migrants mechanism and the Global Assistance Fund.

Administration

A minimum balance of USD 10,000 will be maintained to keep the Fund active for similar donations in the future and to preserve the legacy of the benefactors.

Allocations from the Fund will be limited to USD 10,000 per individual or USD 30,000 per case (comprising more than three individuals).

The management and operation of the Fund shall be in accordance with IOM's Financial Regulations. Proposed uses of the funds will be presented in the Programme and Budget.

The status of the Fund will be reported through the annual audited financial statements of the Organization. The status report will include information on: (a) available funds; (b) funds disbursed; (c) interest earned during the year; and (d) the balance at the end of the financial year.

The objectives and eligibility criteria will be subject to periodic review.

Allocation process

The process for the allocation of funds is under the overall responsibility of the oversight group. All requests for funding will be reviewed first by the oversight group to ensure that the intended use meets the established objectives and criteria. The oversight group will then make a recommendation for consideration and approval by the Director General.

The Fund will be used mainly to finance direct assistance to beneficiaries and will not cover any staff or office costs.

The balance of the Fund in August 2020 was USD 1,865,816

REFUGEE LOAN FUND

The Refugee Loan Fund, established pursuant to Resolution No. 210 of 12 May 1960, permits the financing, in part or in whole, of the cost of transporting refugees and related services by giving interest-free loans to those who require financial assistance to migrate to resettlement countries. Repayment of such loans is secured by promissory notes signed by the refugee or his or her sponsor.

It is estimated that 28,000 individuals will be seeking assistance under the Refugee Loan Fund in 2021, and approximately USD 133,400,000 will be expended from the Fund to finance these movements.

The following table estimates the resources available and required for 2021, as well as the anticipated balance at the end of the year.

	2021 Estimates in USD
Resources	
Brought forward from 2020	10 000 000
Contributions from the United States Government	96 500 000
Repayments of promissory notes by refugees	36 800 000
Income from self-payers and other income	100 000
Interest income	10 000
Interest returned to the United States Treasury	(10 000)
Total resources	143 400 000
Estimated requirements	133 400 000
Estimated balance to be carried forward at the end of the year	<u>10 000 000</u>

SASAKAWA ENDOWMENT FUND

The Sasakawa Endowment Fund was established in 1990 for the purpose of:

- (a) Promoting the expansion of programmes to transfer human resources in all regions of the world, particularly in the Asia and Pacific region, and of other migration-for-development activities;
- (b) Furthering the understanding and analysis of migration;
- (c) Responding to emergency and other humanitarian migration needs.

Under the endowment agreement with the Sasakawa Foundation, the Fund's capital must remain intact and only the interest income generated from the Fund may be used to finance activities.

	2021 Estimates in USD
Capital account	
Balance at the beginning of the year	2 000 000
Balance from income account (see below)	0
Fund total at the end of the year	<u>2 000 000</u>
Income account	
Balance at the beginning of the year	0
Interest income earned during the year	4 000
Allocation of interest income to projects*	(4 000)
Balance at the end of the year	0
* Allocation for priority projects	USD 4 000

SPÜHLER WELFARE FUND

The Fund was established following the receipt of a legacy from Ms Helena Verena Spühler, a former IOM staff member.

The Fund is managed by the Global Staff Association Committee, in coordination with the Administration, following the criteria outlined below.

Criteria for the activation of the Spühler Fund:

- The Fund will provide support to a spouse or partner with whom there are cohabitation arrangements in the case of the death of an IOM staff member (as defined in the Staff Regulations and Rules) who is on active duty.
- A request for assistance under the Fund should be submitted in writing to the Global Staff Association Committee, which will decide whether to grant the request; the Administration will be consulted if needed and requested to match the contribution allocated by the Committee.
- Decisions will be taken within five working days upon receipt of a request.
- The Fund will provide a maximum allocation of USD 1,500 per case.
- An amount higher than USD 1,500 may exceptionally be approved if agreed jointly by the Committee and the Administration. The additional amount should be covered from other funding sources, such as the Committee's Compassion Fund.
- The total yearly allocations financed by the Fund will be limited to USD 15,000. Interest earned will be credited to the Fund at year end.

The balance of the Fund as of August 2020 was USD 88,940.

ANNEX III – FOREIGN CURRENCY CONSIDERATIONS IN THE PROGRAMME AND BUDGET

Under IOM's Financial Regulations, the Administrative Part of the Budget is expressed in Swiss francs (CHF), while the Operational Part of the Budget is expressed in US dollars (USD). While much of the income and expenditure under both parts of the budget occur in the indicated currencies, owing to its global footprint, IOM receives and spends its funding in a wide range of currencies, exposing the budgets concerned to exchange rate fluctuations.

For the preparation of the Programme and Budget, IOM's procedure is to use the exchange rates prevailing at the time the budget is prepared in order to express other national currencies in terms of Swiss francs or US dollars. The preparation process begins early in the year since budget estimates must be received from each IOM office worldwide and consolidated to meet the deadlines for the governing body meetings.

To date the US dollar has fallen against most other major currencies during 2020, significantly against the Swiss Franc, as USD interest rates were drastically cut in early 2020. The average rate of exchange recorded from January to August 2020 for some of the major currencies used by IOM are shown below:

Swiss franc/US Dollar: 0.9547

Euro/US Dollar: 0.8952 / 1.1180

Pound sterling/US Dollar: 0.7892 / 1.2681

Canadian dollar/US Dollar: 1.3574

Australian dollar/US Dollar: 1.4927

The exchange rate applied to the Administrative Part of the Budget is 0.97 Swiss francs per US dollar. It should be noted that any effects of foreign exchange rate fluctuations on this part of the budget are largely neutralized because the predominant currency of income and expenditure is the same, namely the Swiss franc.

However, the Operational Part of the Budget is much more complex as many different currencies are received and expended in different locations. The Treasury Division closely monitors the net currency position and intervenes in the foreign exchange markets to rebalance IOM's currency position to be as close as possible to a naturally hedged position.

Exchange fluctuations can present financial risks when a project's funding is received in a different currency from the expenditures it is intended to cover. To reduce the exposure to the risk of a funding shortfall caused by unfavourable currency fluctuations, IOM closely monitors and manages its projects, supported by PRISM Financials, which can report project income and expenditure in different currencies. The risk is reduced and monitoring made easier by the fact that some of the largest projects have income and expenditure mostly in the same currency, and thus are naturally hedged.

ANNEX IV – OPERATIONAL PART OF THE BUDGET – STAFFING LEVELS/STAFF AND OFFICE COSTS

EXPLANATORY NOTE

The projected staff and office costs for the Operational Part of the Budget take into account the office infrastructure required to implement the projected level of the Organization's operational activities.

The staffing levels and related costs attributable to specific operational projects are included under project funds based on projected activities and confirmed funding. Staff and office structures are subject to the level of activity and funding and therefore change on an ongoing basis.

Staff and office structures funded from OSI are reflected separately in the staffing table.
